Confirm Password

••••••••••

At least 12 characters long, with 1 uppercase, 1 lowercase, and 1 number.

Create Account

Continue with Google

Continue with Microsoft

Cancel

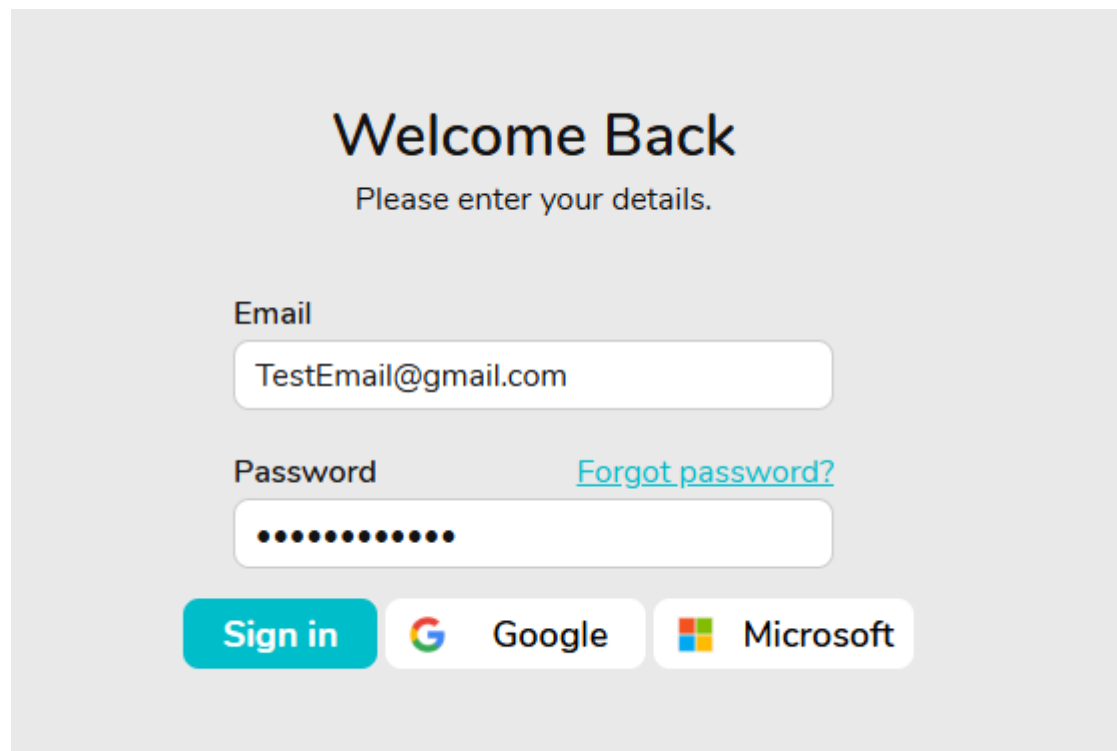

Now, set your **Password** and choose your **Timezone**. Then click **Create Account**.
Alternatively, if you prefer to create an account with a Google or Microsoft account, click **Continue**

with **Google** or **Continue with Microsoft** and follow the prompts.

Your password requires at least 12 characters, 1 uppercase, 1 lowercase and 1 number.

Now we're ready to log in. Enter the details you just created and click **Sign In**.

If you created your account using a Google or Microsoft account, click **Google** or **Microsoft** to log in.

A login screen with a light gray background. At the top, the text "Welcome Back" is centered in a large, dark font, with "Please enter your details." below it in a smaller font. There are two input fields: "Email" containing "TestEmail@gmail.com" and "Password" containing a series of dots. To the right of the password field is a blue link "Forgot password?". Below the fields are three buttons: a teal "Sign in" button, a white button with the Google logo and text "Google", and a white button with the Microsoft logo and text "Microsoft".

Welcome Back

Please enter your details.

Sign in Google Microsoft

The next step is to set up two-factor authentication, for the security of your users and your data.

A "Two-Step Verification Setup" screen with a light gray background. The title "Two-Step Verification Setup" is centered, with the subtitle "To help keep our client's data secure we need to identify you via SMS." below it. The screen is divided into two main sections. The first section, "Step 1 Enter your mobile number", has a dropdown menu showing "61" and a text input field containing "0412 345 678". To the right of the input field is a teal "Send SMS" button. The second section, "Enter your 6-Digit Code via SMS", has a text input field containing "Enter your 6-digit code" and a teal "Verify" button. At the bottom, there is a checkbox labeled "Remember me for 30 days" which is checked, and a "Cancel" button. Red numbered circles (1-5) are overlaid on the form to indicate the sequence of steps: 1 on the mobile number input, 2 on the "Send SMS" button, 3 on the 6-digit code input, 4 on the "Remember me" checkbox, and 5 on the "Verify" button.

Two-Step Verification Setup

To help keep our client's data secure we need to identify you via SMS.

Step 1 Enter your mobile number

61 0412 345 678 Send SMS

Enter your 6-Digit Code via SMS

Enter your 6-digit code Verify

Remember me for 30 days ☒

(We won't ask you for the SMS verification next time, on this computer)

Cancel

1. Enter your mobile number (The leading 04 is required!)

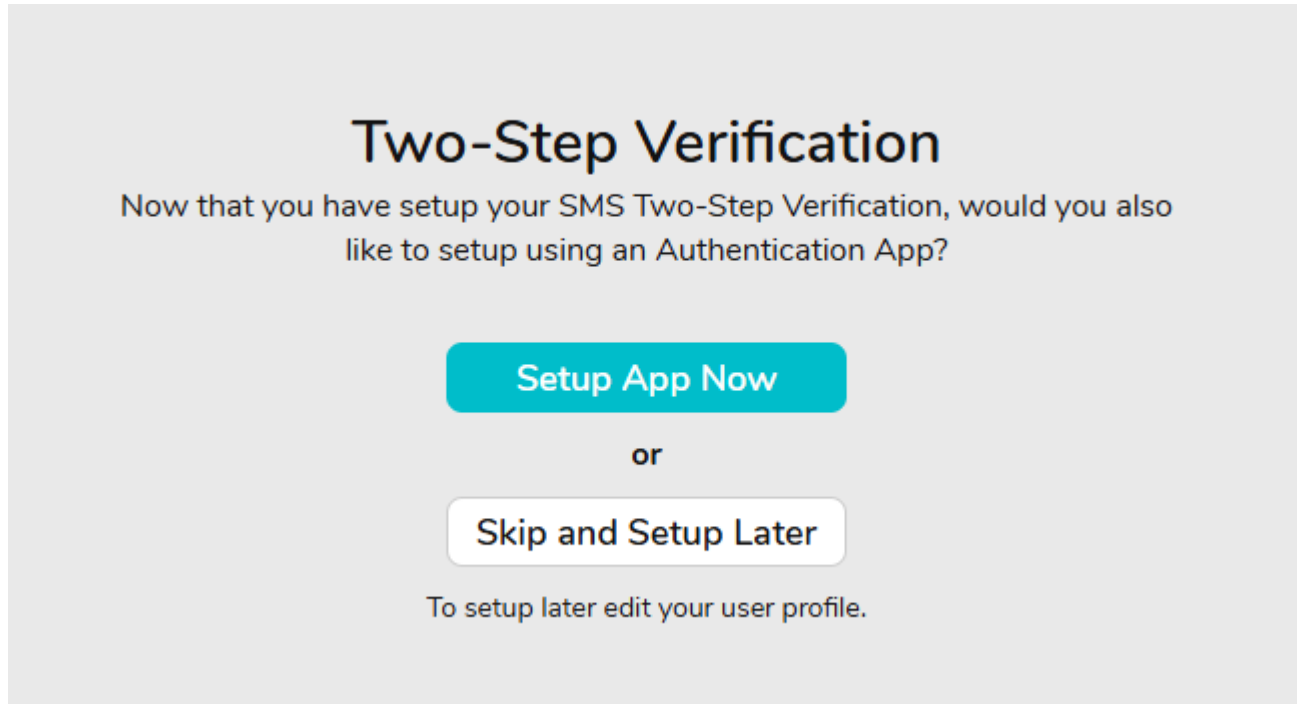

2. Click 'Send SMS'

3. Enter the 6 digit code that was sent to your mobile

4. Tick Remember me for 30 days (Optional)

5. Click Verify

Now that you've set up SMS Two-Step Verification, you also have the option to set up an **Authenticator App**.

If you'd like to set up the Authenticator App, click **Set Up App Now**. You'll find steps on how to set up an authentication app on the following page: [FYDO Two-Step Authentication - FYDO Wiki](#) Or, if you prefer to skip this step for now, simply click **Skip and Set Up Later**.

All done! You can now log in and access FYDO from any browser!
