

Single Sign On (SSO) with FYDO

At FYDO, we are committed to continuously enhancing the security and convenience of our platform for our valued customers. And because of that, we use Single Sign On (SSO) to FYDO! This feature will allow you to access FYDO using your existing credentials from Microsoft or Google, simplifying your login process while maintaining the highest level of security.

SSO is a secure authentication process that enables you to log in to multiple applications with a single set of credentials. By integrating SSO, we aim to provide you with a seamless and efficient log in experience.

When you log in, you will notice two buttons for Microsoft and Google account access, as pictured below.

If you are already logged into your browser with either a Google or Microsoft account, you can click on the applicable button to log in. This will take you directly to the FYDO dashboard or the Two-Step Verification Process via SMS, email, or an Authentication App as usual.

Note- The account you use must already be set up in FYDO to proceed.

If you are not already logged into your browser with an account, you will be prompted to '**Pick an account**' or '**Use another account**' as shown below. You will need to enter your password to proceed.

You may still use your email and password to log in unless your FYDO account subscriber has forced SSO to be used. In that case, you may receive a message at the top of the screen, as shown:

If you receive the message above, please try using the Microsoft or Google buttons. If you still have problems logging in, **contact your FYDO account subscriber** (*the person in charge of FYDO at your facility*) before reaching out to Altura Health Support.

If you have forgotten your Microsoft or Google password, please contact your IT department. This issue is separate from FYDO and cannot be addressed by Altura Health Support.

How to enforce SSO in FYDO

SSO authentication can be enforced for all or selected users. Once SSO is enforced, an email invitation will be sent to the applicable user/s, advising them to activate their account via SSO. The user does not need to use the email invitation link; they can go directly to the FYDO website.

Note: Once a user is required to use SSO by their facility, their existing password will be deleted.

To enforce SSO for all users:

1. Go to **Settings > Security** and click **Edit**.
2. Tick the **SSO as Mandatory** tick box (as shown below) and click **Save**.

If, for any reason, some users are unable to authenticate using SSO, they can be reverted back to the standard email/password authentication method.

To revert all users to email/password authentication:

1. Simply untick the **SSO as Mandatory** box in **Settings > Security**.

To revert specific users to email/password authentication:

1. Go to **Settings > Users**
2. Double-click on required user
3. Click **Edit**
4. Untick **SSO Mandatory**
5. Click **Save**

Reverted users will receive another email invitation to set up their new password.

You can see which users have SSO enforced and whether they have successfully authenticated using SSO by going to **Settings > Users**.

- **SSO Blank:** User not forced to use SSO
- **SSO Red Cross:** User forced to use SSO but not activated
- **SSO Green Tick:** User has activated SSO

[Exporting Referring Doctors/Practices](#)

How to Export Referring Doctors:

1. Click on **Settings**

2. Under **General**, Click on **Referring Doctors**

3. Click the **Export To** button and choose either **Excel** or **PDF**.

How to Export Practices:

1. Click on **Settings**

2. Under **General**, Click on **Practices**
3. Click the **Export To** button and choose either **Excel** or **PDF**.

[Amending a User's Email Address](#)

There may be instances when a user needs to change their FYDO log in email address. This can be done by the user themselves by following the steps below.

The only exception is the Subscriber who is unable to change their email address themselves & will need to contact FYDO Support if amendments need to be made.

1. Hover over **User Profile** (*Your Initials*)
2. Select **Edit Profile**
3. Select **Edit**
4. Amend **Email**
5. Click **Save**

The new email address will need to be used for log ins from there on.

How to change user's timezone

Need to change your timezone? Read on to learn how!

Note: This setting is unique to the user. Therefore, each user will need to check their own timezone settings.

1. Hover over the **profile icon** (*Your Initials*)
2. Click on **Edit Profile**.
3. Select **Edit**
4. Select the desired **TimeZone**.

Click **Save** and you're all done! You have successfully updated your TimeZone on **this profile**.

Adding SMS templates

Do you regularly SMS patients? If so, you can create custom SMS templates to save time typing up the message every time and to send tailored messages, complete with the patient's name, appointment time, serving doctor, and more.

To begin, first go to **Settings**.

Then click on **SMS Templates** under the templates menu.

> Templates

- Clinical Note Template
- SMS Templates **2**
- Templates

This reveals the SMS templates currently available. By default, an **Appointment Reminder** template will be available to you.

Adding a new SMS template

To add a new SMS template, click on the **Add SMS Template** button.

Add SMS Template

Then, select the SMS **Type**, enter the template **Name**, and type out the SMS content in the **Description** field.

ID	4
Type	Appointments
Name	Appointment Reminder
Description	Hi <<patfirstn>>, this is a reminder of your appointment at the <<ListLocName>> breast screening clinic on <<listdate>> at <<listtime12h>>.

SMS Tokens

You can use 'SMS tokens' which are commands that look like: <<patfirstn>> to send tailored SMS messages. The aforementioned token for instance dynamically pulls the patient's first name.

There are SMS tokens for patient details, appointment details, doctor/ practice details, referral details, and more.

For a full list of tokens, click the link below:

<https://wiki.fydo.cloud/?s=tokens>

Once you're happy with the contents of your SMS template, click **Save** and you're done! Your new SMS template will be available next time you wish to send a custom SMS message.

Save

For some SMS Template ideas see our helpful wiki page
<https://wiki.fydo.cloud/sms-template-examples/>

[Adding MBS items - Clinic](#)

Want to know how to add items into Fydo? Follow the below steps and you'll be billing them in no time!

First, lets head to **Settings**, located in the lower left hand corner of Fydo.

Then select **Items**, this will display a list of all your current items.

To add a new item, lets click the yellow **Add Item** button.

Simply enter the item you need in the **Number** field as below, found under the **Item Details**.

A screenshot of the "Item Details" form in the Fydo application. The form has a title bar "Item Details" in a dark grey box. Below the title bar, there are four input fields: "Number" (containing the value "1"), "Procedure Name" (empty), "Notes" (empty), and "Link Procedures" (empty). A blue question mark icon is visible in the bottom right corner of the "Link Procedures" field.

You will see the **Procedure name** be automatically filled.

Now just click on the green **Save** button.

Save

All done! The rest of the information regarding the item will automatically be added from information via the **Medicare Benefits Schedule** online Website.

Things such as:

- Fees (Medicare and DVA rates)
- Description
- Rule (If it has one e.g Surgical step down)

[Making a Referring Doctor Inactive](#)

Need to delete or remove an existing referring doctor? Read ahead to find out how we can make them **Inactive**.

1. Click on **Settings**

2. Then, **Referring Doctors**

> Referring Doctors

This will display a list of all the referring doctors you currently have.

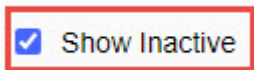

3. Select the doctor you wish to make **Inactive** by clicking anywhere on their row in the list of doctors.

4. You will now see the details for this doctor, now click on **Edit** on the top right hand corner of the page. Simply untick the **Active** box next to **Status** as shown below.

The screenshot shows a form for a doctor's profile. At the top right is an 'Edit' button. The form fields are: 'Type' set to 'Specialist' with a dropdown arrow and a blue question mark icon; 'Speciality' set to 'Other' with a dropdown arrow; 'Email' is an empty text field; 'Mobile' is a text field containing '- -'; 'Created On' is a date field set to '12/03/2020'; 'Birthdate' is a date field with a calendar icon; and 'Status' is a toggle switch set to 'Active'.

Now the doctor has been made **Inactive**; you will not find them when searching for them, and they will not appear on the list of **Referring Doctors**.

If you wish to view the doctor again, or make them **Active** again, simply tick the **Show Inactive** box from the **Referring Doctors** screen.

You will now be able to see the doctor, and you can edit them as per normal, including making them **Active** again.

Referring Doctors

To access a list of the referring doctors you have added into Fydo simply follow the below steps:

1. Click on **Settings**

2. Then, **Referring Doctors**

This will display a list of all the referring doctors you currently have.

To **add** a referring doctor, click the yellow **Add Referring Doctor** button on the top right hand corner of your screen:

Add Referring Doctor

To **Edit** the details of an existing doctor, simply click **anywhere** along the row for that doctor, and you will be taken to the edit screen:

To get started editing, click on the **Edit** button on the top right hand corner of the page.

Edit

Whether you decided to **Add** a new Referring Doctor, or **Edit** an existing one, you will be met with the same screen:

Referring Doctor Details

Number	<input type="text"/>	Provider Number	<input type="text" value="123456AF"/>	
Title	<input type="text" value="Dr"/>			
First Name	<input type="text" value="Test"/>			
Surname	<input type="text" value="Doctor"/>			
Practice Name	<input type="text" value="The ACSS Test Practice"/>			
Address	<input type="text" value="123 ACSS Street"/>			
Suburb	<input type="text" value="HOMEBUSH"/>	NSW	<input type="text" value="2140"/>	
Phone	<input type="text" value="()-"/>	Fax	<input type="text" value="()-"/>	

Type	<input type="text" value="GP"/>		
Speciality	<input type="text"/>		
Email	<input type="text" value="Test.Dr@test.com.au"/>		
Mobile	<input type="text" value="- -"/>		
Created On	<input type="text" value="26/03/2020"/>		
Birthdate	<input type="text" value="01/01/1990"/>		
Status	<input checked="" type="checkbox"/> Active		

Simply fill out, or change the fields as needed.

Remember, the required fields for a referring doctor are:

- **Provider Number - You can put a 0 if you do not have the number. Please note that you will need to enter it before submitting your claims, or you will run into rejections.**
- **First Name and Surname**
- **Type (GP or Specialist) - This affects the length of the referral, GP: 12 months, Specialist: 3 months.**
- **Speciality (If Specialist is selected)**

While there are a few other fields, they are optional.

Once you are happy with your changes, click the green **Save** button to lock them in.

Save

You are also able to **Create** and **Edit** referrals from within the **Patient Details**, should you wish to do so, please see our [Creating a Patient](#) wiki page.
