

Data Migration Testing

When we migrate your data across from your old system into FYDO, it is important you check the data to ensure all information has come across correctly and there is no data missing.

Please ensure you follow the steps below and test your data before we move to the final migration stage. We recommend you have your old system open as well as your new FYDO account and compare all information listed below.

Please compare at least 40 patients records from a range of different dates to ensure we get a comprehensive overview of data that has been transferred.

Please check:

- **10 very old patients** select patients from 5-10 years ago (*depending on how long you've used your previous system*)
- **10 patients** who have been admitted within the last 2-3 years
- **10 Patients** who have been admitted within the last 12 months
- **10 Patients** who have been admitted within the last 6 months

When reviewing these records, please ensure the following information is accurate:

Patient Screen Example:

- Patient demographics - Patient Names, DOB, address
- Medicare Number or DVA Number
- Private Health Fund and Number
- Other Information Fields - Allergies and Notes if applicable
- Personal Information - Marital Status, Indigenous Status, Language
- Referring doctor information if applicable
- Next of Kin details if applicable

Hospital Coding Details:

Coding Screen - Diagnosis Codes, Procedure Codes, Anaesthetic Type, DRG

The screenshot displays a 'CODING SCREEN' for a patient with MRN 121 - HARD, Work. Key details include: DOB 01/01/1978 (48), Sex Male, File No, Fund W/C, and Location Shaes Private Hospital (QLD). Admission No. 1265, EpiNo. 17, Admission Date/Time 03/03/2026 14:02, and Discharge Date/Time 03/03/2026 16:00 are highlighted with red boxes. The screen is divided into three main sections: Diagnosis, Procedure, and DRG. The Diagnosis section shows a Principal Diagnosis (P) with Code I97.83, Description Postproc Imphecele Imphdma & chylothorax, Cluster B - not assigned to a, and Indicator Y - Condition present on admission. The Procedure section shows an Anaesthetic Type of General, Code 30483-00, Description Ins perc nonendog gastrostomy button, Surgeon/Dr House, Greg, Date 03/03/2026, and Location. The DRG section shows DRG Code F75C, Description Other Circulatory Disorders, Minor Complexity, MDC 05, Date Grouped 17/03/2026, and DRG Version 8.0. A total amount of \$700.00 is displayed at the top right.

Clinic List Example:

Time, Cancelled Patients, MRN, Patients Name, Notes, Appointment Type

The screenshot shows a 'Clinic List' for Wednesday, 18 Mar 2026. The list includes columns for Time, Name, MRN, Notes, Mobile, App. Type, Length, and Inv. A patient named TEST_Test is highlighted in blue, with their MRN 210 and App. Type Gastro highlighted by red boxes. The appointment is scheduled for 08:00 and has a length of 10 minutes. Other appointments are scheduled at 07:00, 07:30, 08:10, 08:30, 09:00, and 09:30, all with a length of 30 minutes and App. Type test.

Time	Name	MRN	Notes	Mobile	App. Type	Length	Inv
07:00					test	30	...
07:30					test	30	...
08:00	TEST_Test	210		16666666	Gastro	10	...
08:10					test	20	...
08:30					test	30	...
09:00					test	30	...
09:30					test	30	...

Please note: Depending on the system we are migrating your data from, bringing across all this information may not be possible and in this case, your FYDO onboarding specialist will highlight the information you need to check. Once you have checked the data is correct, please email us at sales@alturahealth.com.au to confirm you are happy with the data migration, and we will proceed to the final migration stage. If you have any issues with your data migration, please contact your FYDO Onboarding Specialist as soon as possible.
