

Hospital Adjustments

Adjustments via the Adjustments Screen

If an adjustment is required for refund, write off, incorrect billing purposes etc it can be done using the Adjustments Screen or from the patient History / Episode screen. Both options are explained below.

Making the entry from the Adjustments Screen

1. Go to **Accounts** in the main menu & select **Adjustments**

2. For multi-location systems, use the drop down to select the relevant **Location**
3. Enter the required **Transaction Date** if it differs from the current date
4. Use the **Type** dropdown to select the required transaction type e.g., write off, incorrect billing, discount, refund etc.
5. If **Refund** is selected as the Type, the **Payment Type** field will be displayed so the method of the transaction can be documented. For all other journal / adjustment Types this field will not be necessary & won't be displayed
6. Type the required information in the **Drawer** field
7. Use the **Reference No., Bank & Branch** fields, if the facility work instructions require, to document additional information regarding a bank cheque for refunds etc
8. Click "**Click to Search for an individual Account**" and the search box will be displayed to find the required patient
9. Once a patient is selected, the invoices with an outstanding amount will be displayed
10. Use the **Show All Invoices** option to display invoices that don't currently have an outstanding balance
11. Type the amount to be refunded in the **Allocated** column
12. Once you have moved from the Allocated field the system will show you the **Possible Balance** of the invoice, following the adjustment

13. Once all details have been confirmed & are correct click **Save**

The screenshot displays the 'Adjustment Details' interface. On the left, there is a form with the following fields: Location (ACSS Bondi Hospital), Transaction Date (15/08/2022), Type (REFUND), Payment Type (Direct Deposit), and Reference No. (Bank, Branch). A 'Click to Search for an Individual Account' link is at the bottom of the form. On the right, there is a table with columns: MFRN, Surname, First Name, Adm Date, Inv#, Fund, Balance, Allocated, and Possible Balance. The table contains one row for MFRN 212, Surname Brady, First Name Tom, Adm Date 02/05/2022, Inv# 516, Fund AHM, Balance 1,890.00, Allocated 0.00, and Possible Balance 1,890.00. A 'Total Allocated : 0.00' is shown below the table. A 'Save' button is located at the bottom right of the table area.

Making the entry from the Patient History / Episode Screen

1. **Search** for the patient using the Search field or by selecting the required admission date & theatre
2. Right-click on the appointment & select **History**
3. Once in the Episodes screen ensure that the correct episode is selected
4. Then use the **Invoice Options** drop down on the right of the screen to select **Adjust Invoice**
5. You will be redirected to the **Adjustments** screen where you can follow the instructions above from **step 2**.

Dealing with Overdue Hospital Debtors

PLEASE READ FIRST

This guide is intended for users who have too many or out of control debtors. This wiki page does not cover the basics, it is an in depth look at how to work through the debtors.

First, lets run the report so we can identify patients that need to be investigated. There are 3 Filters we will want to use.

1. **Fund** - It may be best to look at one **fund** at a time, and action those together
2. **Period** - We can filter the report to only show us debtors that are **45 days** and older, if your debtors is really bad you may wish to start at **60 days**.
3. **Details** - Offers a detailed view of the report, showing patient information, **make sure this is always on**.

In the above example, I can see that there are some patients with outstanding debtors, ranging from 45 to 120+ days. The **Balance Outstanding** column shows me how much each outstanding patient has. The next step is to select one of these patients to follow up on, and we can go through the steps of what has to occur next.

Checking Invoice Status

The next thing we want to do, is head to the patients **Episodes** so we can see the details of the invoice, the outstanding amount and check the invoice status, so we know what part of the process the invoice had issues on.

To see the **Invoice Status**, simply select it from the **Invoice Options** drop down menu, found near the balance for that episode. As you can see below, the status will show us which batch the invoice is currently in, as well as what the **Status** of the batch currently is. The batch we have investigated below is sitting as **Sent**. As this episode was from 02/10/2020, this is probably not a good sign, so it is worth taking a further look into it.

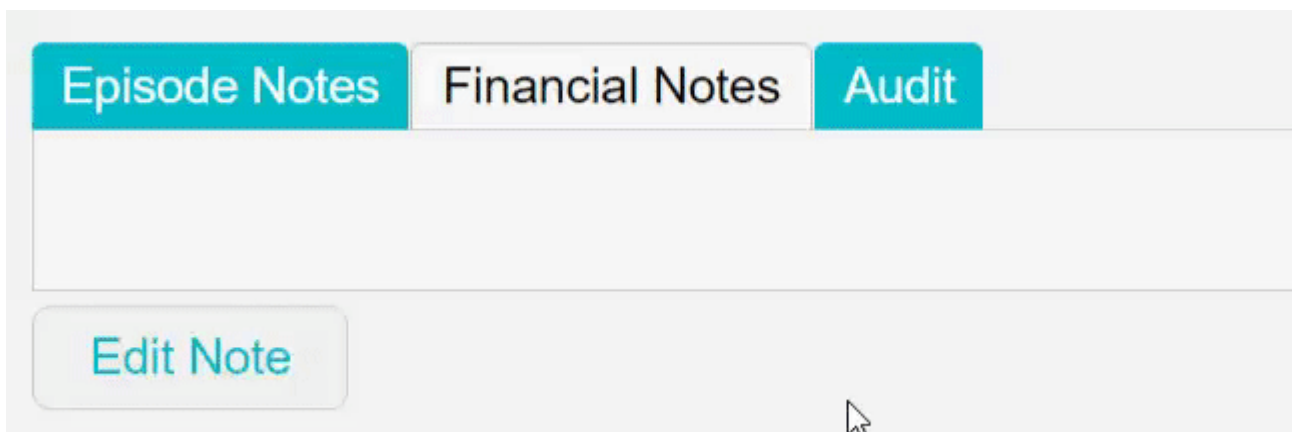

Inv #	To	DOS From	Acc Period	T Code	Description	Qty	B	Charge inc GST	GST	T	Audit Date	User
749	HCF	02/10/2020	02/10/2020	D	DEPOS Deposit Applied: Cash	-		\$-650.00	0.00	H	12/11/2020 4:49PM	JK
749	HCF	02/10/2020	12/11/2020	A	ACCOM	1	3	\$0.00	0.00	H	12/11/2020 4:50PM	JK
749	HCF	02/10/2020	12/11/2020	C	32222 Episodic Case Payment - Colonoscopy	-		\$714.00	0.00	H	12/11/2020 4:50PM	JK

There are three main **Status's** you may run into:

- **Sent** - Invoice received no response
- **Processed** - Invoice has an exception file but no payment
- **Rejected** - Invoice was just flat out rejected

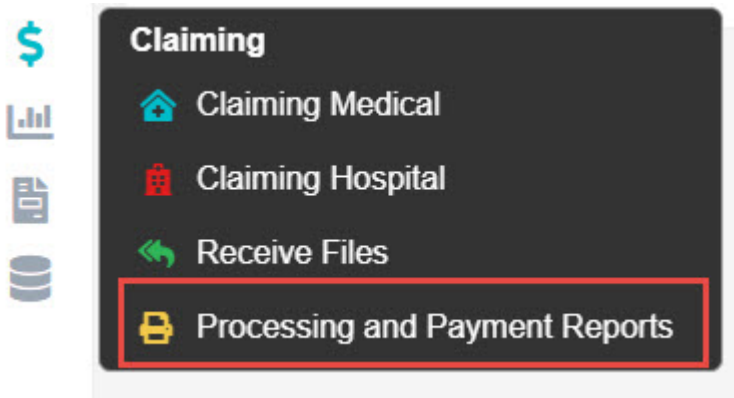

In all of the above cases, if a batch is old enough to be in the 45+ days Debtors and has an above status, it is time to call or email the **Health Fund** regarding its issue. They will be able to help with either resubmitting or amending the invoice, depending what is needed.

We also suggest making use of the **Financial Notes**, also found on the **episodes** tab. This will let you keep up to date notes, as well as allow all users to see the same notes, so you can track right on the patient record what you have done as a follow up.

Processing Reports

Once you have established that an invoice has an issue, it can be a good idea to check the **Processing Report** for that claim. Generally, these reports will include a rejection if there was one, and can help you figure out the issue. We can access the processing and payment reports section via the \$ and selecting the appropriate option.

Once here, we need to select the **Processing IHC** tab at the top.

Now we will be able to view and filter processing reports depending what we need to look at. Make sure to select appropriate filters, since we may be looking at some processing reports we will need to use the **From and To** filter.

The important date to change is the **From** date. Since if you have this set to a recent date, Fydo will not display older processing reports. I suggest setting it to the date you sent your claim, so you know the processing report will be in range.

Since we are looking for a specific patient, you should then go ahead and search for that patient.

The can simply search by doing **Lastname, Firstname**. Now its time to look at the processing report, and try to assess why we were rejected.

Assessing the Processing Report

There are a few main things to look at in the processing report, covered below.

1. **Claimed** - This is how much you claimed for the invoice
2. **Approved** - This is how much the fund approved. \$0 means a rejection, but you may also receive short payments as well.
3. **Assessment** - It is important not to just look at this field, as the fund has marked it **Accepted**, even though we clearly have a rejection. Make sure to look at all appropriate data.
4. **Explanation** - This is the important one, here you will see a brief description of why something has been rejected.

In the above case, I can see that for this patient, the service for 09/12/2020 was within the waiting period. My best bet would be to give MPL a call, and see if we are able to get it paid at all, since while we do know the rejection reason, there is no supporting information for how to get it paid.

In the cases of short payments, it is a good idea to compare the invoice you submitted to your **Contract** with the fund, and make sure you have charged the appropriate amount. If you have charged the correct amount, again contacting the fund is vital.

In almost all cases, it will end up best to contact the health fund, since many **Explanations** they provide can be unhelpful, or too short to convey the real reason for a rejection, as such they are the main contact for help, and can assist to get it paid.

Closing the Accounting Period

Closing the '**Accounting Period**' refers to **locking down your financial figures** up to a **given date** (usually the end of the month) so that they **cannot be changed**.

We **do not** recommend closing the accounting period for the last month, on the first day of the current month. Rather, give yourself seven to ten days to get your figures to a point where you are happy. That is, after all rejections and adjustments are made.

In other words, it ensures that the figures seen on your revenue report run out of FYDO match the figures seen on your bank account, to the cent. And that those figures then cannot be amended in FYDO.

So let's see where the accounting period is closed.

Start off by going over to settings.

Then, click **Close Accounting Period**.

Enter the date you wish to **lock your figures** to and hit **Save**.

Close Accounting Period

By locking the account period, transactions with an accounting period on or prior to the date below, will not be able to be modified nor deleted.

Location **Eccles**

Accounting Period Locked to

Cancel

I should also mention that this action is recorded in FYDO's audit log, so you can see who closed the accounting period and when.

To view the audit log, go to **Settings**, then click on **Logs**.
