

Preadmit - Unblocking a Patient

Patients will have their access to the preadmit portal **temporarily suspended** after 5 incorrect password attempts. If this occurs, they will need to wait **10 minutes** before attempting to log in again.

If they continue to attempt to log in with the incorrect password, their account will be **permanently suspended**. If this occurs, they will need to contact the hospital directly to have their account **Unblock**.

If a patient calls and needs to be unblocked, follow these instructions.

Log into your **Hospital Preadmit Portal** and navigate to the **Patients Tab**.

The screenshot shows the Preadmit Portal dashboard. The 'PATIENTS' tab is highlighted in the top navigation bar. A red arrow points to this tab. The dashboard features several summary cards: 'Available Credits' (23), 'Total Submitted Forms' (65), 'Total Incomplete Forms' (22), and 'Forms waiting to be exported' (0). A right-hand summary card shows '11 Number of Active Patients' and 'Last Form SUBMITTED' on 05/04/2025 at 11:39 AM. Below these cards is a table showing form submission statistics by month from November 2024 to April. The table has columns for the month and rows for 'SUBMITTED FORMS', 'INCOMPLETE FORMS', and 'PATIENT SIGN UPS'.

NOVEMBER	DECEMBER	JANUARY	FEBRUARY	MARCH	APRIL

PATIENT SIGN UPS: 0	PATIENT SIGN UPS: 0	PATIENT SIGN UPS: 1	PATIENT SIGN UPS: 3	PATIENT SIGN UPS: 1	PATIENT SIGN UPS: 1

Find the required patient, utilising the **Search** field if required.

The patient will appear as **Blocked** if they have exceeded the initial 10-minute restriction and continued to attempt to log in.

The screenshot shows the 'PATIENTS' list in the Preadmit Portal. A search bar at the top right contains the name 'mary'. A red arrow points to the search bar. Below the search bar is a table with columns: Unique ID, Surname, First Name, Email, # of Forms, Date Created, Status, and Action. One patient is listed with Unique ID 16, Surname Poppins, First Name Mary, Email support@althurahealth.com.au, 0 forms, and a status of 'Blocked'. A red arrow points to the 'Blocked' status. The 'Actions' dropdown for this patient is visible.

Unique ID	Surname	First Name	Email	# of Forms	Date Created	Status	Action
16	Poppins	Mary	support@althurahealth.com.au	0	04/04/2025	Blocked	Actions

To unblock the patient, click on the **Actions** dropdown and select **Unblock**.

[Patient Alerts - with Preadmit & FYDO](#)

Patient Alerts is a new feature in FYDO that displays a list of high-risk patients and their associated

conditions, helping you address potential issues before admission.

	Patient Name	MRN	DOB (Age)	Contact No	Adm Date	Doctor	Proc Notes	Notes	Status
<input type="checkbox"/>	> DREAM_Day	164	15/04/1926 (98)	0400 000 000	22/01/2025	Pierce, Hawkeye	Gastroscopy	1.1.25 - No Answer	Overdue

Patient Alerts are configured within your hospital's Preadmit Portal:

- **You decide which questions to ask the patients.**
- **You determine the criteria that triggers a Patient Alert.** For Example:
 - BMI over 30
 - The patient indicating they have diabetes
 - Family history of cardiac issues
- **Patients answer these questions online** while completing their Preadmission Questionnaire.
- **Any high-risk responses are flagged** and displayed  for immediate review.

Patient Alerts streamline the preadmission process by enabling hospitals to gather critical information effortlessly and early:

- **Convenient for patients:** Patients can complete the questionnaire at a time that suits them, rather than waiting for a nurse's call.
- **Time-efficient for Clinical Staff:** Reviewing patient responses online reduces the need for lengthy phone calls.
- **Proactive consultation:** Doctors and anaesthetists can be consulted about high-risk cases BEFORE speaking with the patient, minimising the need for follow-up calls.

1. Continue using your existing **Preadmit Portal Link**
2. Patients complete the online questionnaire **at their convenience**, and responses are sent directly to **FYDO**
3. **Link and Commit** preadmit forms as usual. (*Instructions available [here](#)*)

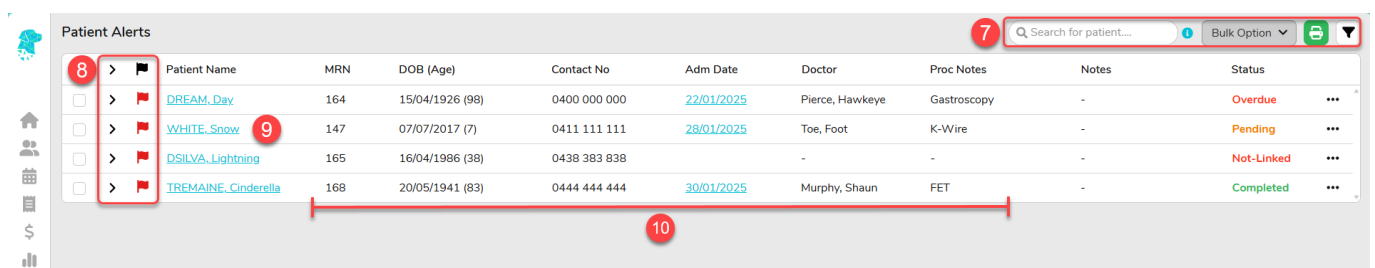

The screenshot displays a 'Preadmit Holding Bay' interface. On the left, a table lists patient records with columns for 'Received', 'Patient', 'Date of Birth', 'F', 'Doctor', and 'Admission'. Two records are visible: one for 'BOND, Mary' (received 11/09/2024, admission 24/09/2024) and one for 'SWAGGER, Bob Lee' (received 13/08/2024, admission 18/09/2024). On the right, a preview of an admission form is shown for 'Shae's Private Hospital'. The form includes fields for 'Planned admission date' (24/09/2024) and 'Patient details' (Title: Miss, Given Name: Mary, Family Name: Mary, Address: Bond University QLD, Postcode: 4229).

4. **Responses without alerts** are attached to the patient's FYDO file under **Documents**.
