Billing Alert for HCF/BUPA Backdated Claims

When billing a patient whose health fund cover is with HCF or BUPA, if the date of service is 3 months prior to the fee levels threshold date, the below alert message will pop-up.

We have introduced this alert message to help avoid preventable rejections and underpayments due to incorrect fees being used for backdated claims.

Accounts (Clinic) Permissions

Clinic Accounts permissions have been moved from the **Patient** section within user groups to its own section called **Accounts (Clinic)**.

Apply Payments and **Apply Adjustments** have also been split into 2 separate permissions. Previously, they were together as a permission.

Security Settings Relocation

The **Security Settings**, originally located in **System Configuration**, can now be accessed directly from Settings. This change is designed to provide more control over user access to this section of FYDO.

These Security Settings include:

- Webhooks
- API Key
- 2 Factor Authentication Settings
- Single Sign On Settings

A new permission control has been added to **Settings > User Groups**. This change helps clinics grant specific users access to **System Configuration** without necessarily providing access to **Security**.

The new permission control will be defaulted to 'D - Deny' for all users except the Subscriber, who can adjust this setting for the required user groups.

Items Report

Additional fields have been added to the **Items Report** when exported in raw data format.
