

FYDO Hospital Update - 20/4/2023

New Tokens Available for Invoices

There are now tokens available to be used on Invoice Templates to show **Invoiced Amount Excluding GST & Total Invoice Charge Excluding GST**.

A full list of available Invoice Tokens can be found at:

<https://wiki.fydo.cloud/tokens-hospital-invoices/>

Bug Fixes

- The custom view option, that shows the **Surgeons Initials**, has been corrected to show the initials in the correct order. For example, **Dr John Smith** will now show as **JS**
- The issue with the Interactive Arrears Report hover feature has now been rectified.

If you're not already familiar with our wonderful **Interactive Arrears Report** then pop into **Reports > Arrears > Interactive** and see how easy it is to run & use! This is a great feature to help keep on top of outstanding debtors.

FYDO Hospital Update - 17/4/2023

Additions to the Theatre Rosters Report

There have been some exciting new additions to the Theatre Rosters Report to allow facilities to obtain **Theatre Utilisation Information**.

This report can be based on **Appointment Booking Time**, to get an estimate of utilisation, or based on **Time in Theatre to Time Out of Theatre** to get an exact utilisation figure once the theatre times have been added to FYDO.

The report also gives the option to view this information by **Surgeon** or **Theatre** and totals everything for the timeframe that has been selected!

This will allow for easy collation of utilisation data for any timeframe to assist in hospital planning,

budgeting & much more.

New Nurse List View

The Nurse List is now able to be viewed with relevant **Expiry Dates** that have been added into the system. This allows for easy identification of when the expiry of the nurses AHPRA, Insurance & Working With Children is approaching.

This information can be viewed from **Settings > Nurse List** by selecting **Dates** from the **View** dropdown. The dates will be colour coded depending on when the expiry date is.

Red - Expired

Orange - Expiring in **less** than 3 months

Black - Expiring in **more** than 3 months

This information can also be exported to Excel for printing or emailing.

New option for the Theatre Roster requirements

FYDO now gives each facility the ability to decide if they wish to allow bookings to be made **with** or **without** a Theatre Roster.

For the new **Theatre Utilisation Report** (as listed above) to be completely accurate, the bookings need to be made in a Theatre Roster. Therefore, if the facility wants accurate utilisation data, we suggest turning this function on to ensure bookings are not accidentally made outside the Theatre Rosters.

This option is found in **Settings > System Configuration > Theatre Roster** required when making bookings.

System Configuration

Bug Fix

The issue that some users were experiencing with the system creating a different invoice number, from that of the deposit, has been rectified. This issue was identified as happening when the invoice was raised from the History/Episode Screen.

FYDO Hospital Update - 3/4/2023

New Maiden Name Field

FYDO has a new field to enable users to keep the **maiden name** of a patient on file. When searching for a patient FYDO will also check the Maiden Name field for any matching information enabling easy identification of patients.

Email Log

Users are now able to view a log of all emails that have been sent from the **Documents Tab in FYDO**. This includes emails to the patient, referring doctor or doctor. This information is displayed in the **Communication** tab.

Sending Bulk SMS's

A new column has been added to the **Send Bulk SMS** option to allow the user to see the **Procedure Notes** for each patient. This is to assist the user in determining which patients' need to receive different SMS templates.

Patient ID	Name	Date of Birth	Procedure Notes	Send SMS
1000000001	John Doe	1980-01-01	Right Leg Fracture	Send SMS
1000000002	Jane Smith	1985-02-02	Left Leg Fracture	Send SMS
1000000003	Bob Johnson	1990-03-03	Right Arm Fracture	Send SMS
1000000004	Alice Brown	1995-04-04	Left Arm Fracture	Send SMS
1000000005	Charlie Davis	2000-05-05	Right Leg Fracture	Send SMS
1000000006	Diana Evans	2005-06-06	Left Leg Fracture	Send SMS
1000000007	Frank Green	2010-07-07	Right Arm Fracture	Send SMS
1000000008	Grace Hill	2015-08-08	Left Arm Fracture	Send SMS
1000000009	Henry King	2020-09-09	Right Leg Fracture	Send SMS
1000000010	Ivy Lee	2025-10-10	Left Leg Fracture	Send SMS

Arrears Report Addition

The patients' **health fund membership number** and **Date of Birth** will now show on the Arrears Report when it is exported to Excel - Raw Data.

Bug Fix

The issue that some users were experiencing with the 2-step authenticator app not remembering them for 30 days has been resolved. *(This issue did not affect users that utilise the SMS or Email 2 step authentication option)*

[FYDO Hospital Update - 28/03/2023](#)

NEW List Re-Ordering Feature

FYDO can now re-order lists with a fabulous new feature that resembles the SimDay function **Session Priority**. This feature allows users to easily re-order patients', move all patients' appointments up at once *(in the case of a cancellation)* and set appointment times according to each appointment length.

This feature will work from the admission time of the **FIRST** patient on the list. It will then slot all other patients' into their corresponding admission times, according to the appointment lengths. The difference with using the List Re-Ordering feature is that it allows users to easily move a patients' appointment up or down the list **& will shuffle the other patients' admission times to accommodate**. Whereas other methods of moving appointments does not impact the admission times of any other patients'.

Click on the below image to see a little snip of the List Re-Ordering in action.

New Casebase Multi Feature

FYDO now allows the use of the same item number twice in the Casebase Multi fees set up. This will allow Casebase Multi fees to be set up for bilateral procedures or any procedure that requires the same item number to be billed twice.

FYDO Hospital Update - 20/03/2023

End of Day Banking Addition

Refunds, that are allocated the Payment Type of Cash, Credit Card, EFTPOS or Amex/Diners, will now appear in the **End of Day Banking**. This will assist users in balancing their End of Day Banking with their EFTPOS Settlement & the actual amount of cash they would have at the end of the day.

This will also mean that staff won't need to raise an Excess/Deposit receipt for a negative amount to make the banking balance, resulting in all Refund Adjustments being captured together on the adjustments report.

For further information on performing a refund adjustment please see:

<https://wiki.fydo.cloud/adjustments/>

2 Step Authenticator App

FYDO will now show which users are utilising the 2 Step Authenticator App with a green tick in **Settings > Users**. This allows the facility to view which users have chosen to use the Authenticator App option.

As per FYDOs Security Policy, all users are required to undertake the 2 Step Authentication process, however users without the green tick would be utilising the SMS or Email option for this feature instead of the App.

Length of Stay Report Addition

The Length of Stay Report now displays the **Average Time** for the episodes & criteria selected. The average is calculated by **Total number of Minutes ÷ Number of Episodes = Average per Episode**.

Shrews Private Hospital

Length Of Stay Report based on Pre-Operative Admission Time to Time in Theatre between 01/03/2023 to 28/03/2023

Patient Name	MRN	Adm. Date	Discharge Date	Pre-Op	Surgeon	Theatre	Start Time	End Time	Length (min)
DAVE, James	100	01/03/2023	01/03/2023	ARM	MURPHY, John	Theatre 1	08:00	08:10	10
DAVE, James	100	01/03/2023	01/03/2023	LEG	HUGHES, Chris	Theatre 1	08:00	10:00	120
		# of Episodes : 2		Average :		85.00	Total Minutes :		130

Bug Fix

The IFC **Re-Order Item Numbers** tick box will now ensure item numbers are NOT reordered if it is UNTICKED by the user.

MEIS/Items

☐ Re-order Item Numbers

Item	Description	Band	Action
30479	Gastroscopy (not being a service to which item 41816 or 41822 applies), gastroscopy, duodenoscopy or panendoscopy (1 or more such procedures), with or without biopsy, not being a service associated with a service to which item 30478 or 30479 applies (Annots.) If Health Funds mostly rebate Endoscopy procedures on a case based payment arrangement detailed in the HPPA. The band noted may be used as a default band in cases where an HPPA is silent on how benefits are to be paid for patients undergo	1	
30222	Endoscopic examination of the colon to the caecum by colonoscopy, for a patient: (a) following a positive faecal occult blood test; or (b) who has symptoms consistent with pathology of the colonic mucosa; or (c) who has anaemia or iron deficiency; or (d) for whom diagnostic imaging has shown an abnormality of the colon; or (e) who is undergoing the first examination following surgery for colorectal cancer; or (f) who is undergoing pre-operative evaluation; or (g) for whom a repeat colonoscopy is	2	

FYDO Hospital Update - 13/03/2023

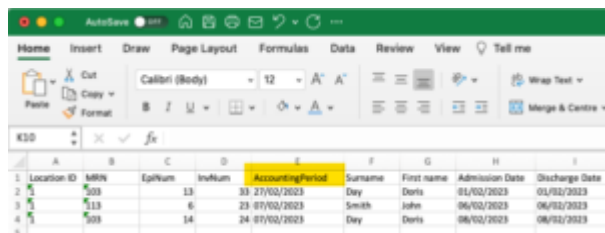

Excess/Deposit Screen Update

The Excess/Deposit screen now has the ability to raise two receipts at once. This will be beneficial & time saving to facilities that require additional payments to be made that cannot be invoiced to the health fund. For example:

- A patient is required to pay an Excess & a gap payment
- A patient is required to pay an Excess & a credit card surcharge

Receipting the excess amount under **Fund Excess** and the credit card surcharge/gap payment amount under **Patient Account Deposit** will ensure that an insured invoice number is generated for the excess & an un-insured invoice number is generated for the patient account.

Users are not required to use both fields & the addition has only been implemented to assist facilities that require this feature.

	A	B	C	D	E	F	G	H	I
1	Location ID	MIRN	Epilum	Influm	Accounting Period	Surname	First name	Admission Date	Discharge Date

Coding Screen - Added Features

The coding screen has some great additions this week. The first is the ability for users to copy & paste the diagnosis & procedure information. This feature can be used for adding descriptions to certificates etc. The fields that can be copied are highlighted in yellow below:

The second new feature in the Coding Screen is the introduction of the **Show MBS Hover**. This section has been added to allow the user to view the MBS items, that are listed in the **Theatre Screen**, without having to close the coding screen down.

To use this feature simply hover over the button **Show MBS** and the list of items will be displayed.

New Raw Data Export Options

There has been **Export > Excel - Raw Data** options added to the following FYDO reports:

- Adjustments (Hospital) Report
- Payments (Hospital) Report
- Billing Status Report

Additional Tick Box Options in the Appointment Screen

There have been two new tick boxes added in the Edit Appointment screen to assist with the workflow of facilities. These tick boxes are **IFC Completed** and **Consent Received**.

Users can manually check these boxes once the tasks have been completed.

These fields are NOT mandatory & are just available options.

These fields can then be added to the Appointment Screen by creating a custom view. An example of a custom view, to ensure all patients are ready for their admission, is shown below. It includes information such as **Health Fund**, **OEC Received**, **OEC Checked**, **IFC Complete**, **Excess Amount**, **Co-Payment Amount**, **SMS status**, **Patient Consent Received**.

Time	Name	GP	OEC	OEC Checked	Excess	Theatre	IFC	IFC Completed
09:00					0.00	0:00		
09:30					0.00	0:00		
09:30	JOHN JAMES	DR J	✓	✓	200.00	0:00	✓	✓
09:30	JOHN JAMES	DR J	✓	✓	200.00	0:00		
10:00	JOHN JAMES	DR J	✓	✓	0.00	0:00		
10:30	JOHN JAMES	DR J	✓	✓	1,000.00	0:00		✓
11:00					0.00	0:00		
11:30					0.00	0:00		
12:00					0.00	0:00		

Custom View Additions

As well as now being able to add the **IFC Completed** and **Consent Received** to the custom views, users are also able to add **Planned Time in Theatre** and the **Procedure Time**. These fields are entered in the Appointments Screen.

Bug Fix

The issue that some users experience with the session times not showing on their printed lists has been rectified.

[FYDO Hospital Update - 27/02/2023](#)

Bulk SMS amendments

When sending bulk SMSs the screen will now default to **All** appointments. This will assist in sending additional bulk SMSs to patients' after they have already received an SMS & replied to it.

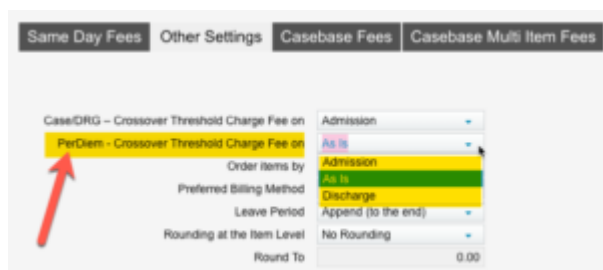

New Billing Rule for Overnight Facilities

Facilities are now able to select how an inpatient episode is billed if it crosses over the contract **threshold date**.

Options that are available are:

- **Admission** - bill the whole episode as per the contracted fees on the admission date
- **Discharge** - bill the whole episode as per the contracted fees on the discharge date
- **As Is** which will bill the old contracted fees before the threshold date & then revert to the current contracted fees after the threshold date.

Reports Favourites Feature

The ability to choose favourite reports is now available on a user level. This will enable each user to select the reports, that are most useful to them, to be displayed when they hover over the Reports icon

Reports can be added to the users short-list by clicking the star to the left of the desired report. The complete list of reports will still be available for all users by simply clicking on the Reports icon, as opposed to just hovering over it.

Bug Fix

The issue that was occurring that prohibited some reports to be marked as a favourite has now been rectified.

FYDO Hospital Update - 20/2/2023

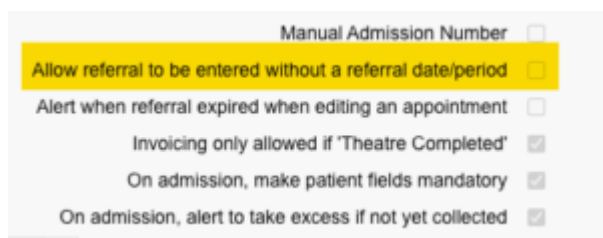

Preadmit Additional Feature

FYDO can now import the **Emergency Contact** & **Pick Up Person** from Preadmit. If the patients are asked to provide these details when they complete their online admission form, through Preadmit, we are now able to update these details in FYDO. Please contact us if your facility would like to utilise this feature.

A screenshot of a web form titled 'Preadmit'. At the top, there are four tabs: 'New of Ad', 'Emergency Contact', 'Consultation', and 'Pick Up Person'. The 'Emergency Contact' tab is currently selected and highlighted in yellow. Below the tabs, there are several input fields for personal and contact information, including 'First Name', 'Surname', 'Mobile', 'Address', 'Suburb', 'State', and 'Postcode'. Two red arrows point to the 'Emergency Contact' and 'Pick Up Person' tabs, indicating the new features.

New Referral Date Feature

FYDO now has the ability to allow facilities the choice of either requiring a referral date or allowing staff to enter the referring doctor **without a referral date being necessary**. This feature can be activated by selecting **Allow referral to be entered without a referral date/period** in the **Settings > System Configuration** menu.

A screenshot of the 'System Configuration' settings menu. The menu is a list of toggle switches. The first option, 'Manual Admission Number', is unchecked. The second option, 'Allow referral to be entered without a referral date/period', is highlighted with a yellow background and is also unchecked. The third option, 'Alert when referral expired when editing an appointment', is unchecked. The fourth option, 'Invoicing only allowed if 'Theatre Completed'', is checked. The fifth option, 'On admission, make patient fields mandatory', is checked. The sixth option, 'On admission, alert to take excess if not yet collected', is checked.

New 'End of Current Fees' feature

There is a new field that facilities can utilise in the **Fees Setup**. It allows for the **End of Current Fees** date to be entered. The next step we will undertake, in developing this feature, is to alert the user if they are trying to bill an episode that falls after the end date of the current fees. The implementation of the next development stage is expected to be in the next few weeks.

A screenshot of the 'Fees Setup' form. The form has a header bar with 'Fees Setup' and 'Fees' tabs. Below the header, there are several input fields. The 'End of Current Fees' field is highlighted with a yellow background and has a red arrow pointing to it. The field is currently empty.

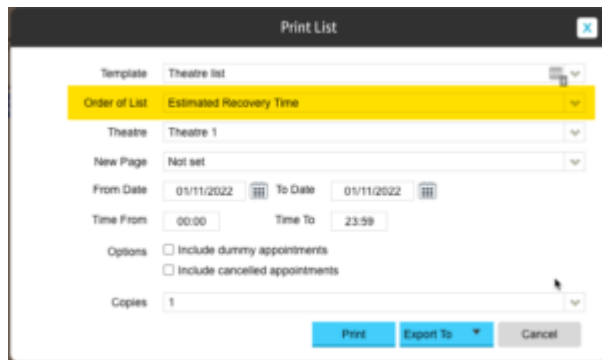

New 'Estimated Recovery Time' feature

The **Estimated Recovery Time** can now be added to print list templates. This time calculates by adding the **Length of the Booking** to the **Booking time**.

Therefore, **Booking Time + Length of Booking = Estimated Recovery Time**.

<<EpEstRS>>	Estimated Recovery Time Booking time + Length of Booking	e.g 1315
<<EpEstRS12h>>	Estimated Recovery Time Booking time + Length of Booking	e.g. 1:15 PM
<<EpEstRS24h>>	Estimated Recovery Time Booking time + Length of Booking	e.g. 13:15

Theatre lists can then be generated in order of this **Estimated Recovery Time** using **Order of List**. This list will be beneficial as a Recovery List to enable recovery to see the patients' order as they are expected out of theatre.

The screenshot shows a 'Print List' dialog box with the following fields and options:

- Template:** Theatre list
- Order of List:** Estimated Recovery Time (highlighted in yellow)
- Theatre:** Theatre 1
- New Page:** Not set
- From Date:** 01/11/2022
- To Date:** 01/11/2022
- Time From:** 00:00
- Time To:** 23:59
- Options:**
 - ☐ Include dummy appointments
 - ☐ Include cancelled appointments
- Copies:** 1
- Buttons:** Print, Export To, Cancel
