

[FYDO Hospital Update - 13/11/2025](#)

Report Enhancement

FYDO has introduced an enhancement across multiple reports, adding a **date range dropdown** that allows users to select a specific reporting period. This functionality mirrors the feature recently implemented in the **Episode Report**.

The enhanced date selection is now available for the following reports:

- Revenue Report
- Other Services Revenue
- Unbilled Revenue Report
- Trial Balance
- Payments

The screenshot displays a date range selection interface. At the top, a 'From - To' field contains the date range '01/11/2025 → 12/11/2025'. Below this, a dropdown menu is open, listing various pre-defined date ranges: 'Today', 'Current week', 'Current month', 'Current quarter', 'Current year', 'Previous week', 'Previous month', 'Previous 3 months', and 'Previous quarter'. The 'Current month' option is highlighted with a red border. To the right of the dropdown is a calendar view for November 2025 and December 2025. The calendar shows the days of the week (Su, Mo, Tu, We, Th, Fr, Sa) and the dates. The date '1' in November is highlighted in blue, indicating the start of the selected date range.

Medical Record Retention Improvement

FYDO has introduced a new feature that enables facilities to easily identify which files are eligible for culling within a specific month. Users can now **filter the Medical Retention Report** based on **Admission Date**, or **Discharged Date**, based on their requirements. Allowing them to streamline record management and retention processes.

Appointment Report Enhancement

The **Appointment Report** now includes the **Day Category** classification in the Excel Raw Data export. This new field will appear in column AR when run in summary and detailed and will assist facilities in determining if the episode was a **Day Only (D/O)** or **In-Patient (I/P)** admission.

| AQ | AR | AS | AT | AU |
|----------|-------------|--------------|------------------|--------------|
| ApptType | DayCategory | BookingCode1 | BookingCode1Desc | BookingCode2 |
| | | | | |
| | | | | |
| | | | | |

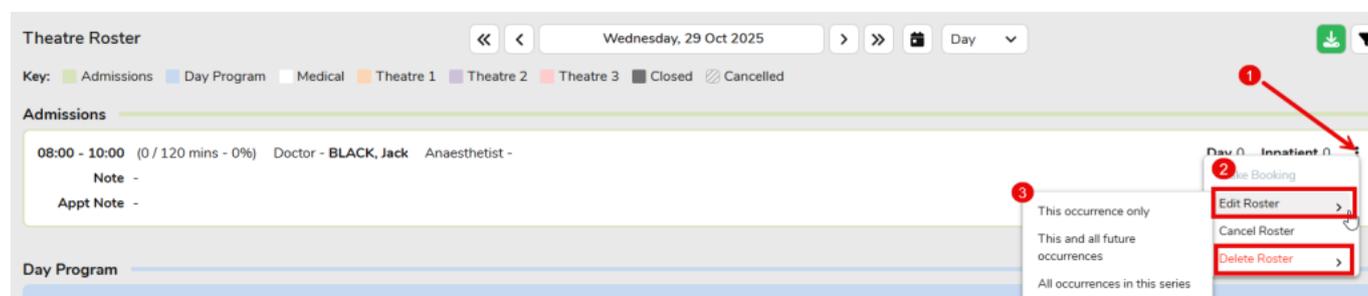

[FYDO Hospital Update - 31/10/2025](#)

Theatre Roster Improvements

FYDO has made a significant enhancement to the Theatre Roster feature. Previously, users could create recurring theatre lists but were advised to limit them to three months, as bulk editing and deleting were not available. We're pleased to announce that these capabilities have now been added. **Users can now bulk edit and bulk delete theatre lists**, saving valuable time and reducing the need for individual adjustments.

As long as the **Repeat** function is used when making the initial booking, the doctors' sessions will be linked and can then be amended together. To utilise this function:

1. Click on the 3 dots
2. Select which action - Edit or Delete
3. Pick from the x3 options

Theatre Roster Report Addition

Two new columns have been added to the *Theatre Roster* report relating to *Revenue*:

- **Rev incl OS** - Revenue Including Other Services Revenue

- **OS Rev** - Other Services Only Revenue

These additions were made in response to growing interest from facilities in understanding their revenue breakdowns. This enhancement allows for better analysis of how profitable each doctor is during their Theatre Sessions/Rosters.

| Rev incl OS | OS Rev |
|---------------|-------------|
| 450.00 | 0.00 |
| 450.00 | 0.00 |
| 450.00 | 0.00 |

Processing and Payments Enhancements

A new enhancement has been added to the *Processing and Payments* tab under *Payments (Hospital)*. The **Invoice #** now functions as a hyperlink, providing quick access to the patient's episode as required.

The screenshot shows the 'Processing And Payment Reports' interface. The 'Payments (Hospital)' tab is active. The table displays payment records with columns for Date Downloaded, Minor ID, Type, Payor, Date Paid, Amount Paid, Remittance #, ID, Applied, and Action. A red arrow labeled '1' points to the 'Date Downloaded' column. Below the main table, there is a section for 'Payment Reference' with columns for Transaction Id, Batch #, Inv#, Date Sent, MRN, Patient Name, and Amount Paid. A red arrow labeled '2' points to the 'Inv#' column in this section.

Additionally, the **Processing IHC** screen has been rearranged to allow for a wider and more readable **Explanation** column. Additionally, you can now hover over the explanation to view the full text.

Trial Balance Improvement

The *Trial Balance* report has been enhanced to include GST in the *Billings, Payments, and Adjustments* columns. This update allows users to view the total balance including GST, or to isolate and review GST amounts independently.

Billings Breakdown

| Type | Charges(inc GST) | GST |
|-----------------------------|------------------|-------------|
| Accom | 0.00 | 0.00 |
| Case | 0.00 | 0.00 |
| DRG | 0.00 | 0.00 |
| OS - Allied Health Services | 0.00 | 0.00 |
| OS - Disposables | 0.00 | 0.00 |
| OS - Labour Ward | 0.00 | 0.00 |
| OS - Nursery Fee | 0.00 | 0.00 |
| OS - Other | 0.00 | 0.00 |
| OS - Pharmaceuticals | 0.00 | 0.00 |
| OS - Prostheses | 0.00 | 0.00 |
| OS - Theatre Fee | 0.00 | 0.00 |
| Theatre | 0.00 | 0.00 |
| Totals inc GST | 0.00 | 0.00 |
| Totals exc GST | 0.00 | |

Bed Tracker Additions

FYDO has introduced a new functionality that allows users to generate the **Print Handover Report** by doctor. Additionally, under *Order*, an option has been added to print the report by *Admission Date*.

Additions to the Header

FYDO has now implemented the display of 'Procedure Notes' and 'Other Notes' in the top header across all screens, providing a permanent and easily accessible solution for viewing across multiple interfaces.

| | | | | | | |
|--|---------------------|--------------------------------------|-----------------------|-----------------------|---------------------------------------|--------------|
| MRN 228 - ELINSTONE, Frederick | DOB 08/11/1959 (65) | Sex Male | FileNo | Fund DHF | Location Shaes Private Hospital (QLD) | |
| Admission No. 1041 | EpiNo. 30 | Admission Date/Time 08/10/2025 10:23 | Discharge Date/Time - | Dr/Surgeon BLACK,Jack | Speciality Surgeon | Anaesthetist |
| Procedure Notes Right Cat & IOL | | | Other Notes | | | |

Improvement to QLD State Specific Data

FYDO has been updated to automatically populate the insurance status for public patients in QLD, as shown on the Admission screen below. This enhancement supports improved accuracy and efficiency in data extract submissions.

07/07/2025 13:30 Dr/Surgeon APEL,Warren Speciality Ophthalmology Anaesthetist HUTTON,NICK

| State Specific Data | |
|---------------------|--|
| Care Type | Acute |
| Source of Referral | Private Med Practitioner (excl psychiatrist) |
| Planned Same Day | Yes |
| Insurance Status | No hospital insurance |
| Contract Type | |

[FYDO Hospital Update - 02/10/2025](#)

Addition to Doctors

In addition to a provider number, doctors are also assigned a prescriber number. Facilities can now record this information directly within the doctor's profile, eliminating the need for separate spreadsheets. This enhancement will also support future initiatives related to clinic prescribing.

Location: Shaes Private Hospital (Hospital)

Provider: [Redacted]

Date of Birth: [Redacted] (Calendar icon) Age: [Redacted]

Dr ABN: - - - Sex: [Redacted]

Speciality (WA): Psychiatry (Help icon ?)

Speciality: Surgeon

Type: [Redacted] (Help icon ?)

AHPRA: [Redacted] Expiry Date: [Redacted] (Calendar icon)

Prescriber: [Redacted]

Clinic Dr: -- Select Doctor --

Enhancement to Episode Stats Export

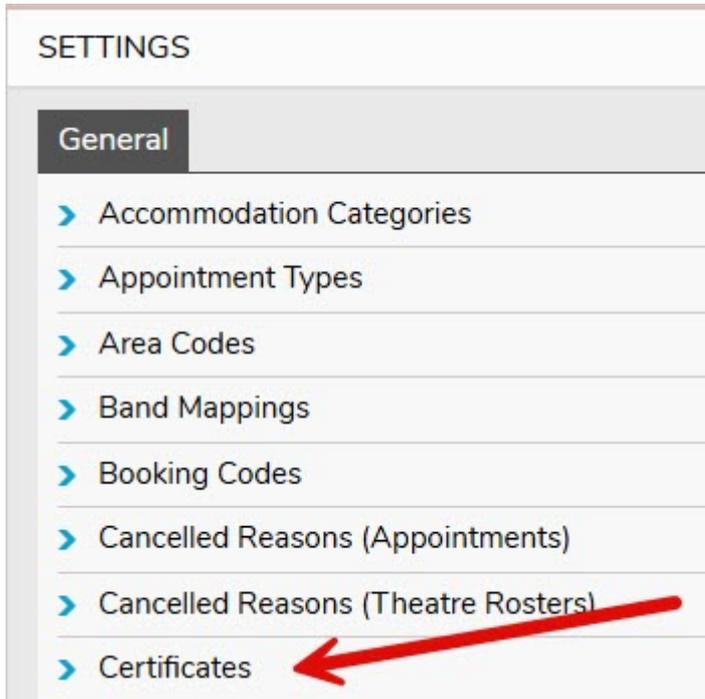

FYDO has added the Referring Doctor's Specialty to the **Reports > Episode Stats > Excel - Raw Data Export**, enabling facilities to utilise this information more effectively. The information is shown in **column BO** of the export file.

| BL | BM | BN | BO |
|-------------|---------------|--------------|----------------------|
| ReferringDr | ReferringDrID | ReferralDate | ReferringDrSpecialty |
| | | | |

[FYDO Hospital Update - 25/09/2025](#)

Addition to Certificates

A new improvement has been made regarding the addition of certificate reasons in patient records. In the **Settings** tab, you will now find an option for **Certificates**, where you can define and add your certificate reasons.

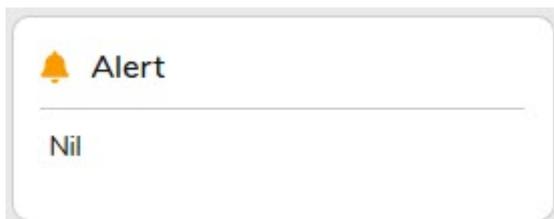

Once the reasons are added, you will have the option to select from a drop-down menu when adding a certificate to the patient's file. While this new feature provides a pre-defined selection, please note that you will still have the flexibility to free-type any additional text as needed.

Update to Patient Alerts

FYDO has now aligned the functionality of Patient Alerts with that of Patient Allergies. When "NIL" is entered in the Patient Alerts section, it will no longer be displayed on the appointment screen, as it is deemed not applicable.

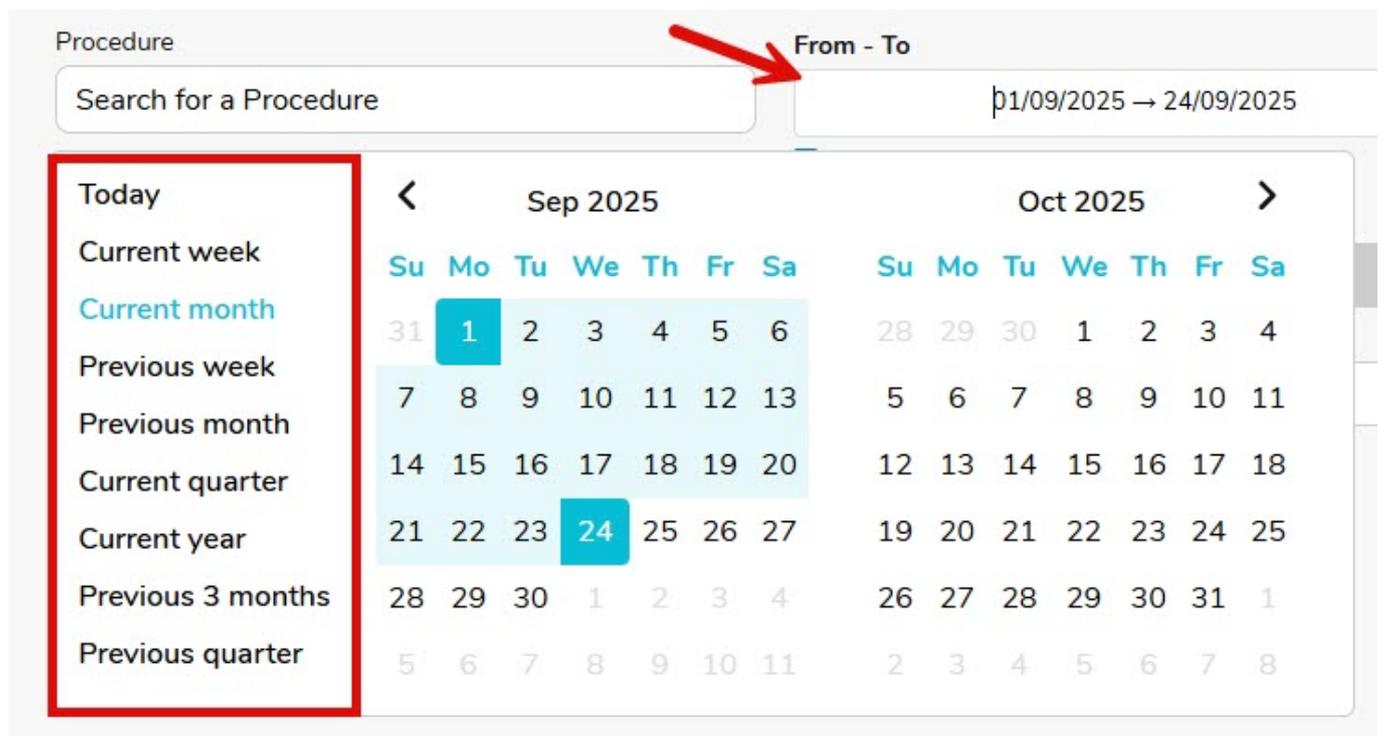

Episode Stats Date Range Addition

A new feature has been added to the **Episode Stats** section under **Reports**. When you click on the date, FYDO now provides the option to search data from specific time periods via a button. The available time periods include:

- Current Week
- Current Month
- Previous Week
- Previous Month
- Current Quarter
- Current Year
- Previous 3 Months
- Previous Quarter

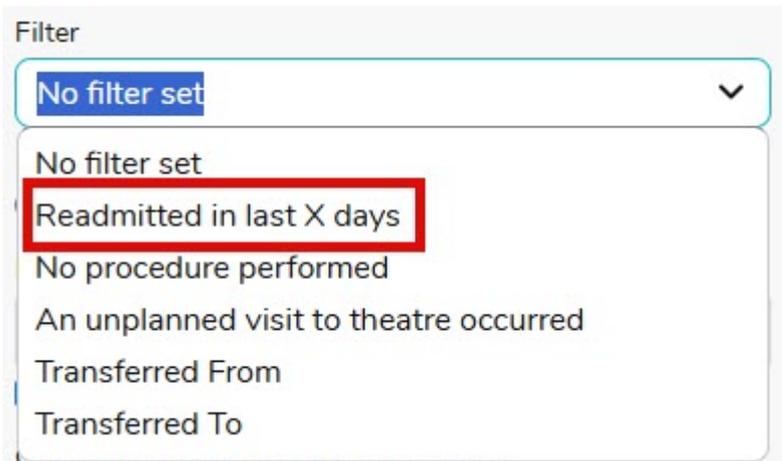

This enhancement is designed to streamline your reporting process and make it easier to retrieve data for the desired time frames.

The screenshot shows the 'Procedure' section of the Episode Stats interface. A search box labeled 'Search for a Procedure' is on the left. To its right is a date range selector labeled 'From - To' with a red arrow pointing to it. The date range is currently set to '01/09/2025 → 24/09/2025'. Below the search box is a menu with eight options: 'Today', 'Current week', 'Current month', 'Previous week', 'Previous month', 'Current quarter', 'Current year', 'Previous 3 months', and 'Previous quarter'. The 'Current month' option is highlighted in blue. To the right of the menu is a calendar view for September and October 2025. The calendar shows dates from 1st to 31st, with the 1st and 24th highlighted in blue.

Change in Episode Stats Re-Admission

Episode stats can now show re-admission within a stipulated number of days.

Enhancement to Medical Retention Record

In the **Medical Retention Record** section under **Reports**, a new column has been added to the export functionality. When exporting this document to Excel, you will now see a dedicated column displaying the procedure notes.

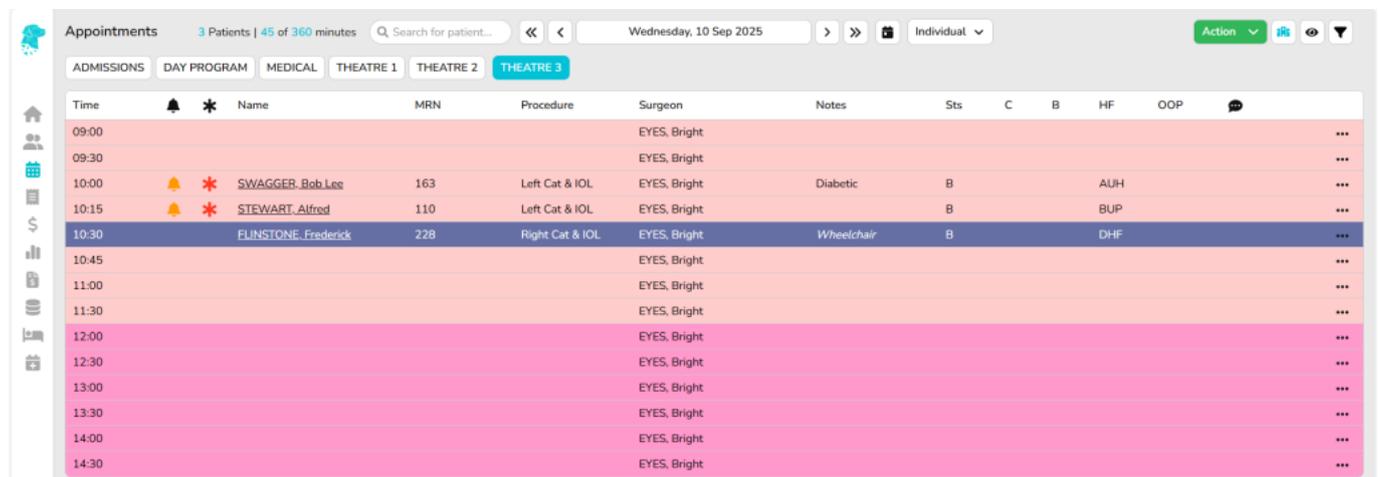

MedicalRecordRetention (Hospital) As At 24/09/2025
For All Locations

| Patient Name | MRN | Adm# | Last Episode | DOB | Age (During Episode) | Chart Location | Chart Volume | Chart Status | Last DRG | Deceased | Procedure Notes | Indigenous |
|--------------|-----|------|--------------|-----|----------------------|----------------|--------------|--------------|----------|----------|-----------------|------------|
| | | | | | | | | | | | | |

[FYDO Hospital Update - 11/09/2025](#)

Upcoming Layout Change

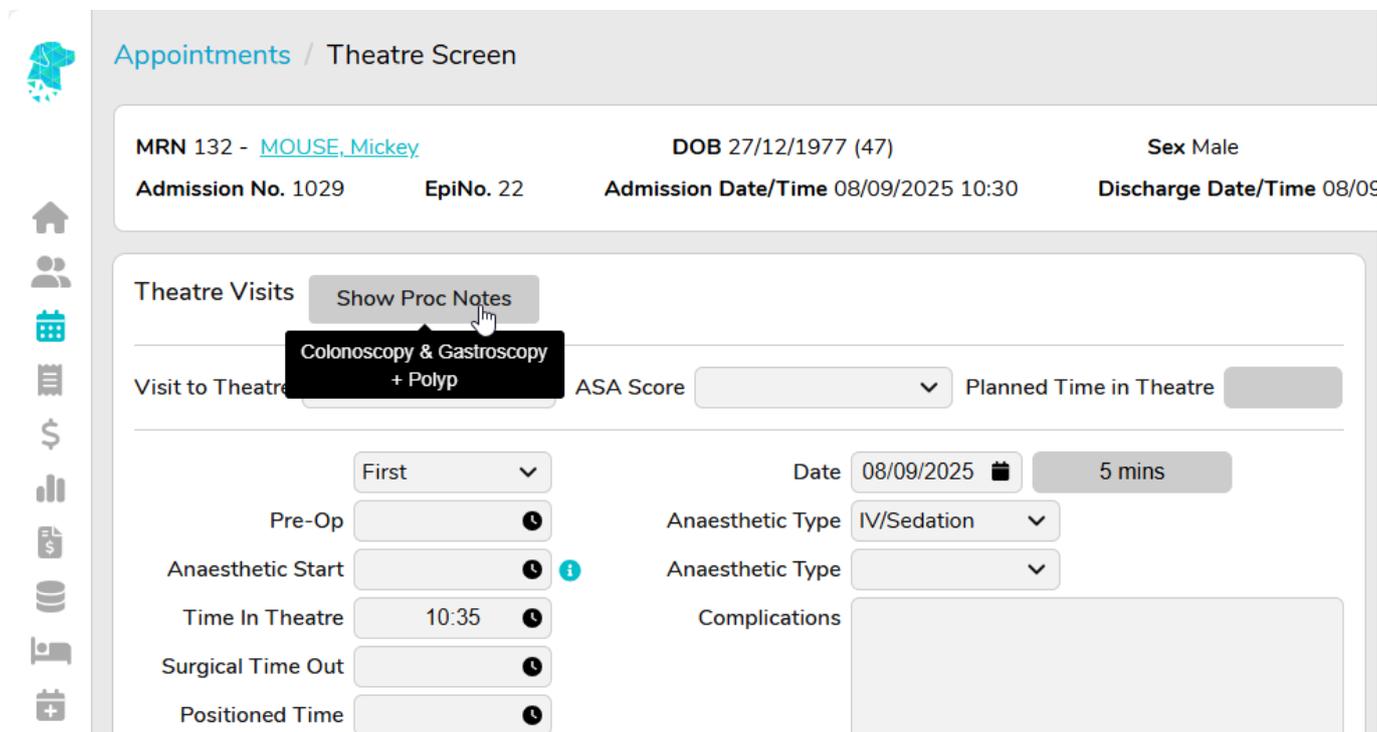

As part of the upcoming major update scheduled for **21 September 2025**, the Appointment Screen will feature a refreshed layout. A preview of the new design is shown below.

For more details on this layout and the location of specific features, please refer to the link provided:

Theatre Screen Addition

FYDO has introduced a new feature within the Theatre Screen that allows users to quickly view procedure notes. As shown in the image below, a yellow **“Show Proc Notes”** icon has been added. By hovering over this icon, you can see a preview of the notes entered for the procedure.

This enhancement is particularly valuable in facilities where nurses and doctors primarily rely on the Theatre Screen, as it eliminates the need to refer back to the printed list, providing faster and more efficient access to critical information.

New Token

FYDO now includes a token for **Gender**. Please see below for details on the newly added token.

Gender ID = <<patGender2>>

Gender Description = <<patGender2Desc>>

| Admission Time | Patient Name | Doctor/Anaesthetist |
|-------------------------------|--|---|
| 07:00 Diabetic, Anxiety | DEAN, James (M) DOB: 01/01/1942 (83) Gender ID: 1 Gender: Man, or boy, or male | Doctor: EYES, Bright Anaes: CELES, Monica Anae Type: None |
| 07:30 Infection | DAY, Doris (F) DOB: 03/04/1922 (103) Gender ID: 2 Gender: Woman, or girl, or female | Doctor: EYES, Bright Anaes: CELES, Monica Anae Type: IV/Sedation |

For a complete list of available Patient tokens, please refer to the FYDO Wiki Manual via the link below:

[FYDO Hospital Update - 03/09/2025](#)

Episode Stats Report Addition

FYDO has enhanced the Episode Stats Report to incorporate Body Stats, one of our latest features. The Excel Raw Data Report now includes four additional columns: Height, Weight, BMI and Stats Date.

| RN | RO | RP | RQ |
|--------|--------|-----|----------|
| Height | Weight | BMI | StatDate |
| | | | |

Print List Enhancement

FYDO has introduced a new tick-box option when printing lists, allowing you to generate lists exclusively for patients with **Food Instructions entered** to identify special dietary requirements. This enhancement provides a more efficient way to identify and manage patients' specific needs.

[FYDO Hospital Update - 28/08/2025](#)

Billing Status Addition

FYDO has introduced a new ordering option within the Billing Status Report. When the **Report Type** is set to **Show Not Billed Only**, a new **Order By** field will become available. This feature functions identically to the **Order By** option in the Incomplete Report and will default to **Alphabetical** ordering.

The screenshot shows the 'Billing Status Report' interface. It features several filter sections: 'Location' (All Locations), 'Theatre Complete' (All Theatre), 'Report Types' (Show not billed only), 'Doctor' (All Doctors), 'Coding Complete' (All Coding), 'Patient Category' (All Patient Categories), and 'Fund' (All Funds). A red box highlights the 'Order By' dropdown menu, which is currently open and shows three options: 'Alphabetical', 'Discharge Date, Patient Name' (highlighted in blue), and 'Fund, Patient Name'. A red arrow with the number '1' points to the 'Report Types' dropdown.

New Option in Casebase Settings

FYDO has introduced a new column titled **Ignore Step Down** in the **Settings > Health Fund Fees > Casebase Fees** tab. This column is a tick box, similar in function to the existing **GST** column.

This enhancement addresses scenarios where certain facilities require the **Procedure Only** fee to be calculated at 100%, even when the item is listed as a secondary or subsequent procedure. However, as this rule does not apply universally to all item numbers within the Casebase list, some of which still require percentage-based step downs. The new tick box provides the flexibility to manage these exceptions on an item-by-item basis.

| Ignore StepDown | GST | Exclude Other Services | Exclude Private Room |
|-----------------|-----|------------------------|----------------------|
| | | | ✓ |
| ✓ | | | ✓ |

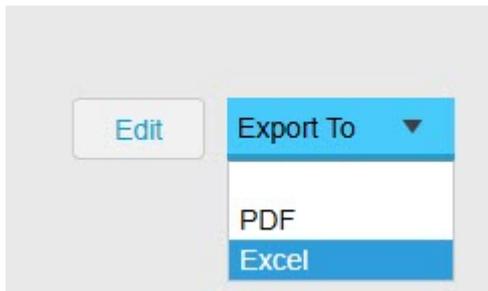

If you need to upload the Casebase import file, the new field will be located in column J. Additionally, both the PDF and Excel spreadsheet outputs have been updated to include the 'Ignore Step Down' column.

| A | B | C | D | E | F | G | H | I | J | K |
|-----|----------|-----------|------|-----|-------------|-------------|-----|--------|----------------|--------------------|
| MBS | Casebase | Procedure | Type | DVA | OutlierDays | OutlierRate | GST | ExcLOS | IgnoreStepDown | ExcludePrivateRoom |
| | | | | | | | | | | |

[FYDO Hospital Update - 21/08/2025](#)

Exporting Fund Fees

We've made an enhancement to the **Settings > Health Fund Fees** section. The previous "Print" option, located in the top right-hand corner, has been updated and renamed to "**Export To**". This new functionality now allows you to export Health Fund Fees not only as a **PDF**, but also as an **Excel spreadsheet**, providing greater flexibility and convenience.

Bed Tracker Addition

We've introduced an additional option to the **Bed Tracker** screen for the overnight hospitals. When selecting the "**Print Handover**" button in the top right-hand corner, you will now have the ability to print the handover **by doctor**.

This enhancement ensures that doctors only view information relevant to their own patients, improving efficiency and maintaining patient confidentiality.
