Patient Screen - Further Re-Order Options

In the Patient Screen, the section originally known as “Other Information” has been split into two sections: “**Personal Information**” and “**Other Information**”. This update allows you to better tailor the screen to your needs using our **Reorder Content** feature.

The image displays a screenshot of the Patient Screen interface. The top section contains address and contact information fields. Below this, the 'Personal Information' section is highlighted with a red box, containing fields for Marital Status, Occupation, Employment Status, Employer, Indigenous Status, Australian South Sea Islander, Language, Country of Birth, Religion, Interpreter, and Overseas Visitor. The 'Other Information' section is also highlighted with a red box, containing fields for Family GP (Current), Preferred Doctor, Bill Method, Fee Level, Send Invoices To, Location, Dental Benefit, Deceased, Archived, and Survey. A 'Reorder Content' dialog box is overlaid on the bottom half of the screen, showing a list of sections that can be reordered. The 'Personal Information' section is highlighted with a red box in the dialog, and a red arrow points to it from the left. The dialog also shows 'Other Information' and 'Community Nursing' sections. Buttons for 'Reset Order', 'Cancel', and 'Save Order' are visible at the bottom of the dialog.

Theatre Roster Improvement

A new **pop-up** has been added when saving edits to a **Theatre Booking**, providing users with two options:

- **Only Update Roster Info:** This option prevents updates to linked bookings, meaning details from the theatre roster (*e.g. anaesthetist, surgical assistant etc.*) will not be modified.
- **Update All Bookings:** This option updates all linked bookings, ensuring the displayed data (*e.g. anaesthetist, surgical assistant etc.*) is applied across all affected bookings.

The functionality remains unchanged in that it **only updates linked bookings** and does not affect **Admitted, Discharged or Cancelled Episodes**.

The screenshot shows a 'Theatre Booking (Day Program)' form with the following details:

- Booking ID:** 328
- Location:** Shaes Private Hospital
- Theatre:** Day Program
- Doctor/Surgeon:** BLACK, Jack
- Anaesthetist:** Starr, Ringo
- Date:** 08/04/2025
- Start Time:** 09:00
- End Time:** 14:30
- Duration:** 330 Mins

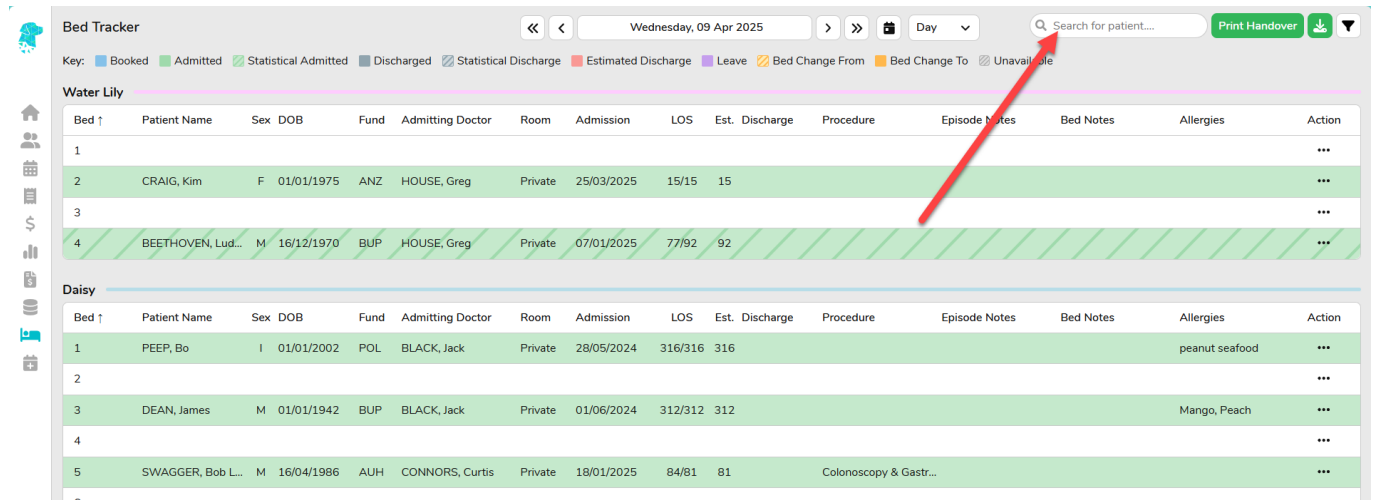

The 'Update Theatre Roster' pop-up dialog box contains the following text:

Do you want to update all booking in this session?
This includes roles like anaesthetist, scout nurse and others.

Buttons: Cancel, Only Update Roster Info, Update All Bookings

Bed Tracker Improvement

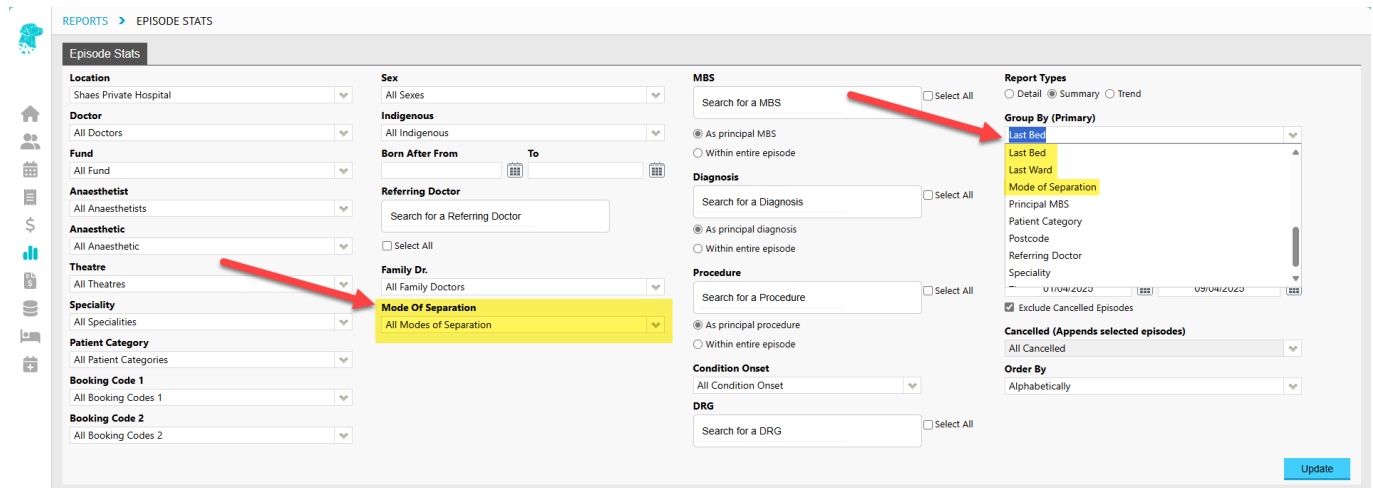

Users can now **Search for patients** within the **Bed Tracker**. Please note that this search function only applies to patients displayed on the current screen and does not search the entire database.

Episode Stats Report Additions

A new filter has been added to the **Episode Stats Report**, allowing episodes to be filtered by their **Mode of Separation** (aligning with the **HCP and PHDB** data field in the **discharge screen**).

Facilities can now use the **Group By** feature to group episodes by **Last Bed**, **Last Ward** and **Mode of Separation**.

New Patient Flag

The **New Patient Flag** will now automatically tick for a patient's **First Episode**. For all subsequent episodes, the **New Patient** tick box will remain **unticked**.

New User Group Access Levels

We've added new options to the **User Group > Access Levels**, giving facilities greater control over user permissions:

- **Create IFC** - Allows users to generate IFCs
- **Create IFC - Edit Charges** - Allows users to make changes to the fees while creating IFCs

New IFC Template Defaults

Following our announcement earlier this week, we're pleased to confirm that the new feature allowing facilities to have both an **Insured Default Template** and an **Uninsured Default Template** has now been implemented in FYDO.

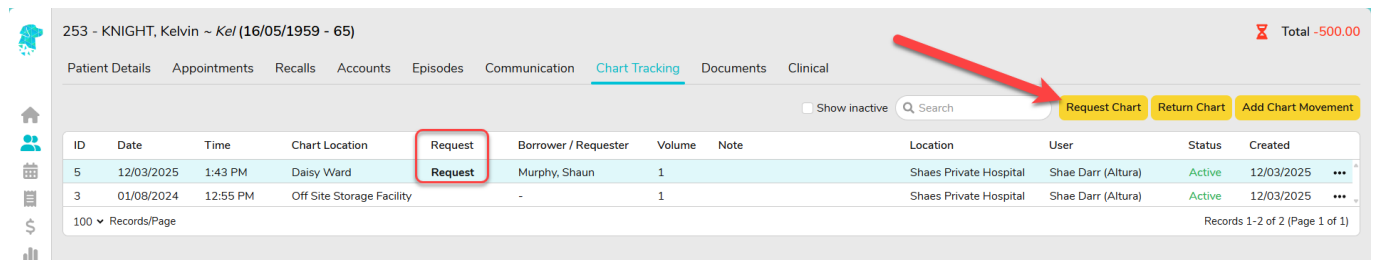

Chart Tracking Improvements

We've added a new feature to **Chart Tracking** that allows facilities to **Request** charts. This action works similarly to a **Chart Movement** but adds a special **Request flag**, making it easy for other users to identify which charts need to be collected and where they should be moved within the facility.

To further enhance this feature, we've made several additions to the **Chart Tracking Report**:

- 1. Filter Option:** Users can filter the report to view **All Types**, **Request Only** or **None Request**.
- 2. Improved Identification:** Requested charts are now easily identifiable on the report.
- 3. Multi-Select Capability:** Users can select multiple entries directly from the report.
- 4. Bulk Actions:** A new field allows for multiple charts to be actioned at once to either **Return Bulk Charts** or **Covert Bulk Charts to Loan**.

[Re-Order Patient Screen – FYDO Wiki](#)

The screenshot shows a patient record for Kelvin KNIGHT, born 16/05/1959. The interface is divided into several sections: a left-hand navigation menu with icons for home, patient list, calendar, charts, and settings; a top navigation bar with tabs for Patient Details, Appointments, Recalls, Accounts, Episodes, Communication, Chart Tracking, Documents, and Clinical; and a main content area with three columns. The first column contains a patient photo, name, ID (253), sex (Male), age (65), language (English), and a pending amount of 0.00. The second column is the 'Patient Details' form, which includes fields for Title (Mr), Pronouns (He/Him/His), File Number, External ID, First Name (Kelvin), Middle Name, Last Name (KNIGHT), Previous Name, Preferred Name (Kel), Date of Birth (16/05/1959), Gender (Male), Address (123 The Lakes Drive, Fountain Lakes, VIC, 3000), and contact information. The third column contains 'Medicare / DVA', 'Entitlement Cards', 'Health Fund', and 'Online Patient Verification (OPV)' sections. The OPV section shows 'Type' as Medicare, 'As at' date as 03/03/2025, and an 'OPV Check' button. The location is set to 'Shaes Private Hospital'.

Payment and Adjustments

[FYDO Hospital Update - 27/02/2025](#)

Payments (Hospital) Improvements

To help prevent accidental duplicate processing of ECLIPSE payments, FYDO will now notify users if they attempt to process a payment that has already been applied. This safeguard reduces errors and ensures greater financial accuracy. Additionally, an audit log will record if a staff member chooses to proceed, after the alert is triggered.

Apply Payment

This payment has already been applied; would you like to process it again? *(This may cause duplication of receipted payments)*

New Acute Certificate Report

FYDO now offers a powerful new report designed to streamline **Acute Care Certificate** requirements for overnight facilities. The **Acute Certificate Report** provides a comprehensive list of admitted inpatients, displaying exact dates when certificates are required based on the admission date. It includes key details such as **Start Day**, **Adjusted Length of Stay** and **Length of Stay** to help you stay on top of compliance.

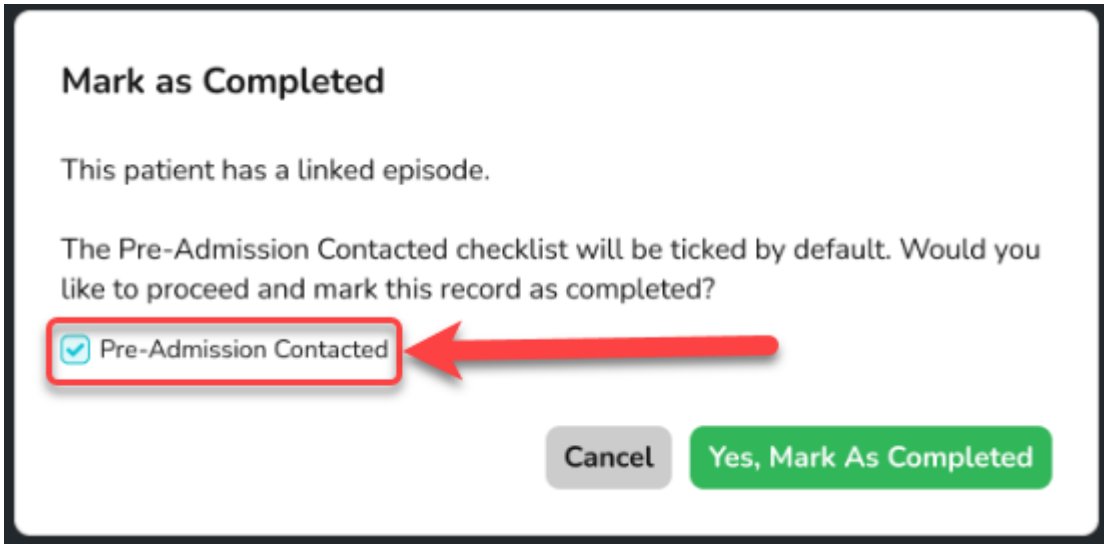

Equipped with FYDO's signature **Right-Click Menu**, this interactive report makes it easier than ever to efficiently manage certification obligations.

Theatre Screen Makeover

The **Theatre Screen** has been refreshed to align with the new, crisp FYDO look. All existing fields and information remain available, but with an improved layout and workflow. The most notable change is the relocation of the **Theatre Complete** tick box to a more appropriate position.

Theatre Screen Pathology

The **Pathology** field in the **Theatre Screen** has been updated to allow for more accurate documentation of pathology collection, including the **Pathology Company** and **Number of Specimens**.

- For procedures without pathology, simply check the **Pathology Nil** tick box.
- If pathology was collected, users can select the pathology company from the **Pathology** drop down and document the **# of Specimens** collected.
