# Episodes Screen - Audit Amendments

Based on the feedback received following the redesign of the **Episode Screen**, the **Audit Log** information will now be collapsed by default when the page is opened to ensure the screen is as visually pleasing as possible. Users can still view all audit information by simply clicking the **arrow** to the right of the field.

The screenshot shows the 'Episodes' tab for patient 153 - WHITE, Snow (16/04/2000 - 24). The total balance due is -5,331.00. Below the episode list is an invoice for admission 459, dated 14/05/2024, with a total of 1,529.00 and a balance due of 749.00. The invoice table lists items such as 'SameDay Accommodation Fee Band : 3', 'Lens extraction and insertion of intraocular lens...', 'AcrySof Multipiece Models MN60MA, MN60AC', 'DUOVISC VISCOELASTIC SYSTEM', and 'Deposit Applied: Cheque'. Below the invoice are sections for 'Episode Notes' and 'Financial Notes'. At the bottom, there is an 'Audit' field with a dropdown arrow, highlighted by a red box and a red arrow.

# Theatre Screen - Additional Features

Specific times in the **Theatre Screen** can now be made **mandatory**! New settings have been added to ensure the required data is ALWAYS entered once the **Theatre Complete** tick box is marked. These settings can be controlled in **System Configuration** and amended by anyone within the facility with the necessary access level.

These settings allow facilities to **Hide Positioned Time** if it is not a required field for their specialties and make any combination of times mandatory. For instance, since **Time in Theatre** and **Time Out of Theatre** are required for billing, facilities can select these options to ensure these times are always entered.

The trigger for these times being required is the marking of the **Theatre Complete** tick box. Users will not be able to save the information on the Theatre Screen if any of the required fields are missing.

The screenshot shows the 'Theatre' settings section with the following options:

- Hide Positioned Time
- Make Pre-Op time mandatory
- Make Anaesthetic Start time mandatory
- Make Time In Theatre time mandatory
- Make Surgical Time Out time mandatory
- Make Positioned time mandatory
- Make Procedure Start time mandatory
- Make Procedure Finished time mandatory
- Make Time Out Theatre time mandatory
- Make Recovery 1 time mandatory
- Make Recovery 2 time mandatory
- Make Recovery 3 time mandatory
- Make Ready for Discharge time mandatory

## Theatre Screen - Checkers

A number of checkers have been implemented to help ensure times are entered in the correct sequence on the **Theatre Screen**. These alerts will pop up immediately when an incorrect time is entered. For instance, if a **Pre-Op Time** is entered that is EARLIER THAN the **Admission Time**, FYDO will alert the users with an **Invalid** pop-up.

## Manually Linking Preadmit Forms

When manually linking a Preadmit form, users must now ensure the patient's **Date of Birth** on the form matches the Date of Birth in FYDO. This is in addition to the existing checks for the First Name and Surname, which helps prevent paperwork from being accidentally allocated to the incorrect patient.
