## **New Theatre Roster Report Improvements**

Our new Theatre Roster Report is now able to be run for dates in the future.

The screenshot shows a software interface for a Theatre Roster Report. At the top, there are filters for 'Report Type' (set to 'Roster') and 'Region' (set to 'All Regions'). Below this is a search bar and a table with the following columns: 'Date', 'Theatre', 'Description', 'Start Time', 'End Time', 'Status', and 'Number of Patients'. The table contains several rows of data, including entries for '2022-11-15' and '2022-11-16' for various theatres like 'Theatre 1' and 'Theatre 2'. The interface also includes a 'Page 1 of 1' indicator and a 'Run' button.

## **Payment Summary Report Improvements**

The Payment report, when run by Report Type Summary, will now group the transactions by their payment types.

The screenshot shows a software interface for a Payment Summary Report. It features a search bar and a table with columns for 'Date', 'Amount', and 'Payment Type'. Two red arrows point to the 'Payment Type' column, highlighting the new grouping feature. The table shows several rows of payment data. The interface includes a 'Page 1 of 1' indicator and a 'Run' button.

## **Bug Fixes**

The DRG error, that was occurring when running the grouper, has now been amended.

## **Informed Financial Consent (IFC) printing multiple copies**

When generating an IFC there is now the option to print multiple copies.

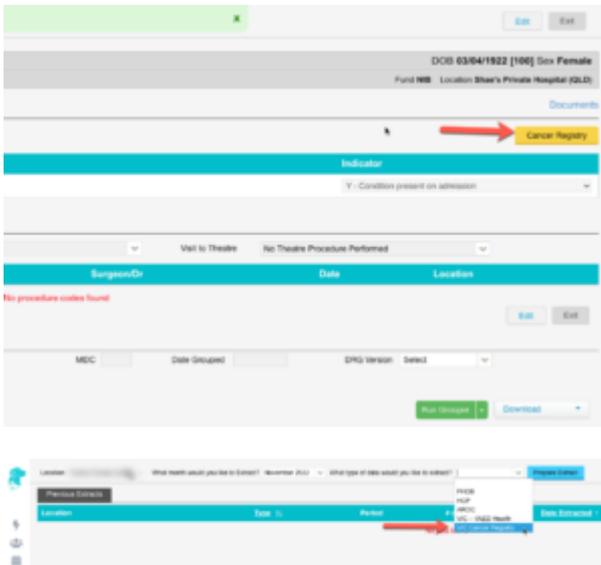

## 1<sup>st</sup> of November MBS & Procedure Bandings

Has been added to FYDO.

## Cancer Registry addition for Victoria

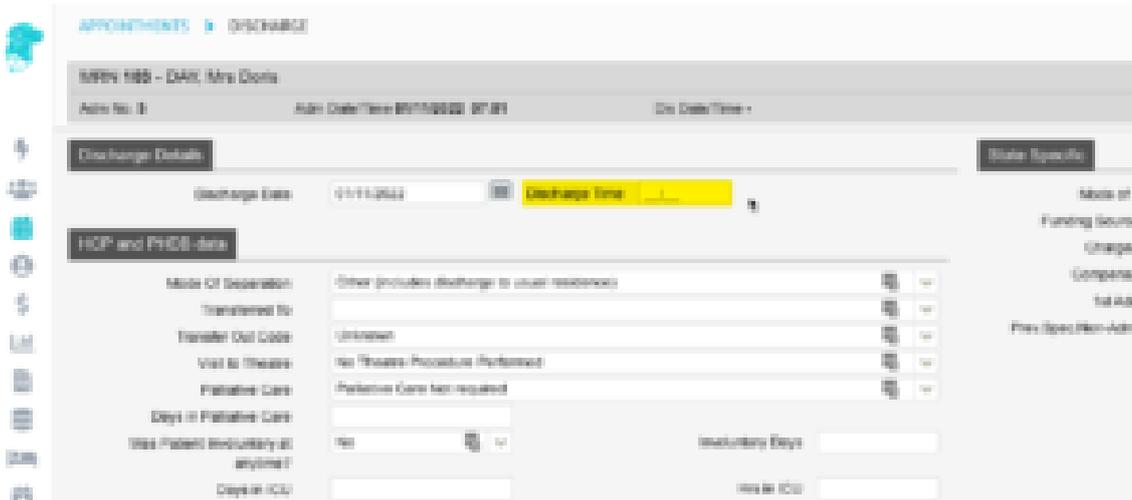

The **Cancer Registry** has been added to the coding screen for facilities in Victoria. You can now extract the Cancer Registry data as a file, ready for monthly submission.

# [FYDO Hospital Update - October 2022](#)

## Discharge Screen Enhancement

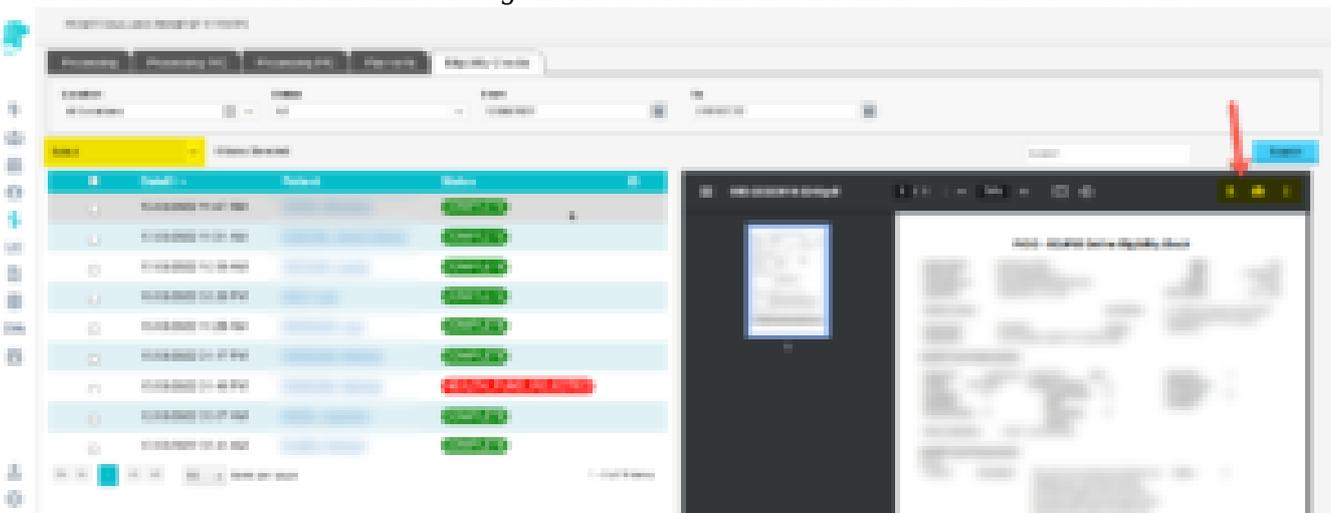

The cursor will now appear in the **Discharge Time** field when opening the Discharge Screen. This will enable users to simply type the discharge time without having to click in the field first. Another addition to this field is a **Double Click**. When the user double clicks in the **Discharge Time** field the current time will be pre-populated. This will assist users that are discharging in real time.

## Preview & Print Eligibility Checks in Bulk

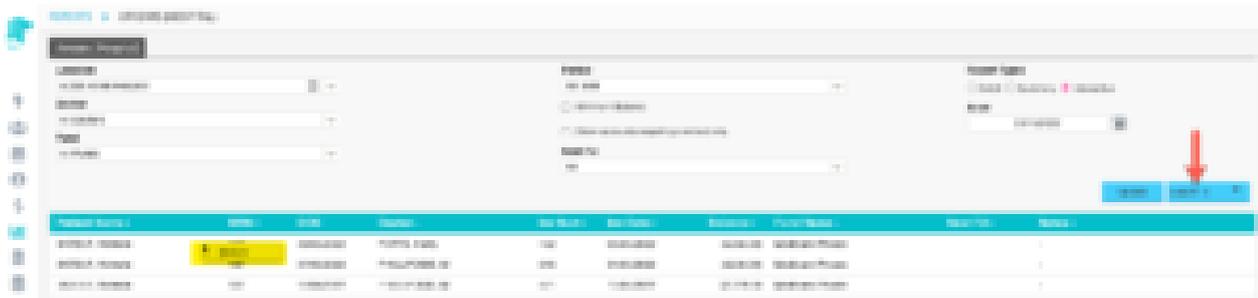

This new feature allows users to easily preview all eligibility checks that have been performed. There is also the option to select multiple OEC's & print them at once.

This feature can be found in **Claiming > Processing & Payment Reports > Eligibility Checks Tab**. A list of the OEC's performed will be shown on the left & a preview will be shown on the right. Individual OEC's can be downloaded or printed from this preview screen. Alternatively, use the tick boxes on the left to select any number of OEC's to print at once. Then use the **Select** dropdown box & click **Print PDF** or **Print Excel** to generate a document that includes all selected OEC's.

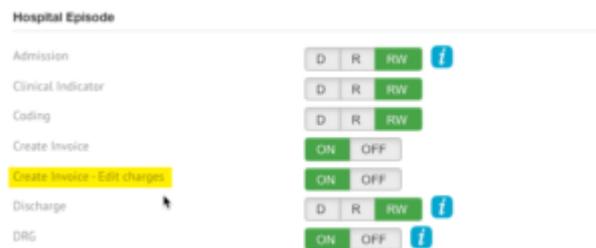

## Arrears Interactive Report Additions

The option to **Right-Click** on a line in the Arrears Report, when in Interactive View, has been added. This allows the user to easily navigate to the **History Screen** for the episode selected. The Interactive view can also be exported to Excel - Raw Data.

## New Permission Level - Editing Charges When Invoicing

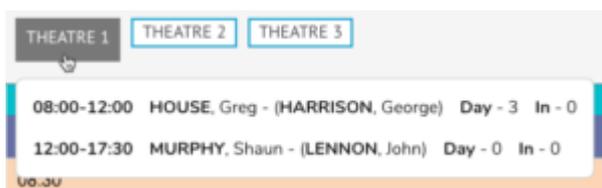

You can now restrict a user groups' ability to edit charges while billing, by switching the Create Invoice - Edit charges function to OFF, under the User Groups Permissions screen.

## Session Information Displaying in Appointments Screen

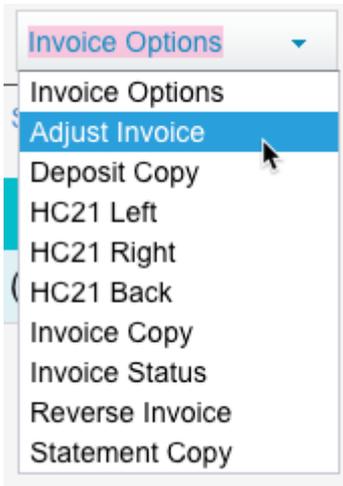

Hovering over the theatre name will now enable users to view:

- **Session Times**
- **Doctors Name**
- **Anaesthetists Name**
- **Number of Day Patients**
- **Number of Inpatients**

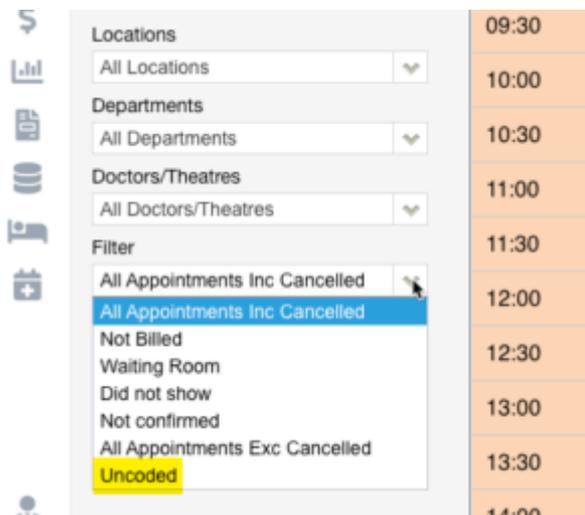

## Adjust Invoice now opens in a separate tab

When selecting **Invoice Options > Adjust Invoice**, in the History/Episodes screen, the screen will now open in a new tab. This will enable users to simply close the tab, after performing the adjustment, to return to the screen they were working on.

## New Uncoded Filter

There is now the option to view **Uncoded** episodes in the Appointments Screen by using the **Filter** dropdown & selecting **Uncoded**.

## Payments Report Addition

The **Admission Date** has been added to the Payments Report.

## Data Extract Improvements

The **Period** column will now correctly sort files in date order.

The button, that was previously displayed as **Submit**, has been re-named to **Prepare Extract** & re-

located to **assist** users in the process of getting the data ready to extract.

When Type C - ignore Type C accom fee ?

## Raising a ticket for support

When raising a ticket for FYDO support the user will now receive the information in an email notification as well. This will assist users in being able to see the tickets that they have raised.

## Bug Fixes

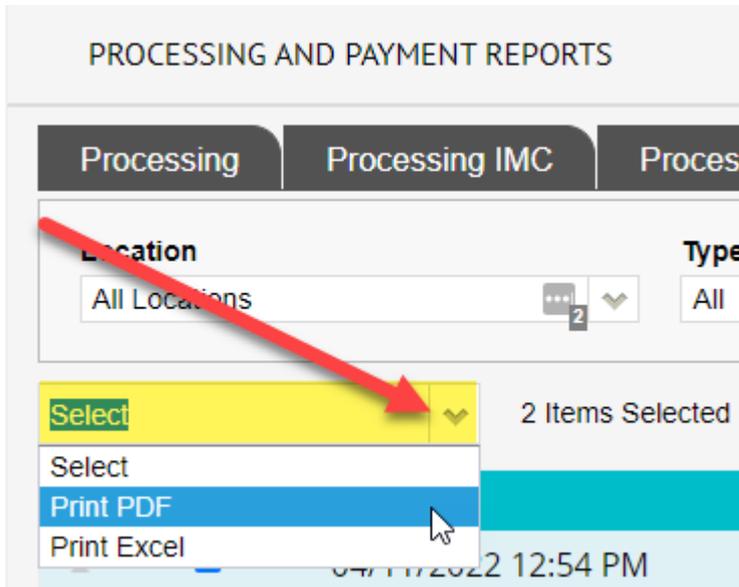

- The issue with the MRN search, from the Appointments Screen, has now been rectified.
- The problem with the Bulk Print feature in **Processing and Payments Reports > Payments** has been fixed & multiple payments can be printed together again.

## [FYDO Clinic Update 21/10/2022](#)

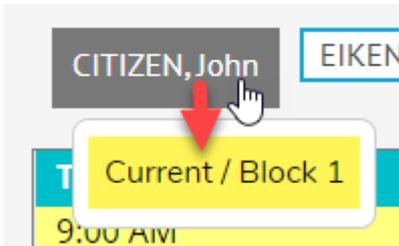

### Archive Batch

We have introduced a new option called “Archive Batch” in the “Claiming Medical Screen”. This option allows users to archive a patient claim from the “Claiming Medical Screen” without removing it from the patients “Accounts” history.

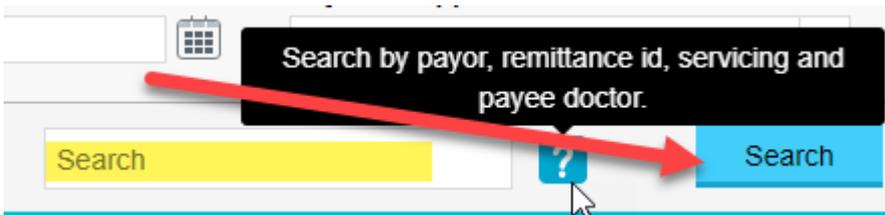

### Doctor/Room Pop Up

On the “Appointments” screen if you hover your cursor over a Doctor/Room tab it will pop up below with the Roster/Block information.

## Processing and Payment Reports

Users can now search by payor, remittance id, servicing and payee doctor on the “Payments” screen.

## Bug Fixes

Some users were experiencing loss of information on new letters not yet saved. To prevent this from happening, we have introduced an Autosave feature that will Autosave a letter every couple of minutes and a few seconds after typing is stopped. The last Autosaved performed will display in the top right hand corner below save and cancel icons.

### Patient Name Pop Up

On the “Appointments” screen if you hover your cursor over a patient name it will now pop up below. This new feature allows the user to view a patients name in full regardless of its length.

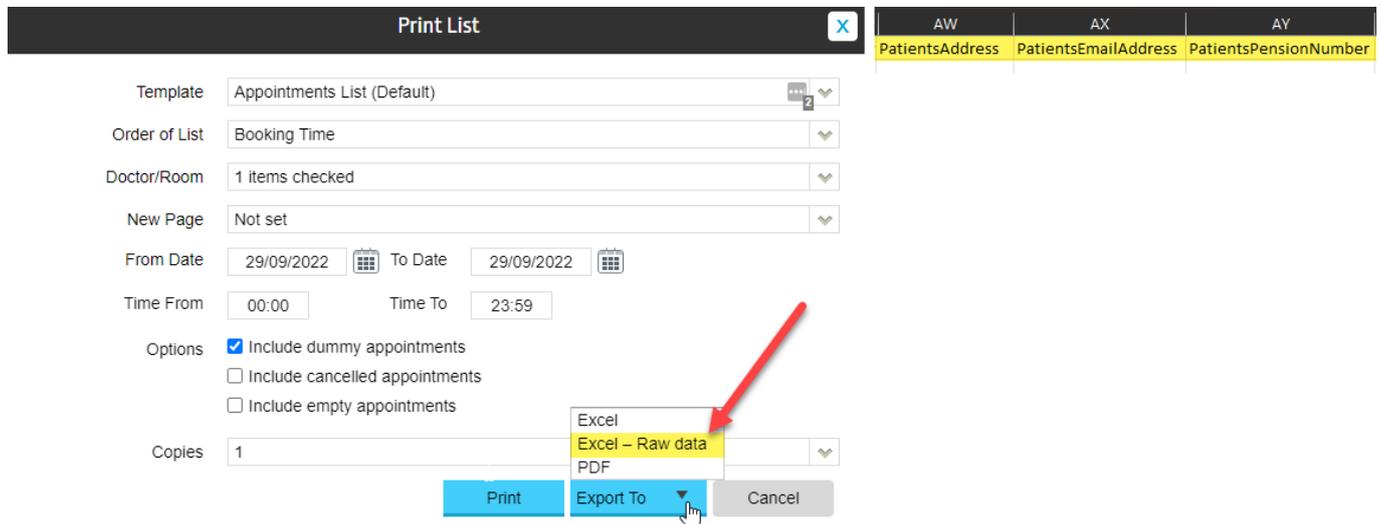

## Print List

New fields have been added to the “Print List” when exported in “Excel – Raw Data” format.

### New fields include:

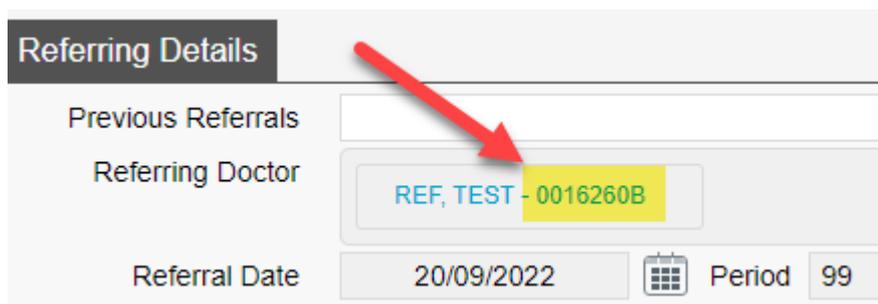

- Patients Address
- Patients Email Address
- Patients Pension Number

The screenshot shows the 'Print List' interface. The 'Export To' dropdown menu is open, and 'Excel - Raw data' is selected. A red arrow points to this option. The interface includes fields for Template, Order of List, Doctor/Room, New Page, From Date, To Date, Time From, Time To, Options, and Copies. The 'Export To' dropdown menu is open, showing options: Excel, Excel - Raw data (highlighted), and PDF. Below the dropdown are buttons for Print, Export To, and Cancel.

## Referring Provider Number

On the “Patient Details” screen under “Referring Details”, the user can now view the referring doctor’s provider number next to their name.

The screenshot shows the 'Referring Details' interface. The 'Referring Doctor' field displays 'REF, TEST - 0016260B'. A red arrow points to the provider number '0016260B'. The interface includes fields for Previous Referrals, Referring Doctor, Referral Date, and Period.

## Bug Fixes

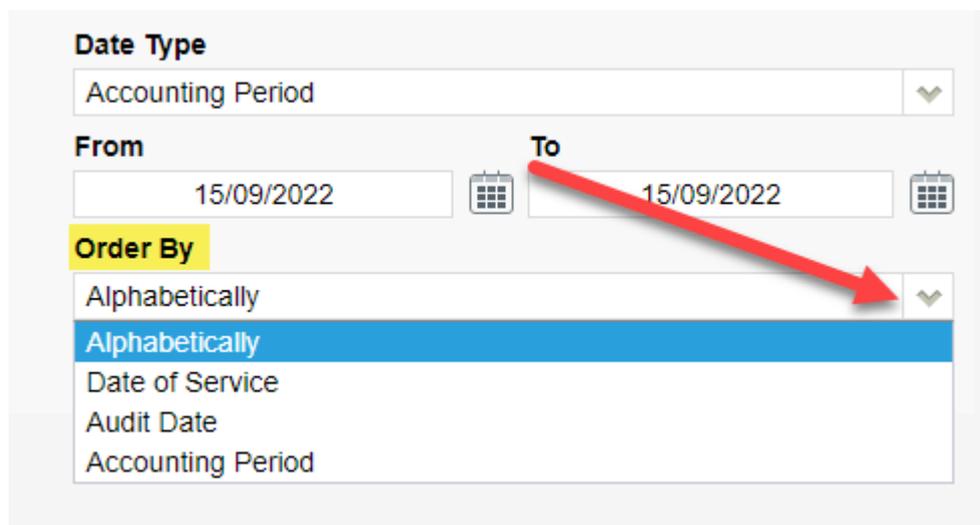

Users were experiencing an issue with the “Print Batch Details” function only printing the first items date of service and item note (*if any*) and repeating the same details on all items within a invoice. This bug has been fixed and users are able to “Print Batch Details” with the correct dates of service and item notes (*if any*).

## Batch Listing Report / Appointments Report

We have introduced two new reports called “Batch Listing” report and “Appointments”, they can be found in the reports menu under the “Reports - Clinic” tab as highlighted below. (*The Batch Listing Report is similar to the report in eClaims known as Batch Summary Report*).

## Patient Stats Report

New filter option called “Survey” has been added to the “Patient Stats” report. Survey data can be entered in the the “Patient Details” screen under the “Survey” field. This field is used to record how the patient found/heard about your clinic.

## Middle Name Field

We have replaced the the field “M” with “Middle Name” in the “Patient Details” screen. The new updated field allows a full middle name to be typed, before the “M” field only allowed for an initial.

## Dental Benefit Field

On the “Patient Details” screen there is now a field called “Dental Benefit”. This field works by the user entering the patients dental benefit amount and when invoicing to Medicare/Veterans it will deduct the invoice total from this value. To turn this feature on go to “Settings” > “System Configuration” and tick “Calculate Dental Benefit” tick box.

### Mandatory Admission Fields

We have upgraded the admission screen that will now enforce mandatory fields to be entered in the patient screen to enable the user to move forward to the admission screen. Below is the prompt warning that will alert a user to go back and update those fields, if the user selected the green "Go to patient screen" button they will be able to add the appropriate details immediately.

## Mandatory Fields

The following is missing from the patient screen:

- Address
- Suburb
- Postcode
- Marital status
- DVA Card Colour

Please go back to the patient screen and enter missing information
