FYDO Clinic Update – 02/10/2025

Addition to Doctors

In addition to a provider number, doctors are also assigned a prescriber number. Facilities can now record this information directly within the doctor's profile, eliminating the need for separate spreadsheets. This enhancement will also support future initiatives related to clinic prescribing.

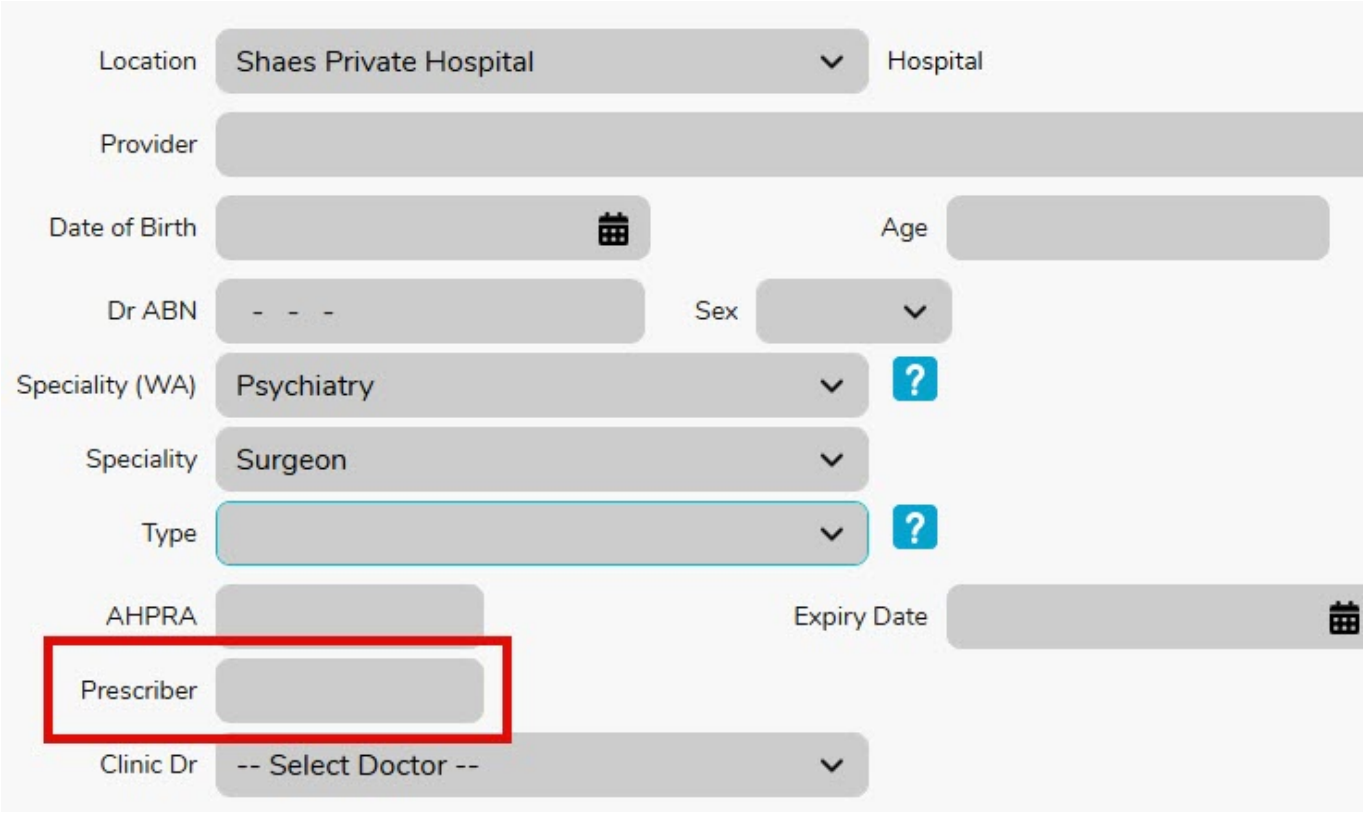

For previous updates, please visit https://wiki.fydo.cloud/updates-clinic/

FYDO Hospital Update – 02/10/2025

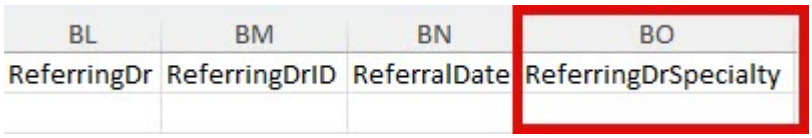

Addition to Doctors

In addition to a provider number, doctors are also assigned a prescriber number. Facilities can now record this information directly within the doctor's profile, eliminating the need for separate spreadsheets. This enhancement will also support future initiatives related to clinic prescribing.

Enhancement to Episode Stats Export

FYDO has added the Referring Doctor's Specialty to the **Reports > Episode Stats > Excel – Raw Data Export**, enabling facilities to utilise this information more effectively. The information is shown in **column BO** of the export file.

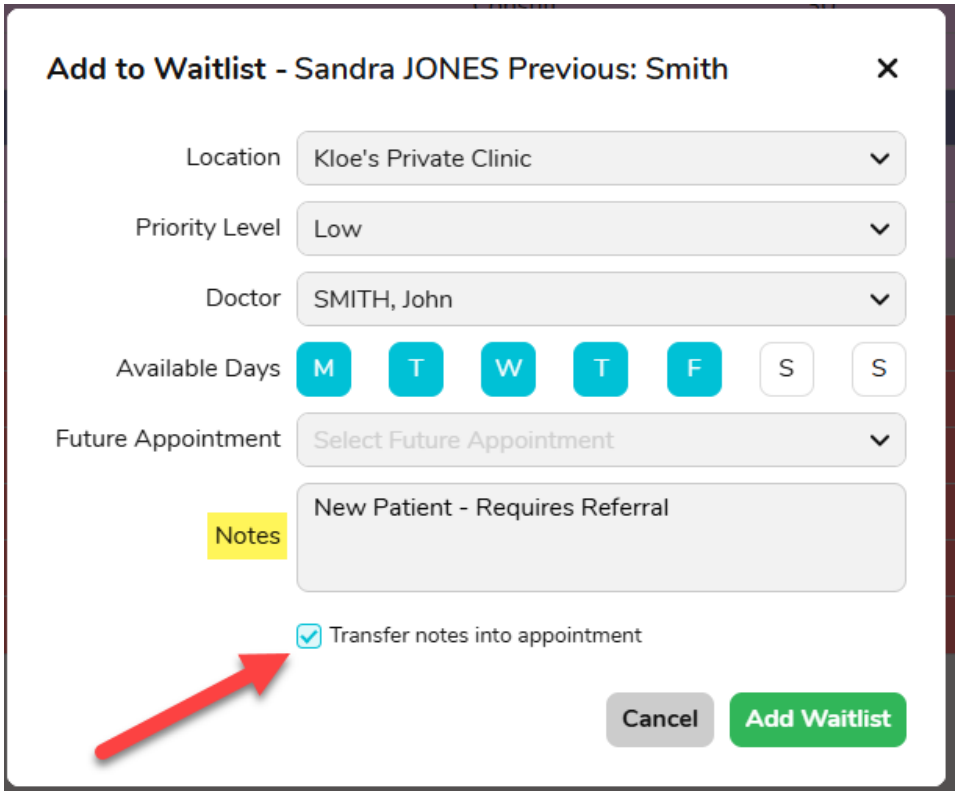

BL	BM	BN	BO
ReferringDr	ReferringDrID	ReferralDate	ReferringDrSpecialty

FYDO Clinic Update – 25/09/2025

New Waitlist Feature

When adding a patient to the waitlist, you'll now see a new tick box option: **"Transfer notes into appointment."**

If this box is ticked, any notes you enter at the time of adding the patient to the waitlist will automatically carry across to the patients appointment when made from the waitlist.

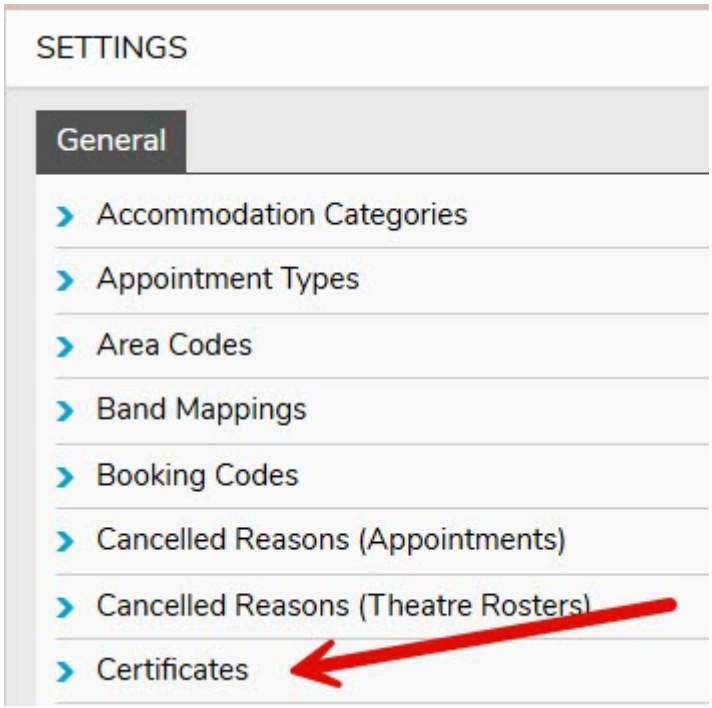

For previous updates, please visit https://wiki.fydo.cloud/updates-clinic/

FYDO Hospital Update – 25/09/2025

Addition to Certificates

A new improvement has been made regarding the addition of certificate reasons in patient records. In the **Settings** tab, you will now find an option for **Certificates**, where you can define and add your certificate reasons.

Once the reasons are added, you will have the option to select from a drop-down menu when adding a certificate to the patient's file. While this new feature provides a pre-defined selection, please note that you will still have the flexibility to free-type any additional text as needed.

Update to Patient Alerts

FYDO has now aligned the functionality of Patient Alerts with that of Patient Allergies. When "NIL" is entered in the Patient Alerts section, it will no longer be displayed on the appointment screen, as it is deemed not applicable.

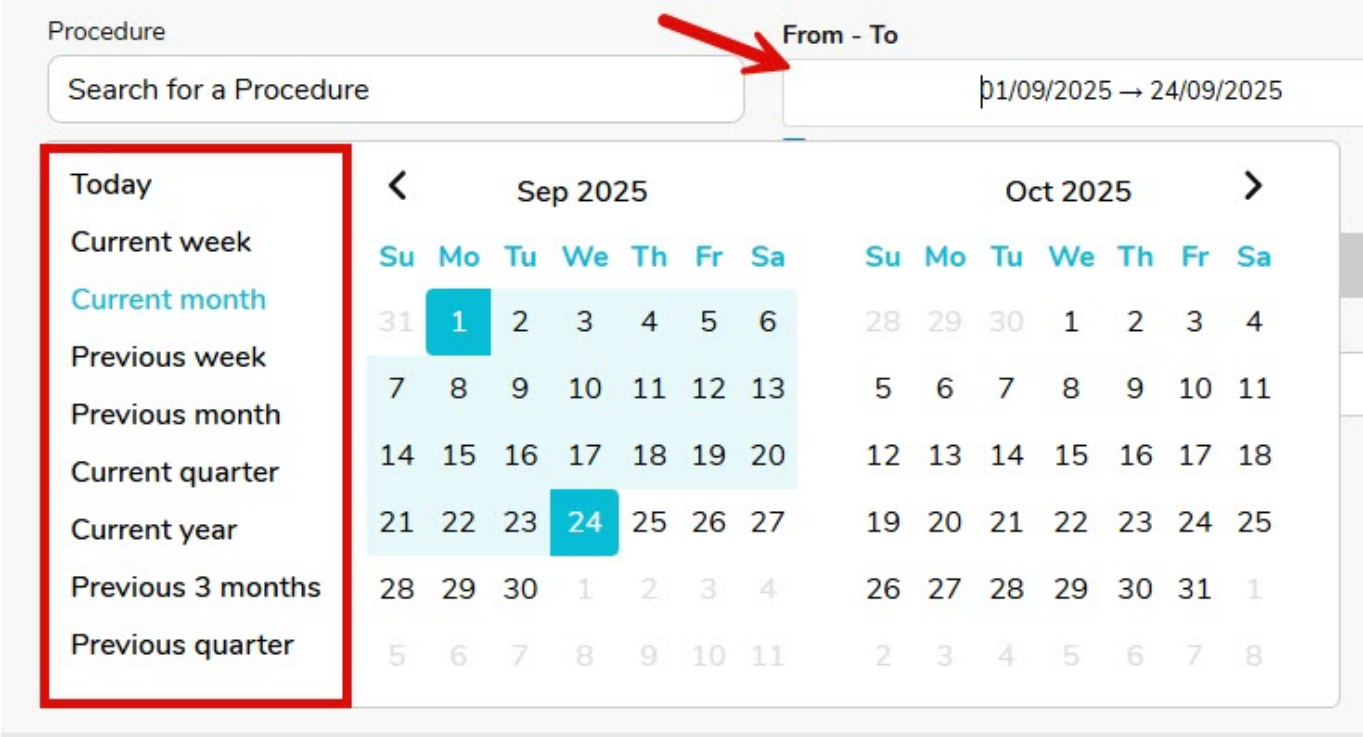

Episode Stats Date Range Addition

A new feature has been added to the **Episode Stats** section under **Reports**. When you click on the date, FYDO now provides the option to search data from specific time periods via a button. The available time periods include:

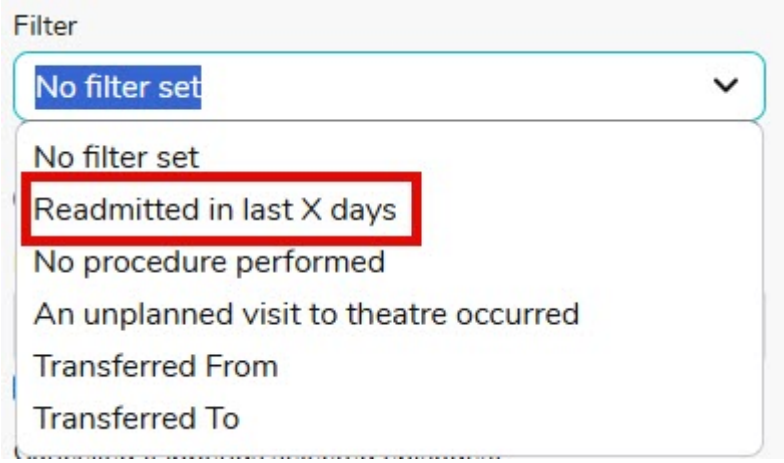

- Current Week
- Current Month
- Previous Week
- Previous Month
- Current Quarter
- Current Year
- Previous 3 Months
- Previous Quarter

This enhancement is designed to streamline your reporting process and make it easier to retrieve data for the desired time frames.

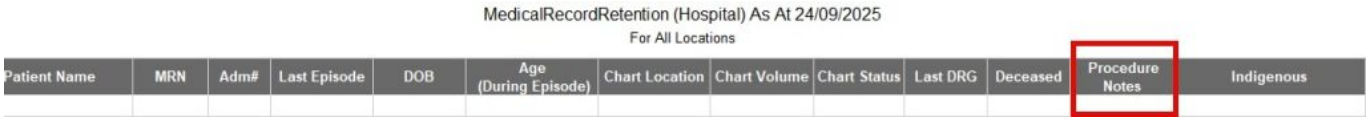

Change in Episode Stats Re-Admission

Episode stats can now show re-admission within a stipulated number of days.

Enhancement to Medical Retention Record

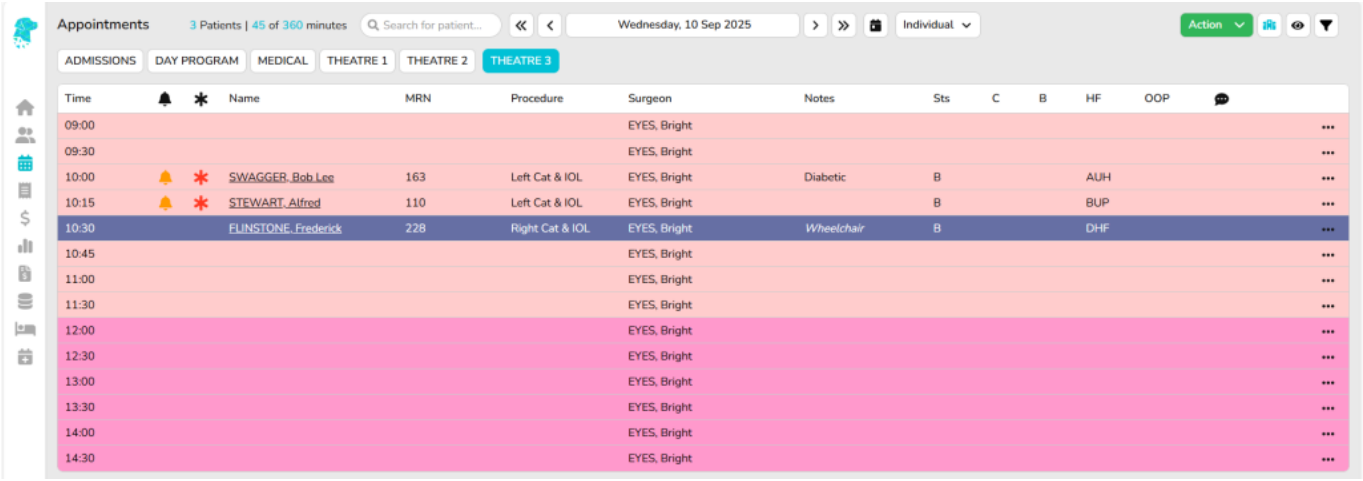

In the **Medical Retention Record** section under **Reports**, a new column has been added to the export functionality. When exporting this document to Excel, you will now see a dedicated column displaying the procedure notes.

FYDO Hospital Update – 11/09/2025

Upcoming Layout Change

As part of the upcoming major update scheduled for **21 September 2025**, the Appointment Screen will feature a refreshed layout. A preview of the new design is shown below.

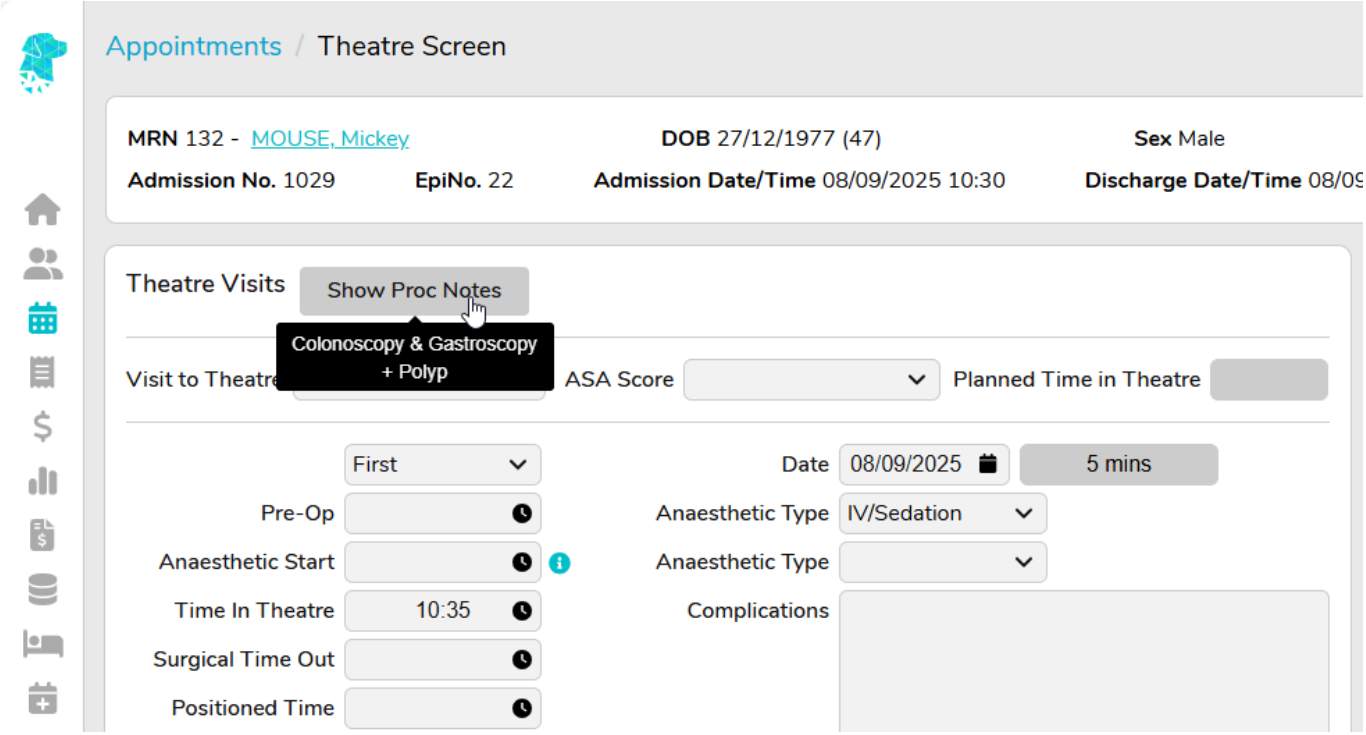

For more details on this layout and the location of specific features, please refer to the link provided:

[Appointment Screen Layout Improvements]

Theatre Screen Addition

FYDO has introduced a new feature within the Theatre Screen that allows users to quickly view procedure notes. As shown in the image below, a yellow **"Show Proc Notes"** icon has been added. By hovering over this icon, you can see a preview of the notes entered for the procedure.

This enhancement is particularly valuable in facilities where nurses and doctors primarily rely on the Theatre Screen, as it eliminates the need to refer back to the printed list, providing faster and more efficient access to critical information.

New Token

FYDO now includes a token for **Gender**. Please see below for details on the newly added token.

Gender ID = <<patGender2>>
Gender Description = <<patGender2Desc>>

Admission Time	Patient Name	Doctor/Anaesthetist
07:00 Diabetic, Anxiety	DEAN, James (M) **DOB:** 01/01/1942 (83) **Gender ID:** 1 **Gender:** Man, or boy, or male	**Doctor:** EYES, Bright **Anaes:** CELES, Monica **Anae Type:** None
07:30 Infection	DAY, Doris (F) **DOB:** 03/04/1922 (103) **Gender ID:** 2 **Gender:** Woman, or girl, or female	**Doctor:** EYES, Bright **Anaes:** CELES, Monica **Anae Type:** IV/Sedation

For a complete list of available Patient tokens, please refer to the FYDO Wiki Manual via the link below:

FYDO Hospital Update – 03/09/2025

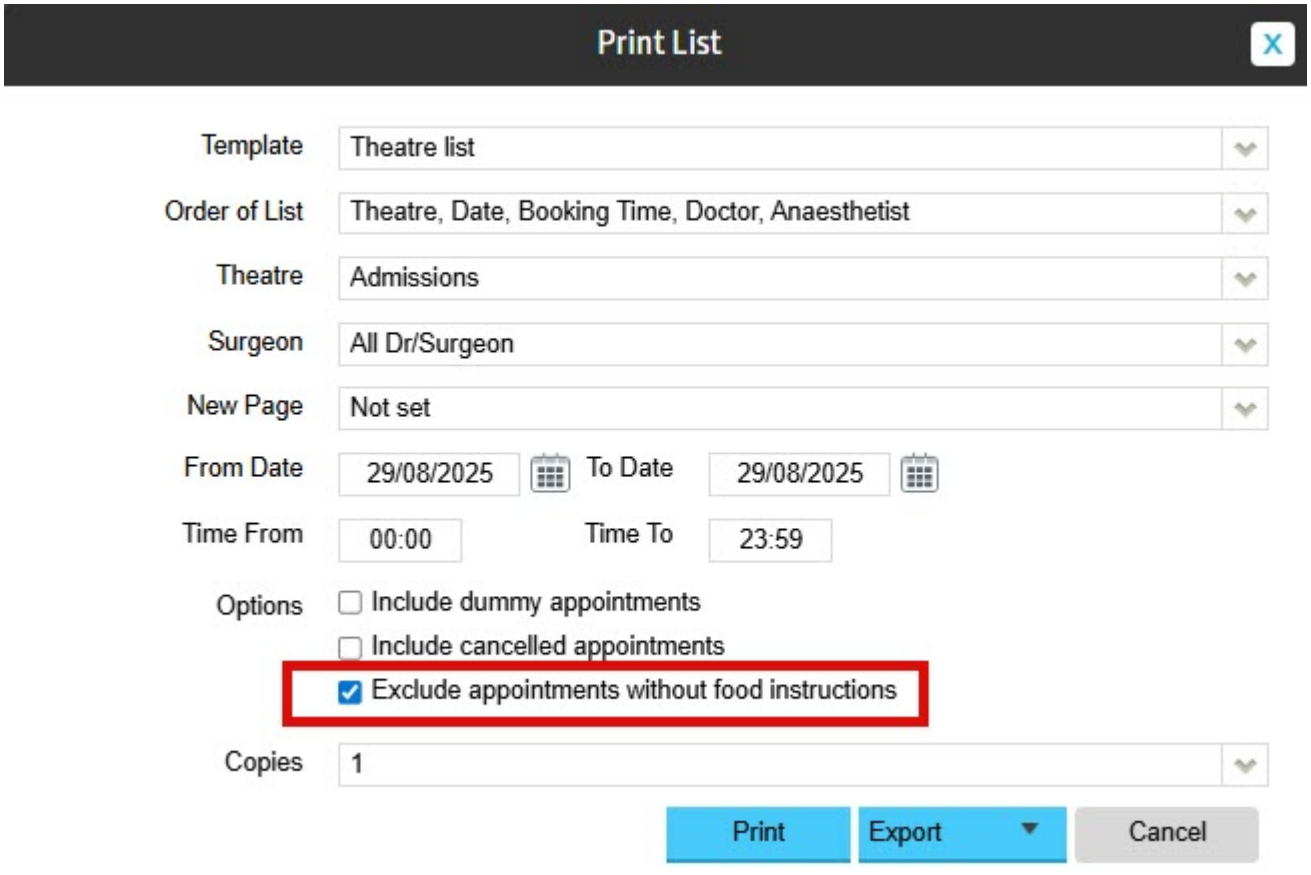

Episode Stats Report Addition

FYDO has enhanced the Episode Stats Report to incorporate Body Stats, one of our latest features. The Excel Raw Data Report now includes four additional columns: Height, Weight, BMI and Stats Date.

RN	RO	RP	RQ
Height	Weight	BMI	StatDate

Print List Enhancement

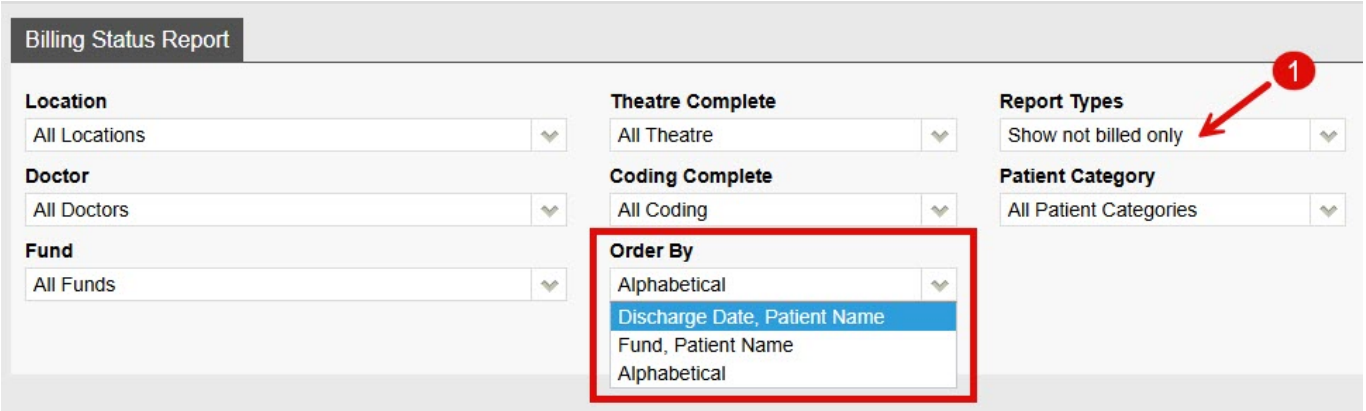

FYDO has introduced a new tick-box option when printing lists, allowing you to generate lists exclusively for patients with **Food Instructions entered** to identify special dietary requirements. This enhancement provides a more efficient way to identify and manage patients' specific needs.

FYDO Hospital Update – 28/08/2025

Billing Status Addition

FYDO has introduced a new ordering option within the Billing Status Report. When the **Report Type** is set to **Show Not Billed Only**, a new **Order By** field will become available. This feature functions identically to the **Order By** option in the Incomplete Report and will default to **Alphabetical** ordering.

New Option in Casebase Settings

FYDO has introduced a new column titled **Ignore Step Down** in the **Settings > Health Fund Fees > Casebase Fees** tab. This column is a tick box, similar in function to the existing **GST** column.

This enhancement addresses scenarios where certain facilities require the **Procedure Only** fee to be calculated at 100%, even when the item is listed as a secondary or subsequent procedure. However, as this rule does not apply universally to all item numbers within the Casebase list, some of which still require percentage-based step downs. The new tick box provides the flexibility to manage these exceptions on an item-by-item basis.

If you need to upload the Casebase import file, the new field will be located in column J. Additionally, both the PDF and Excel spreadsheet outputs have been updated to include the ‘Ignore Step Down’ column.

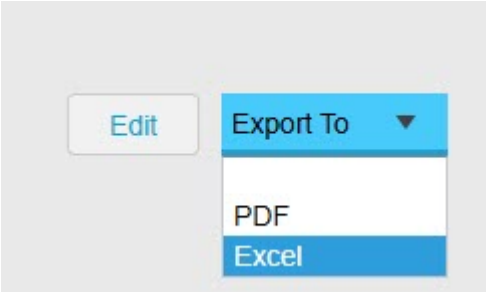

A	B	C	D	E	F	G	H	I	J	K
MBS	Casebase	Procedure	Type	DVA	OutlierDays	OutlierRate	GST	ExclOS	IgnoreStepDown	ExcludePrivateRoom

---

FYDO Hospital Update – 21/08/2025

Exporting Fund Fees

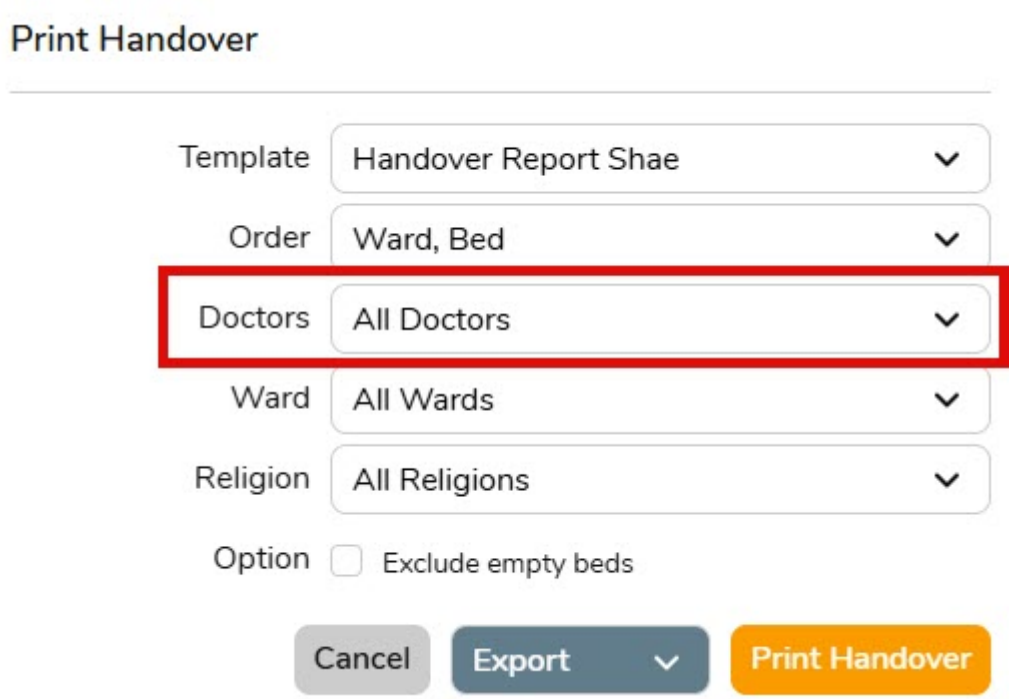

We've made an enhancement to the **Settings > Health Fund Fees** section. The previous "Print" option, located in the top right-hand corner, has been updated and renamed to **"Export To"**. This new functionality now allows you to export Health Fund Fees not only as a **PDF,** but also as an **Excel spreadsheet**, providing greater flexibility and convenience.

Bed Tracker Addition

We've introduced an additional option to the **Bed Tracker** screen for the overnight hospitals. When selecting the **"Print Handover"** button in the top right-hand corner, you will now have the ability to print the handover **by doctor**.

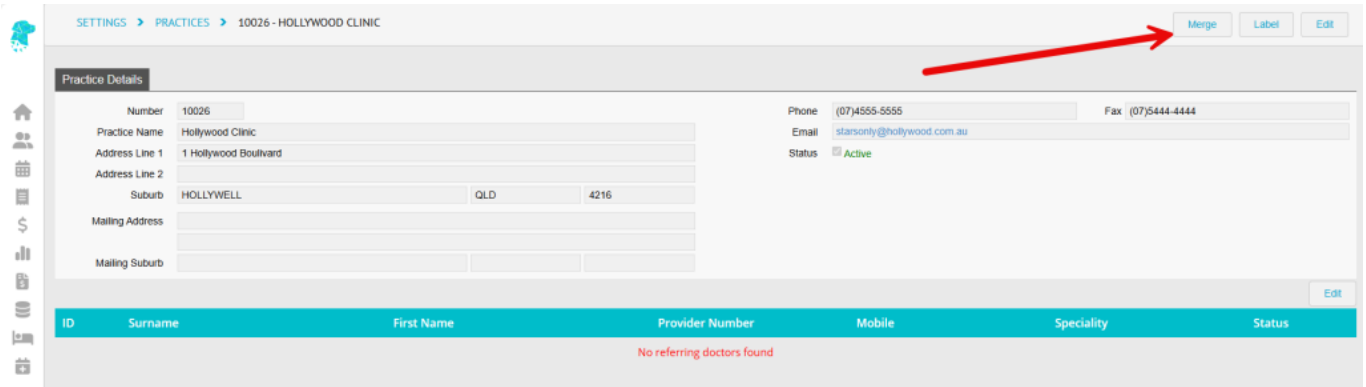

This enhancement ensures that doctors only view information relevant to their own patients, improving efficiency and maintaining patient confidentiality.

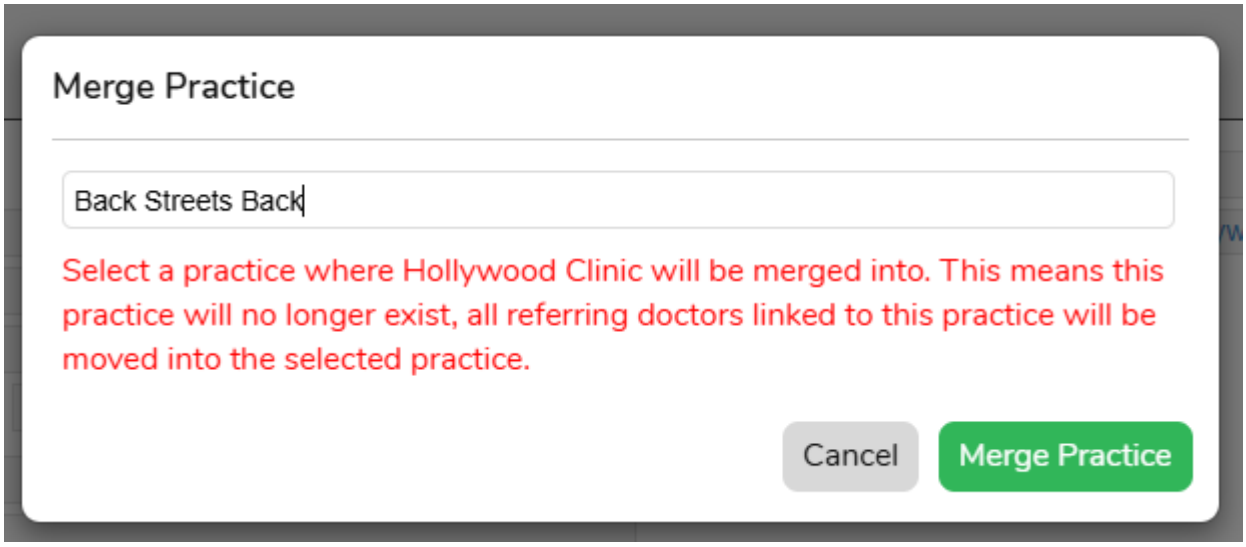

FYDO Clinic Update – 14/08/2025

Merge Practices Feature

Facilities now have the ability to merge **Practices**. This enhancement streamlines workflow and improves data management by providing a simple way to consolidate multiple practices and maintain a cleaner, more organised database. You will find this merge feature in **Settings > Practices > Select Practice**.

Permissions for this feature can also be managed within **User Groups** under **Settings General**. Users with **Read and Write (RW)** access will have the ability to merge practices.

You will find this merge feature in **Settings > Practices > Select Practice**.

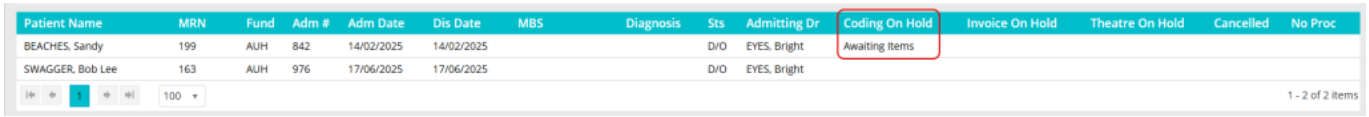

Permissions for this feature can also be managed within **User Groups** under **Settings General**. Users with **Read and Write (RW)** access will have the ability to merge practices.

Incomplete Report Addition

FYDO has implemented an enhancement to the Incomplete Report: when the report is run using the *Uncoded Episodes* or *Ungrouped Episode* filters, the **Coding on Hold** reason will now be displayed.

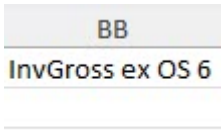

Patient Name	MRN	Fund	Adm #	Adm Date	Dis Date	MBS	Diagnosis	Sts	Admitting Dr	Coding On Hold	Invoice On Hold	Theatre On Hold	Cancelled	No Proc
BEACHES, Sandy	199	AUH	842	14/02/2025	14/02/2025			D/O	EYES, Bright	Awaiting Items				
SWAGGER, Bob Lee	163	AUH	976	17/06/2025	17/06/2025			D/O	EYES, Bright					

1 - 2 of 2 items

New Column on Revenue Report

A new column has been added to the *Revenue Report – Raw Data* Excel file. Located in column **BB**, the new field is titled **InvGross ex OS 6**. This column represents the total revenue excluding the value of prostheses.

BB
InvGross ex OS 6
