

FYDO Clinic Update - 13/06/2024

Patient Stats Report

If a user tries to run the **Patient Stats Report** for any data that falls outside the restrictions assigned to them, in **Settings > User**, they will now be shown a pop up of the categories they **do** have access to.

API Key

FYDO now has the ability to provide multiple API Keys, eliminating the need for third parties to share keys. Each API Key now includes a user field where facilities can label the user of each key. This enhancement improves control over disabling third party access and quickly identifies those that possess a key.
