

# [FYDO Clinic Update - 14/08/2025](#)

## Merge Practices Feature

Facilities now have the ability to merge **Practices**. This enhancement streamlines workflow and improves data management by providing a simple way to consolidate multiple practices and maintain a cleaner, more organised database. You will find this merge feature in **Settings > Practices > Select Practice**.

The screenshot displays the '10026 - HOLLYWOOD CLINIC' details page. A red arrow points to the 'Merge' button in the top right corner. Below the details, a table lists referring doctors, showing 'No referring doctors found'. A 'Merge Practice' modal is open, featuring a search bar with 'Back Streets Back' entered. Red text explains: 'Select a practice where Hollywood Clinic will be merged into. This means this practice will no longer exist, all referring doctors linked to this practice will be moved into the selected practice.' At the bottom of the modal are 'Cancel' and 'Merge Practice' buttons.

ID	Surname	First Name	Provider Number	Mobile	Speciality	Status
No referring doctors found						

Permissions for this feature can also be managed within **User Groups** under **Settings General**. Users with **Read and Write (RW)** access will have the ability to merge practices.
