

FYDO Clinic Update 19/05/2023

New Batch Status Added to Claiming Medical

There has been a new batch status added to **Claiming Medical** called **Closed with Rejection**. Prior, when moving a rejected invoice/item out of a batch, it would move out to a **Closed** batch status if a Health Fund claim or into a open batch if Medicare/DVA, you would also lose the exception code/reason. Now, when moving out a rejected invoice/item, it will go into its own batch with the status **Closed with Rejection**, you will also no longer lose the exception code/reason when moving the rejection out. This new batch status will benefit all clinics, in particular those with multiple users, as this will help users identify invoices/items that have been moved out of its original batch due to a rejection.

Please note: When moving out Medicare/DVA rejections, this will automatically close the current open batch (If any) for that provider, this is so the rejected invoice/item is able to move into its own batch and not into the current open batch.
