

FYDO Clinic Update 21/05/2026

Items Report Enhancement

We have enhanced the underlying reporting framework for the **Items Report**.

As part of this update, the report now features a refreshed design and improved performance, with no changes to existing data or reporting capabilities.

A new real-time search field has also been added. Users can type alphanumeric characters into the search field to quickly narrow down results on-screen.

The screenshot displays the 'Items (Clinic)' report interface. It features a 'Filters' section on the left with dropdown menus for Location, Department, Doctor, Referring Doctor, and Resource. A search field for 'Search for a Referring Doctor' is also present. The main area contains a search bar (highlighted with a red box and a red callout box stating 'Interactively search within the report'), filter buttons for 'Primary: Billing Type' and 'Secondary: No Group', and a date range 'From 02/03/2026 to 30/05/2026'. Below this is a table with columns: Item, Description, Qty, Inv (Gross), and Avg. The table shows data for BUPA Australia - BUP and Medicare, with a total for BUP. At the bottom, there are navigation controls (1 to 29 of 29, Page 1 of 1), a date/time stamp (Date: 21/05/2026 1:54 PM), and buttons for Print and Export.
