

# **FYDO Clinic Update - 23/01/24**

## **New IP Restriction Function**

Clinics can now use the new **Global Restrict IP** function in **Settings > Security** to simultaneously restrict all users to a specific IP address. While the ability to restrict individual users is still available in **Settings > Users**, this new feature streamlines the process for applying IP Restrictions across the board.

Only users with the required access levels will be able to make amendments to these settings.

## **Invoice Export Report Additions**

The Invoice Export Report can now be run for **All Hospital Locations** and **All Clinic Locations** AT ONCE! This new feature allows multi-location facilities to easily collate invoice data across all their sites simultaneously.

## **Bug Fixes:**

- The issue some users were experiencing where an Entitlement Card was showing as expired in error has been resolved.
