[FYDO Clinic Update – 23/01/24](#)

New IP Restriction Function

Clinics can now use the new **Global Restrict IP** function in **Settings > Security** to simultaneously restrict all users to a specific IP address. While the ability to restrict individual users is still available in **Settings > Users**, this new feature streamlines the process for applying IP Restrictions across the board.
Only users with the required access levels will be able to make amendments to these settings.

Invoice Export Report Additions

The Invoice Export Report can now be run for **All Hospital Locations** and **All Clinic Locations** AT ONCE! This new feature allows multi-location facilities to easily collate invoice data across all their sites simultaneously.

Bug Fixes:

- The issue some users were experiencing where an Entitlement Card was showing as expired in error has been resolved.
