

# [FYDO Clinic Update - 23/04/2026](#)

## Claims Import - Automated Batch Submission

For clients using Claims Import, Medicare and DVA batches will now be automatically submitted after importing, removing the need to manually send batches via Claiming Medical.

### What this means for you:

- No more manually sending Medicare and DVA batches
- Reduced risk of missed or delayed submissions
- This update will run seamlessly in the background, with no action required from your side.

### Please note:

We still recommend reviewing the Claiming Medical screen after importing to ensure all batches have been successfully submitted and no issues have occurred.

## New Field in Doctor Setup

In preparation for the 1st of July 2026 Assignment of Benefit changes to Simplified Billing, we have introduced a new field within the Doctor Setup called **Assignment Type**.

This field can be defaulted to:

- **R - Requested**
- **I - Implied**

The screenshot shows a portion of a web form. At the top, there is a dropdown arrow. Below it is a text input field labeled 'Expiry Date'. Underneath that is a dropdown menu labeled 'Assignment Type' with a yellow highlight. To the right of the dropdown is a blue question mark icon. A red arrow points to the dropdown arrow. Below the dropdown, a red box highlights a list of options: 'Requested' with 'R' to its right, and 'Implied' with 'I' to its right. To the left of the dropdown, there is a checkbox labeled 'DVA GST Exempt' and the text 'erapist'.

This field will be blank by default and can be configured now in preparation for the 1st of July 2026.

For more information on these changes, please visit [Improving the assignment of benefit process | Australian Government Department of Health, Disability and Ageing](#)
