## **New Appointment Screen Right Click Feature**

Users are now able to use a single left/normal click, on the **Appointment Time**, to display the menu.

The menu is still available by Right Clicking anywhere on the appointment line; however, this new feature has been introduced to make FYDO more compatible with tablets & iPads.

## **New Custom View Options for Lists**

Users are now able to create their own **Custom Views** for the **Appointments Screen**, when displayed in **List** mode.

These views can be created to include all the same fields that are used in the other view options. For instructions on creating your own **Custom Views**, follow the instructions on our Wiki page at [Creating Custom Views in the Appointments Screen](#)

## **Bug Fix**

The issue that some users were experiencing when trying to “Reset Mobile (2FA)” has now been rectified.
