On the "Patient Details" screen under "Referring Details", the user can now view the referring doctor's provider number next to their name.

Bug Fixes

Users were experiencing an issue with the "Print Batch Details" function only printing the first items date of service and item note *(if any)* and repeating the same details on all items within a invoice. This bug has been fixed and users are able to "Print Batch Details" with the correct dates of service and item notes *(if any)*.
