

# FYDO Hospital Update - 03/07/2025

## New WA Health Requirement

In accordance with updated requirements from **WA Health**, a new mandatory field has been introduced to ensure the **Employment Status** is completed on admission.

If your facility is in Western Australian and has selected **On Admission, Make Patient Fields Mandatory** in the **System Configuration**, a pop-up notification will appear if any of the mandatory fields are left blank on admission, ensuring compliance with the new reporting standards.

## Patient List Enhancement

We're pleased to introduce a new enhancement to the **Patient List**. A collapsible arrow is now available on the right-hand side of each patient entry. When selected, this will display the patient's **five most recent admissions**, providing quick access to their recent admission history without navigating away from the list.

## New Coding Feature

We are pleased to announce the implementation of a new feature in FYDO to enhance your coding workflow which is the ability to add and select **Coding Hold Reasons**.

To set this up, navigate to **Settings > Coding Hold Reasons**. From there, click the yellow **"Add Coding Hold Reason"** button to create and manage your list of hold reasons.

SETTINGS > CODING HOLD REASONS	<input type="checkbox"/> Show Inactive	Search	Add Coding Hold Reason	Export To
Code	Name	Status	Action	
146	Awaiting Items	Active		
100	Records/Page			Records 1-1 of 1 (Page 1 of 1)

Once configured, these options will be available for selection directly within the coding screen, allowing for clearer documentation and improved workflow tracking.

## Health Fund Fee Setup Enhancement

FYDO has enhanced the **Health Fund Fee Setup** for the **Same Day Accommodation** setup.

The **More Options** dropdown will now reveal a new feature to **Copy Rates from Minimum Benefits**. When this option is selected, a pop-up window will appear, guiding you through a series of prompts to ensure the accurate transfer of relevant details. This improvement is designed to streamline the setup process and enhance data accuracy.

## Upgrade to Invoice Export Report

An upgrade has made to the **Invoice Export** report located under **Reports > Invoice Export**. Upon exporting the report to Excel, you will now notice the addition of two new columns:

- **Column L:** Admission Date
- **Column M:** Discharge Date

These additions provide greater visibility into patient timelines and support more comprehensive reporting.
