

[FYDO Hospital Update - 04/01/2023](#)

FYDO Server Security Update

The FYDO Server Security Update was successful & concluded quicker than expected. Thank you for your cooperation as we implemented these changes to improve our system, further enhancing the security of your data.

Data Extracts Additional Feature

When **Preparing Data Extracts** there is now the option to **Right Click** on each line to navigate to the required page in order to amend the information. E.g., Admission Screen, Discharge Screen, Theatre Screen etc. The **Patient Name** has also been changed to a hyperlink, to enable to user to navigate to the **Patient Screen** as well.

Session Information Hover Option

The option to see the session information, when hovering over the theatre name, has been added to the **All View** in the appointments screen.

Simply hover over the theatre name, at the top of each column, to display the session information for that theatre.

Cancelled Episodes Report

The **Other Notes** field, from the edit appointment screen, has been added to the Cancelled Episodes Report.

Shue's Private Hospital
Cancelled Episode Report
Between 01/01/2023 and 03/01/2023

MRN	Patient Name	Admission	Status	PatCat	Cancelled Reason	Other Notes
102	Dean, James	02/01/2023	Residing	020	Cancelled Within 24 Hours	Patient has gone

Total Episode 1

CancelledEpisode-Shue'sPrivateHospital Page 1 of 1 Date: 03/01/2023 10:28 PM

Appointment Custom Views

For customised appointment screen views to hold, when moving in and out of screens, FYDO now has the ability to set a **favourite custom view for each different view type!**

For example:

- ♥ A favourite **All** View
- ♥ A favourite **Individual** View
- ♥ A favourite **Weekly** View

This allows the user to change between custom view types by simply selecting the type in the top right corner. This action will then automatically load the users favourite view for that type.

To implement this change, FYDO will now only show you the available views for the option that you have selected.

E.g., As below, the **ALL** option is selected in the top right, therefore when hovering over the eye icon  , on the left, only the ALL Custom views will be shown.

View	Name	Req	Excluded
00000		0.000	0.000
01000		0.000	0.000
02000		0.000	0.000

97000		0.000	0.000
98000		0.000	0.000
99000		0.000	0.000
100000		0.000	0.000

To set a favourite firstly go into the 'View Type', in the top right corner, and hover over the eye icon  to see the custom views that are specific to that Type. Then click on the heart ♥ next to the desired favourite view.

Appointments Screen Hover for Status Description

Users are now able to hover over the **Status (S)**, **Coding (C)** & **Billing (B)** column titles to show the full description of what the letters that show on the screen represent.

SA Health - ISAAC Data Extraction Amendments

Morphology codes will no longer be included in the ISAAC Data extractions from FYDO, as per their requirements. Any data extractions done prior to this week, that need to be amended, can be rectified by simply re-extracting the data.

Mental Health Same Day BUPA Patients

To increase the acceptance of BUPA same day mental health claims, we have implemented the mapping of service codes for accommodation type items, specified on BUPA agreements.

Bug Fixes

The **EMR** option has been returned to the appointments screen right-click menu.
