

# **FYDO Hospital Update - 04/04/2024**

## **New 'Copy Next of Kin' Feature**

There is now an additional option added to the **Emergency Contact**, **Contributor** and **Pick Up Person** tabs, which enables users to copy the **Next of Kin** details. While the option to **Copy Patient Details** remains available, this new feature will reduce repetitive data entry, particularly when the Next of Kin, Emergency Contact, Contributor and Pick Up Person are all the same.

## **Episode Screen Heading Amendments**

The important information displayed at the top of each Episodes Screen has been updated to now include the **File Number**. This enhancement will be particularly advantageous for facilities that utilise both the File Number and the MRN.

## **New Rehab Screen**

Rehabilitation facilities are now able to capture data for the Australasian Rehabilitation Outcomes Centre (AROC) and the Australian National Subacute and Non-Acute Patient (AN-SNAP) datasets.
