Facilities can now use the new **Global Restrict IP** function in **Settings > Security** to simultaneously restrict all users to a specific IP address. While the ability to restrict individual users is still available in **Settings > Users**, this new feature streamlines the process for applying IP Restrictions across the board.

Only users with the required access levels will be able to make amendments to these settings.

Third Party Statements

FYDO now enables users to generate statements for Third-Party companies by navigating to **Settings > Third Parties** and right-clicking on the required line.
