

# FYDO Hospital Update - 06/02/2025

## Theatre Screen Makeover

The **Theatre Screen** has been refreshed to align with the new, crisp FYDO look. All existing fields and information remain available, but with an improved layout and workflow. The most notable change is the relocation of the **Theatre Complete** tick box to a more appropriate position.

The screenshot displays the FYDO Theatre Screen interface. At the top, there's a header bar with patient information: MRN 147 - WHITE, Snow, DOB 07/07/1977 (47), Sex Not Stated/Inadequately described, FileNo, Fund CBH, Location Shaes Private Hospital (QLD), Admission No. 827, EpiNo. 24, Admission Date/Time 30/01/2025 06:00, Discharge Date/Time 04/02/2025 16:00, Dr/Surgeon CONNORS, Curtis, and Anaesthetist. The main area is divided into sections: Theatre Visits, Theatre Information, Items, and Other Services. The Theatre Visits section includes fields for Visit to Theatre, ASA Score, Planned Time in Theatre, Pre-Op, Anaesthetic Start, Time In Theatre, Surgical Time Out, Procedure Start, Procedure Finished, Time Out Theatre, Anaesthetic Type, Complications, Scrub Nurse, Scout Nurse, Nurse/Assistant, Other Nurse/Assistant, Surgical Assistant, and Other Staff. The Theatre Information section includes Recovery 1, Recovery 2, Recovery 3, Stage 1 Recovery Nurse, Stage 2 Recovery Nurse, Stage 3 Recovery Nurse, Ready for Ward, Ready for Pickup, Invoice On Hold, Theatre On Hold, Pathology Nil, Pathology, Side, and # of Specimens. The Items section is a table with columns for Code, Description, Band, and Action. The Other Services section is a table with columns for Code, Description, Qty, Date of Srv, Send Invoice To, Serial #, Data, and Action. A red arrow points to the 'Theatre Complete' checkbox, which is now located in the top right corner of the Theatre Information section.

## Theatre Screen Pathology

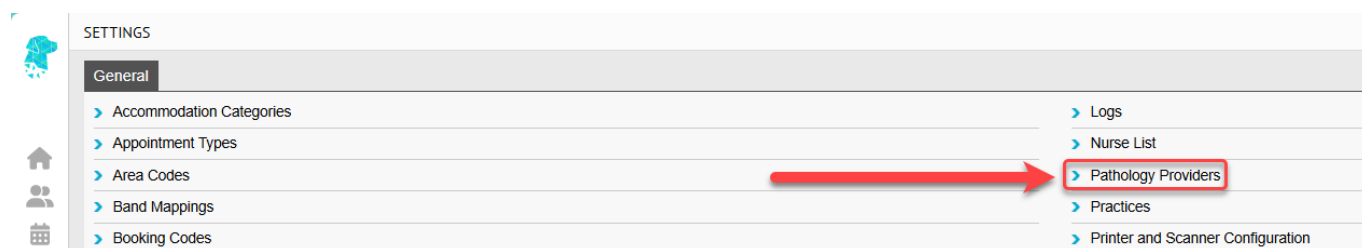

The **Pathology** field in the **Theatre Screen** has been updated to allow for more accurate documentation of pathology collection, including the **Pathology Company** and **Number of Specimens**.

- For procedures without pathology, simply check the **Pathology Nil** tick box.
- If pathology was collected, users can select the pathology company from the **Pathology** drop down and document the **# of Specimens** collected.

The screenshot displays the FYDO Theatre Screen interface, focusing on the Pathology field. A red arrow points to the 'Pathology Nil' checkbox and the 'Pathology' dropdown menu. The 'Pathology Nil' checkbox is located in the Theatre Information section, and the 'Pathology' dropdown menu is located in the Theatre Information section. The 'Pathology' dropdown menu is highlighted in yellow. The 'Pathology Nil' checkbox is also highlighted in yellow. The 'Pathology' dropdown menu is located in the Theatre Information section, and the 'Pathology Nil' checkbox is located in the Theatre Information section. The 'Pathology' dropdown menu is highlighted in yellow. The 'Pathology Nil' checkbox is also highlighted in yellow.

To streamline data entry in the **Pathology** field, pathology companies can be pre-added via **Settings**

> **Pathology Providers**, reducing the need for manual entry. However, the field also supports free text if required.

## Tokens for Pathology fields

- <<Specimen>>
  - If **Pathology Nil** is ticked, this token will display “**NIL**”
  - If a number is entered in **# of Specimens**, this token will reflect that number

- <<Path>>
  - This token will display the text entered in the **Pathology** field

### Theatre 3 - Wednesday 22/01/2025 at Doctor: EYES, Bright

| Adm Time   | Patient Name   | Doctor       | PROCEDURE  |
|------------|--|--------------|--|
| 1<br>10:00 | FLINSTONE, Frederick (M)<br>He/Him/His<br>DOB: 08/11/1959 (65)<br>MRN: 228 | EYES, Bright | No Pathology<br>Specimens: NIL<br>Pathology:               |
| 2<br>10:15 | KNIGHT, Kathy (F)<br>DOB: 12/12/1959 (65)<br>MRN: 122                      | HOUSE, Greg  | Has Pathology<br>Specimens: 5<br>Pathology: Pathology R US |

Pathology can be set as a mandatory field if you want to ensure pathology information is entered when the **Theatre Complete** checkbox is selected. To enable this, go to **Settings > System Configuration** and select **Make Pathology Mandatory**. This action can be performed by anyone in your facility with the appropriate access levels.

Theatre

Hide Positioned Time

Make Pre-Op time mandatory

Make Anaesthetic Start time mandatory
