FYDO Hospital Update – 06/09/2024

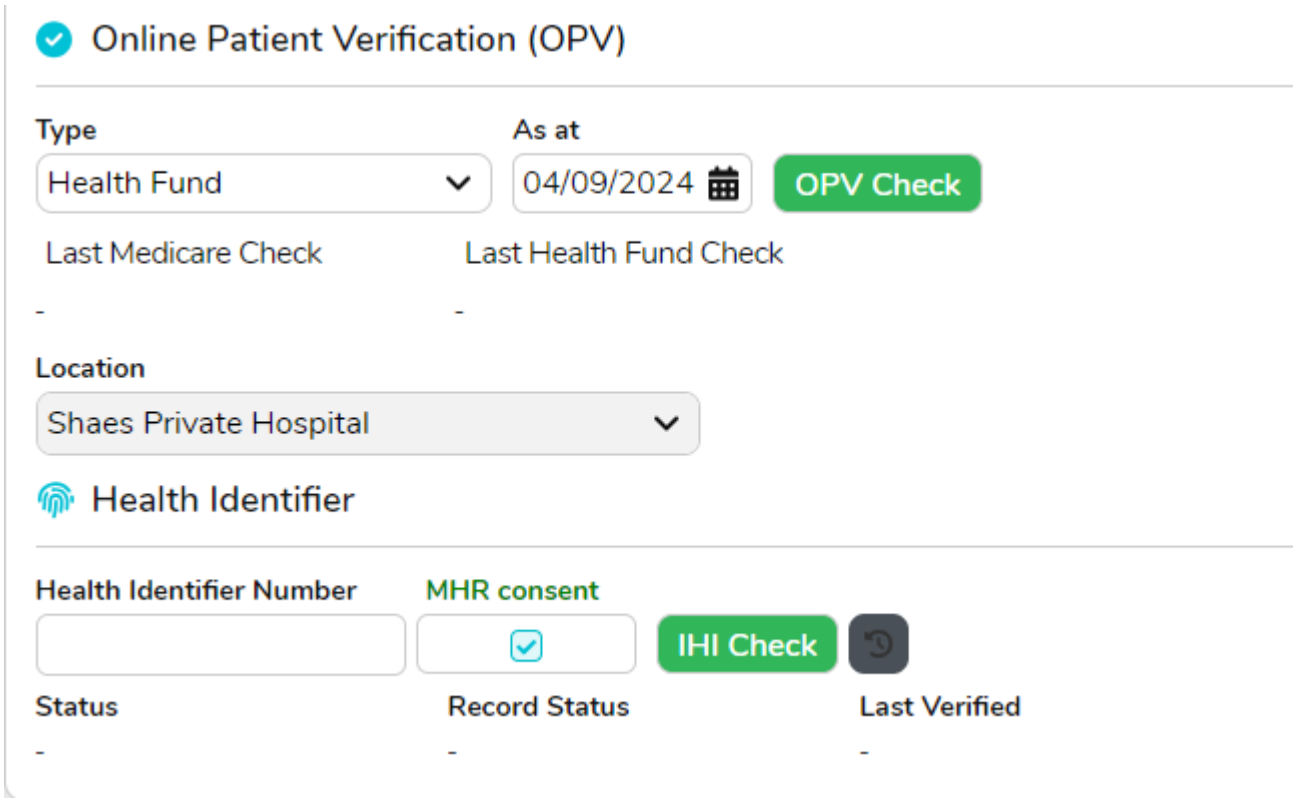

Session Expiry Alert

FYDO will now provide users an alert **2 minutes** prior to their **sessions expiring**, based on the hospital's individual System Configuration. This alert gives users the option to select **Keep Alive** to extend their session. If **Keep Alive** is not selected within the final 2 minutes, FYDO will automatically log out the user as per current protocol.

OPV & IHI Fields

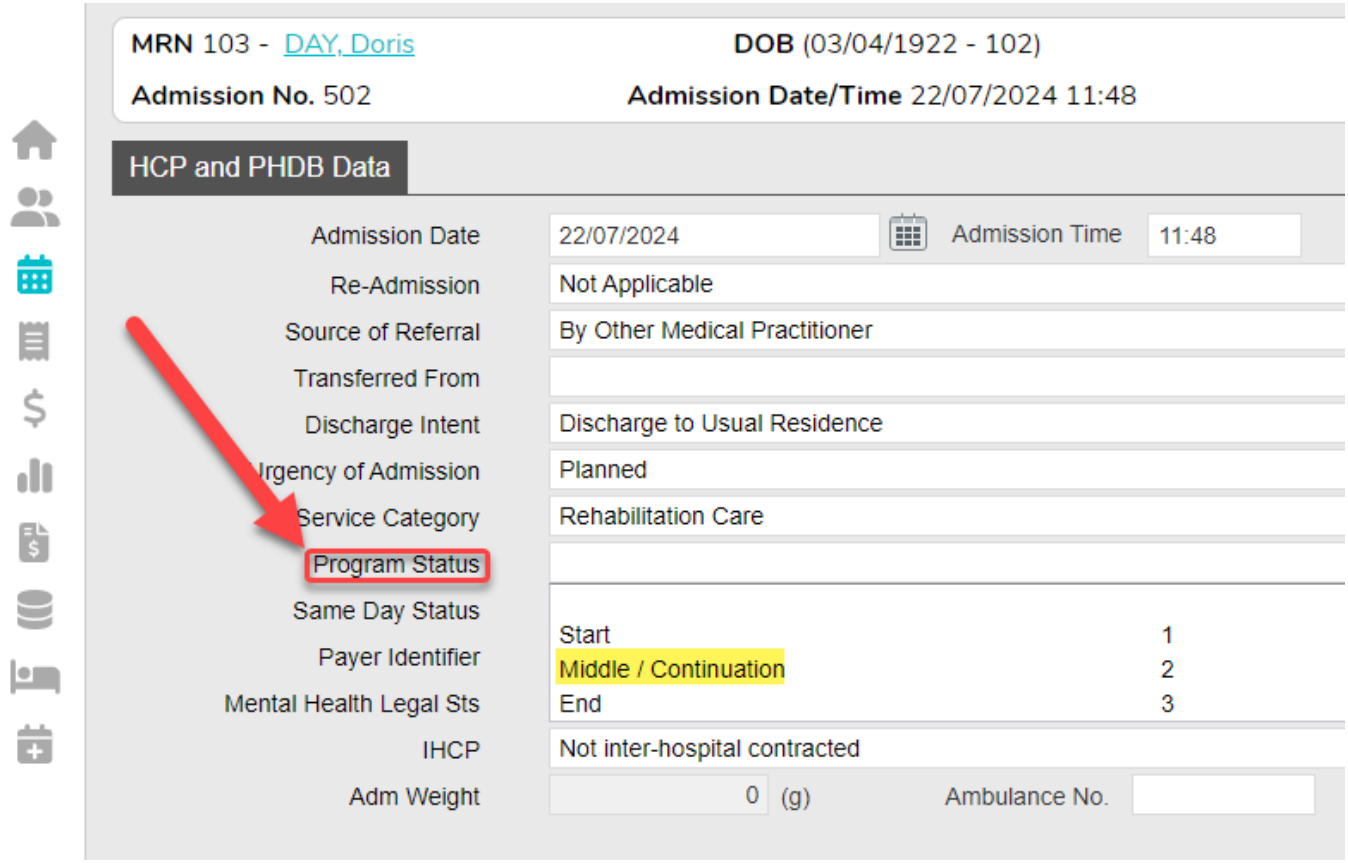

Following wonderful feedback from our users, we have decided to swap the order of the **Individual Healthcare Identifier (IHI)** and the **Online Patient Verification (OPV)** fields for ease of use and functionality of the Patient Screen.

Admission Screen

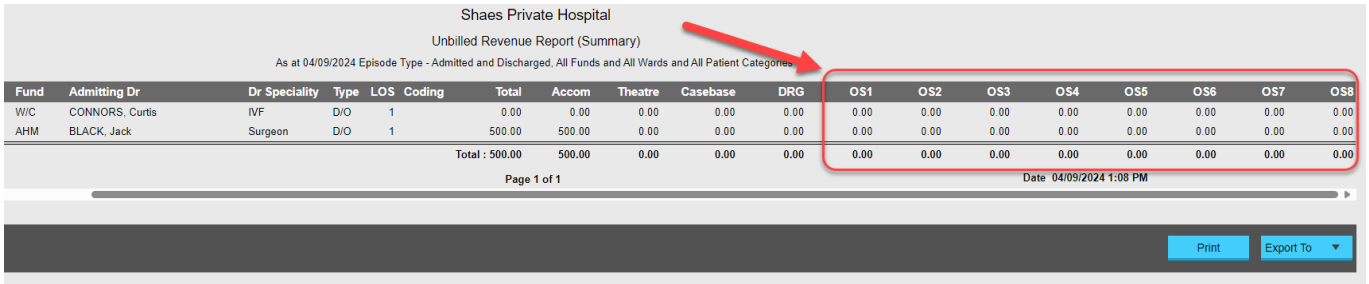

The **Rehab Status** field, on the Admission Screen, has been renamed **Program Status** to better

accommodate our diverse user base. Additionally, the option **Middle** has also been amended to **Middle / Continuation.**

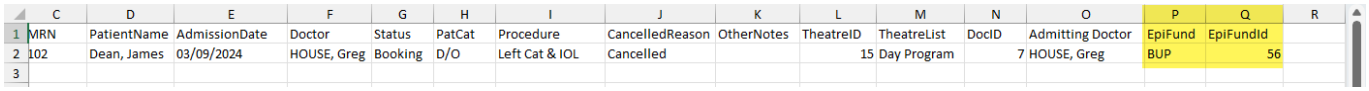

Unbilled Revenue Report

The **Unbilled Revenue Report > Summary** has been enhanced to show the predicted revenue for each **Other Services (OS) Category**.

Cancelled Episodes Report

Patient episodic **Health Fund Details** have now been added to the **Cancelled Episodes > Excel - Raw Data Export** Report.

Doctors Insurance Field

The **Insurance** field, on the **Doctors** details page, now includes pre-populated options for the most popular Insurance Companies. This field also allows free text entry, so additional companies can by

typed in if required.

Webhooks

All episode webhooks now include current ward and bed details.

Bug Fix

The issue that some users were experiencing with the FYDO **Drag & Drop** feature have now been rectified.
