

FYDO Hospital Update - 06/09/2024

Session Expiry Alert

FYDO will now provide users an alert **2 minutes** prior to their **sessions expiring**, based on the hospital's individual System Configuration. This alert gives users the option to select **Keep Alive** to extend their session. If **Keep Alive** is not selected within the final 2 minutes, FYDO will automatically log out the user as per current protocol.

OPV & IHI Fields

Following wonderful feedback from our users, we have decided to swap the order of the **Individual Healthcare Identifier (IHI)** and the **Online Patient Verification (OPV)** fields for ease of use and functionality of the Patient Screen.

✔ Online Patient Verification (OPV)
