

FYDO Hospital Update - 08/08/2024

Chart Tracking Capabilities

Phase 2 of this feature has now been implemented, allowing facilities to add their own personalised "Chart Locations". To make tracking Medical Records easier, this information can be added under **Settings > Chart Locations**.

A new **User Group Access Level** has also been added to allow or restrict the ability to add new Chart Locations.

Handover / Bed Tracker Report

Hospitals are now able to generate a Handover List from the Bed Tracking to assist in hospital workflow. Whether you call it a Clinical Handover Sheet, Critical Handover Sheet, Bed Tracking Report, or something completely different, this template is accessible from the **Bed Tracking** screen by selecting **Print Handover**. Plus, it can be designed and customised to suit your hospital's requirements, giving you the information that you need!

Unbilled Revenue API

Unbilled Revenue data can now be produced using the new FYDO API, as follows:
<https://fydo.cloud/Webhooksapi/Api/Report/GetUnbilledRevenueData>

Bug Fixes

- Doctors Email Addresses can now be viewed again
- Doctors Files can now be added again
- The Expiry Date for Entitlement Cards is no longer a mandatory field
