

# [FYDO Hospital Update - 09/01/2026](#)

## Theatre Roster Setup Improvements

FYDO has introduced four configurable blocks within the theatre roster setup. For example, on every second Wednesday, a theatre may operate from 7:00 am to 11:00 pm, while on standard days it operates from 7:00 am to 4:00 pm. This enhancement provides increased flexibility in defining theatre operating hours and allows theatres to be closed on specific days of the month.

The screenshot shows a configuration interface for a theatre roster. At the top, there are four tabs labeled 'Block 1', 'Block 2', 'Block 3', and 'Block 4'. 'Block 2' is currently selected. Below the tabs, there are three input fields: 'Start of Current Roster' with a date picker set to '10/11/2024', 'Blocks' with a dropdown menu set to '2 Block Cycle', and 'Block Length' with a text input set to '1' and the unit 'Week(s)'. Each input field has a blue question mark icon to its right.

FYDO now includes separate **Current** and **Past Roster** tabs. For example, Theatre 4 may have operated Monday to Friday last year, but now operates only Monday to Thursday. Users can define the start date of the current roster, ensuring accurate tracking of both historical and current scheduling arrangements.

The screenshot shows the 'Current Roster' tab selected in the configuration interface. The tabs at the top are 'Configuration', 'Current Roster (from 10/11/2024)', and 'Past Roster (from 10/11/2024)'. Below the tabs, there are four tabs labeled 'Block 1', 'Block 2', 'Block 3', and 'Block 4'. 'Block 2' is currently selected. Below the tabs, there is one input field: 'Start of Current Roster' with a date picker set to '10/11/2024'. The input field has a blue question mark icon to its right.

## Emailing Invoices via FYDO

When sending invoices from the **Episodes Screen**, utilising the **Invoice Options > Invoice Copy** feature, the email will now be delivered using the users own email address. This feature will improve functionality and make it easier for facilities to view sent emails. Setup information and instructions on how to utilise this feature are available via the links below:

- [Setting up to Email from FYDO](#)
- [Emailing an Invoice from FYDO](#)

## Appointment Screen Improvement

When hovering over a theatre to view the list of doctors scheduled for that theatre on the day, any cancelled list will now be clearly indicated with a strikethrough in the doctor list. This visual enhancement improves visibility and helps users quickly identify cancellations.

## User Group Settings

FYDO has expanded the options available under the Appointment heading. Previously, users were limited to a single option that allowed the creation and deletion of Custom Views only. This has now been enhanced to include the ability to create, edit, and delete all views. These additional options provide greater flexibility in managing views, allowing staff to create their own customised views, while also enabling administrators to control permissions and determine which staff members are authorised to modify all views which will affect all users.

### Appointment

All Views - Create	<input checked="" type="checkbox"/> ON <input type="checkbox"/> OFF	Edit (Hospital)	<input checked="" type="checkbox"/> ON <input type="checkbox"/> OFF
All Views - Edit	<input checked="" type="checkbox"/> ON <input type="checkbox"/> OFF	Edit Views (Hospital)	<input checked="" type="checkbox"/> ON <input type="checkbox"/> OFF
All Views - Delete	<input checked="" type="checkbox"/> ON <input type="checkbox"/> OFF	Make (Hospital)	<input checked="" type="checkbox"/> ON <input type="checkbox"/> OFF
Create Views (Hospital)	<input checked="" type="checkbox"/> ON <input type="checkbox"/> OFF	View	<input checked="" type="checkbox"/> ON <input type="checkbox"/> OFF
Delete Views (Hospital)	<input checked="" type="checkbox"/> ON <input type="checkbox"/> OFF	Edit (Clinic)	<input checked="" type="checkbox"/> ON <input type="checkbox"/> OFF <span style="color: blue; font-weight: bold;">i</span>
Create Views (Clinic)	<input checked="" type="checkbox"/> ON <input type="checkbox"/> OFF	Edit Views (Clinic)	<input checked="" type="checkbox"/> ON <input type="checkbox"/> OFF
Delete Views (Clinic)	<input checked="" type="checkbox"/> ON <input type="checkbox"/> OFF	Make (Clinic)	<input checked="" type="checkbox"/> ON <input type="checkbox"/> OFF

## New Hot Keys

Hot keys have now been created for use in the Appointments Screen to print the **Hospital Claim (HC21) Form**, as per below. Please note that depending on your keyboard configuration, some users may need to utilise additional keys for their "F" features to function. For example, they may need to press **fn + F6** to print the HC21 Left.

HC21 Left F6

HC21 Right F7

HC21 Back F8

## Theatre Roster Improvement

Previously, the Theatre Roster allowed users to bulk move an entire theatre list to a new date; however, this functionality was limited to only future dates, as moves to or from the current day were not supported. This capability has now been enhanced to allow theatre lists to be bulk moved

to and from the current day, providing greater flexibility in schedule management.

## **Invoice Date Changes**

When an invoice is reversed, the Date of Service was previously set to match the account period date. This behaviour has now been updated so that the Date of Service on the reversal will align with the Date of Service of the item being reversed. This change does not impact any revenue calculations and will only affect the Invoice Excel report.
