

FYDO Hospital Update - 12/09/2024

Combined Invoice & HC21

Users can now generate a **single PDF** document that includes the **Invoice, HC21 Right Form** and any other selected **document**, such as the **Signed HC21 Left Form**.

By selecting **Combine HC21 & Inv** from the **Invoice Options** dropdown, hospitals can easily meet the requirements of certain health funds, which mandate that manually submitted claims be in a single PDF file.

The pop-up screen will appear, allowing users to select imported or scanned documents directly from the patient's Documents Screen in FYDO for inclusion in the PDF. This simplifies the process of sending items like **Type C Certificates**.

Pronouns Field

FYDO now includes a new field on the **Patient Screen** for recording **Pronouns**. This field offers 3 main options in the dropdown menu, while also allowing users to free type and add individual Pronouns.

This field also has a token, that allows the information to be populated on Lists, Labels, Quick Forms etc

<<patPronoun>>

Chart Tracker

Further improvements have been made to the **Chart Tracker** feature in FYDO, including a new function allows users to easily **Return a Chart** to a default location.

This feature quickly updates the charts' location based on the **Default Location** set in **Settings > Chart Locations**.

User Edit Profile

In line with our evolving sleek new look, the **User Edit Profile** page has also received a makeover.

Calendar Year

Even small improvements matter! We've reordering the year dropdown to help users more efficiently select the correct year.
