Theatre Screen - Additional Features

Specific times in the **Theatre Screen** can now be made **mandatory**! New settings have been added to ensure the required data is ALWAYS entered once the **Theatre Complete** tick box is marked. These settings can be controlled in **System Configuration** and amended by anyone within the facility with the necessary access level.

These settings allow facilities to **Hide Positioned Time** if it is not a required field for their specialties and make any combination of times mandatory. For instance, since **Time in Theatre** and **Time Out of Theatre** are required for billing, facilities can select these options to ensure these times are always entered.

The trigger for these times being required is the marking of the **Theatre Complete** tick box. Users will not be able to save the information on the Theatre Screen if any of the required fields are missing.

The screenshot displays the 'Theatre' configuration section at the top, which includes a grid of checkboxes for various time-related settings. Below this is the 'Theatre Screen' form for a patient named MRN 153 - WHITE, Snow. The form includes fields for patient information, admission details, and a list of time entries. A red box highlights the 'Theatre Complete' checkbox, which is checked. A green callout box points to this checkbox with the text: 'Once the Theatre Complete tick box is marked, all "mandatory" times will need to be completed in order to Save the Theatre Screen.'

Theatre Screen - Checkers

A number of checkers have been implemented to help ensure times are entered in the correct sequence on the **Theatre Screen**. These alerts will pop up immediately when an incorrect time is entered. For instance, if a **Pre-Op Time** is entered that is EARLIER THAN the **Admission Time**, FYDO will alert the users with an **Invalid** pop-up.

Manually Linking Preadmit Forms

When manually linking a Preadmit form, users must now ensure the patient's **Date of Birth** on the form matches the Date of Birth in FYDO. This is in addition to the existing checks for the First Name and Surname, which helps prevent paperwork from being accidentally allocated to the incorrect patient.
