

# [FYDO Hospital Update - 18/01/2024](#)

## Claiming Hospital - Paperbase Claims Enhancement

We've added a new feature to enhance efficiency in our **Claiming Hospital > Not Yet Sent** tab. Once the claims have been manually sent to the health funds, users will now be able to mark the complete Paperbase Claims as sent **IN BULK!**

The easiest way to do this is to navigate to the **Claiming Hospital > Not Yet Sent** tab and:

1. In the **Type** field, choose **Paperbase**
2. In the **Status** field, select **Ready**
3. Choose claims individually, using the left tick box on each individual line, or select all by utilising the **Select All** tick box at the top of the column
4. In the **Select** dropdown, choose **Mark as Sent**

This will mark the Paperbase Claims as sent in the same manner as before, and the corresponding audit trail will be displayed in the patient's episode audit notes.

## Theatre Rosters Report Enhancements

We've added a new **Report Type** to the **Theatre Rosters Report** called **Unconfirmed Rosters**. This allows facilities to easily identify rosters that haven't yet had the **Session Confirmed** tick box completed in the specific Theatre Roster.

We have also added additional fields to enhance the usability of the **Excel - Raw Data Export** for the **Theatre Roster** Report including:

- Booked Utilisation Percentage
- Actual Utilisation Percentage
- Delayed Start Reason and ID
- Delayed Finish Reason and ID
- Cancelled Reason and ID
- Confirmed Indicator

## Length of Stay Report Additions

There has been an additional column added to the **Length of Stay Excel - Raw Data** Export to

display the **Length in Minutes** for overnight patients.

The original Length column is still present and will continue to reflect the number of nights; however, the new additional column will transcribe the information into minutes to help facilities identify the exact length of stay for the admission.

## **Invoice Export Report Additions**

The Invoice Export Report can now be run for **All Hospital Locations** and **All Clinic Locations** AT ONCE! This new feature allows multi-location facilities to easily collate invoice data across all their sites simultaneously.

## **Bug Fix**

The issue that some users experienced when trying to search for customised Other Services codes has been resolved.
