

# FYDO Hospital Update - 18/04/2024

## New Appointments Report

FYDO has introduced a new report that provides users with statistics for **all appointments**, irrespective of their admission or discharge status. This report includes all bookings, making it suitable for use of facility planning, even for future dates when patients have not yet been admitted. Additionally, the report offers various filter options, along with group by and order options, making it a valuable addition to the FYDO reports library.

The screenshot shows the 'Appointments Report' interface in FYDO. It features a sidebar with navigation icons and a main content area with filter options and a data table. The filters include Location, Doctor, Theatre, Appointment Type, Health Fund, Patient Category, Booking Code 1, Booking Code 2, Report Type, From/To dates, Canceled status, and Group/Order options. The data table shows appointments grouped by Doctor/Room for all locations, with columns for Id, Doctor/Room, Percentage, and Appointments. The table is titled 'Shaes Private Hospital Appointments-Hospital (Summary) between 01/04/2024 - 17/04/2024' and is grouped by Doctor / Room for All Locations. The table data is as follows:

| Id    | Doctor / Room   | Percentage | Appointments |
|-------|-----------------|------------|--------------|
| 9     | CONNORS, Curtis | 19.05%     | 4            |
| 7     | HOUSE, Greg     | 38.10%     | 8            |
| 1     | MURPHY, Shaun   | 42.86%     | 9            |
| Total |                 | 100.00%    | 21           |

The interface also includes a 'Print' button and an 'Export To' dropdown menu.

## WorkCover Claim Details - Copy Previous

FYDO now offers users the ability to copy previous **Claim Details** for WorkCover or Third-Party admissions. This feature is especially advantageous, and will greatly reduce data entry, for hospitals handling WorkCover patients who require multiple admissions throughout their treatment.

The screenshot shows the 'CLAIM DETAILS' interface in FYDO. It features a sidebar with navigation icons and a main content area with a 'Copy Previous Episode' button and a table of previous episodes. The table has columns for 'Worker's Comp & Third Party', 'Date of Injury', and 'Select Episode'. The table data is as follows:

| Worker's Comp & Third Party | Date of Injury | Select Episode |
|-----------------------------|----------------|----------------|
| 2                           | 11/04/2024     | MURPHY, Shaun  |
|                             | 09/04/2024     | HOUSE, Greg    |

The interface also includes a 'Bill To' section with fields for Biller ID, Type, Contact, Address, Suburb, State, and Postcode, and an 'Other' section with similar fields.

## Print List - Excel Raw Data Additions

Additional data types have been added to the **Print List > Export to Excel - Raw Data Report** to assist users in collating data. Some of the newly included fields are:

- Medicare Eligibility

- DVA Number and Colour
- Pension Number
- Country of Birth
- Check List Tick Box Information
- Next Of Kin, Emergency Contact, Contributor and Pick Up Person Details
- And more!

The screenshot shows a medical appointment management system. The interface is divided into several sections:

- Top Navigation:** Includes a search bar and filters for THEATRE 1, THEATRE 2, and THEATRE 3.
- Left Sidebar:** Contains navigation icons and filter options:
  - Locations:** All Locations
  - Departments:** All Departments
  - Doctors/Theatres:** All Doctors/Theatres
  - Filter:** All Appointments Inc Cancelled
  - Action:** Walk Patient In, Find Available Appointment (highlighted with a red circle and number 1)
- Main Table:** Displays appointment details with columns for Time, Name, and MRN. The table is filtered for THEATRE 2.
