

FYDO Hospital Update - 20/02/2025

Inpatient Procedure Schedule Improvements

New fields have been added to the **Inpatient > Procedure Schedule** to enhance the workflow for patients requiring multiple procedures during their stay. These updates allow facilities to list a **Planned Time in Theatre (TIT)** and specify the **Roster** for each procedure, ensuring the correct information is reflected on the theatre lists.

The screenshot shows the 'Inpatient' tab selected in the 'APPOINTMENTS > INPATIENT' section. Patient details include MRN 228 - FLINSTONE, Frederick, DOB 08/11/1959 (65), Sex Male, FileNo, Fund AUH, Location Shaes Private Hospital (QLD), Admission No. 846, EpiNo. 8, Admission Date/Time 19/02/2025, Discharge Date/Time -, Dr/Surgeon EYES, Bright, and Anaesthetist LENNON, John. The 'Procedure Schedule' table has columns: Date, Time, Theatre/List, Surgeon/Doctor, Roster, Planned TIT, Proc Notes, Booking Code 1, Booking Code 2, and Action. A red arrow points to the 'Roster' and 'Planned TIT' columns.

Date	Time	Theatre/List	Surgeon/Doctor	Roster	Planned TIT	Proc Notes	Booking Code 1	Booking Code 2	Action
20/02/2025	08:00 AM	Theatre 2	HAB, Rea	08:00	10:20 AM	Colonoscopy	COL - Colonoscopy	TEST - Testing	X
21/02/2025	02:00 PM	Theatre 1	NAME, My	08:00	03:30 PM	Gastroscopy	GAS - Gastroscopy	TEST - Testing	X
	--:--		EYES, Bright		--:--				X

Handover Report Improvements

The Bed Trackers Handover Report now has the capability to print the **Procedure** details from the patient's **Procedure Schedule**, not just the original booking.

The new token to print this information is <<ProcNotes2>>. If you require assistance with updating your Handover Report Template, please don't hesitate to reach out to our team.

This screenshot is identical to the one above, but with a red box highlighting the 'Proc Notes' column in the 'Procedure Schedule' table.

Print List Improvements

The **Print List** option for printing a **New Page** has been enhanced to allow facilities to print multiple days at once. With the addition of the **Day** segregation, lists for different days will now be separated, even if the same doctor is scheduled in the same theatre on different days.

Episode Stats Report Addition

The new **# of Specimens** field from the **Theatre Screen** has now been added to the **Episode Stats > Excel - Raw Data Export** Report.

Bug Fix

The issue with the **Run Pat Check** function not working in the **Claiming Hospital > Not Yet Sent Tab** has now been resolved.
