

[FYDO Hospital Update - 20/02/2025](#)

Inpatient Procedure Schedule Improvements

New fields have been added to the **Inpatient > Procedure Schedule** to enhance the workflow for patients requiring multiple procedures during their stay. These updates allow facilities to list a **Planned Time in Theatre (TIT)** and specify the **Roster** for each procedure, ensuring the correct information is reflected on the theatre lists.

Handover Report Improvements

The Bed Trackers Handover Report now has the capability to print the **Procedure** details from the patient's **Procedure Schedule**, not just the original booking.

The new token to print this information is **<<ProcNotes2>>**. If you require assistance with updating your Handover Report Template, please don't hesitate to reach out to our team.

Print List Improvements

The **Print List** option for printing a **New Page** has been enhanced to allow facilities to print multiple days at once. With the addition of the **Day** segregation, lists for different days will now be separated, even if the same doctor is scheduled in the same theatre on different days.

Episode Stats Report Addition

The new **# of Specimens** field from the **Theatre Screen** has now been added to the **Episode Stats > Excel - Raw Data Export** Report.

Bug Fix

The issue with the **Run Pat Check** function not working in the **Claiming Hospital > Not Yet Sent Tab** has now been resolved.
