

FYDO Hospital Update - 22/02/2024

New Theatre Roster Features

Facilities using the **Session Confirmed** tick box in the **Theatre Rosters** must now provide a **Reason for Delayed Start** and **Reason for Delayed Finish** if the Time In and/or Time Out of theatre are delayed by more than 15 minutes.

If the Time in Theatre for the first patient is more than 15 minutes AFTER the session's Start Time, a **Reason for Delayed Start** must be provided before clicking the Session Confirmed tick box. Similarly, if the Time Out of Theatre for the last patient is more than 15 minutes AFTER the session's End Time, a **Reason for Delayed Finish** is required before ticking Session Confirmed.

The screenshot shows the 'THEATRE MANAGEMENT > THEATRE BOOKING > BOOKING (THEATRE 1)' screen. The 'Booking' tab is active, showing session details for ID 157 at Shaes Private Hospital, Theatre 1, on 21/02/2024, from 08:00 to 17:00 (540 Mins). The 'Session Confirmed' checkbox is highlighted with a red arrow. Two callouts explain the requirements: a yellow one for delayed start and a red one for delayed finish. The 'Episodes' table below shows four appointments.

Time	MRN	Patient Name	Procedure	Visit to Theatre	Time In	Time Out	Age	Anaesthetic	Cancelled	Action

Theatre Roster - Make an Appointment Function

A convenient new feature has been added to the **Theatre Roster > Theatre Booking Screen**. With the introduction of the **Make an Appointment** button, users can seamlessly navigate to the corresponding roster in the Appointment Screen.

This screenshot is identical to the one above, but with a red arrow pointing from the 'Session Confirmed' checkbox area to the 'Make an Appointment' button, which is highlighted with a red circle. The button is located at the bottom right of the 'Episodes' section.

New Audit Logs

Audit logs have been added for the **Allergies, Alert, Notes, and Document Alert** fields on the patient screen.

These logs can be accessed by using the menu in the top right corner of the Patient Screen and selected **Audit Logs**. Alternatively, they can be found in **Settings > Logs** by searching the patient's MRN.
