Master Templates

FYDO now allows hospitals to “hide” the **Master Templates** so that they are not an option for users to select accidentally.

This setting can be amended by a user from your hospital that has access to **Settings > System Configuration** by ticking the **Hide Master Templates** checkbox. Once this is selected the master templates will not be displayed in any of the dropdowns where users are able to select from available template option, for example when creating an IFC or Invoice.

The screenshot shows the 'SYSTEM CONFIGURATION' settings page. The 'General' tab is selected. The settings list includes:

- Auto Logout Time: 180
- Auto File Numbering: No
- Appointment Display Time: Show 24 hour time
- Appointment Tabs: Surname, First name – One line
- Report Group Name: Shaes Private Hospital
- IFC Document Type: IFC-Insured
- Default Document Type: [empty]
- Holding Bay Document Type: [empty]
- Preadmit Document Type: Admission Form
- OEC Document Type: OEC
- OEC Type: Fund only
- Raise Ticket Email: [empty]
- Raise Ticket Location: [empty]
- Alert when making an appointment if money outstanding > than: 500.00
- Alert when money outstanding is X days outstanding: 40
- Hide Master Templates: ☐

Certificates in Claiming Hospital

FYDO now enables access to certificates from the **Claiming Hospital > Claims & Not Yet Sent** tabs. This feature will prove valuable in the event of rejections, allowing you to quickly verify whether a certificate has been applied to a specific episode. Simply right-click to view the available options, which will now include **Certificate**.
