

FYDO Hospital Update - 24/04/2025

Theatre Rosters Report

Additional options have been added to the **Theatre Rosters Report**, providing greater flexibility in how doctors roster utilisation information can be viewed.

A new **Speciality** option has been added to the **Report Type**, along with an additional field that allows users to **Group By** either **Surgeon** or **Theatre**.

The screenshot shows the 'Theatre Rosters' report interface. At the top, there's a breadcrumb 'REPORTS > THEATRE ROSTERS'. Below it, a 'Theatre Rosters' tab is active. The form includes several fields: 'From Date' (01/04/2025), 'To Date' (23/04/2025), 'Based On' (Time in Theatre to Time Out of Th), 'Report Type' (Speciality), 'Speciality' (All Specialities), and 'Group By' (No Group). Red arrows point to the 'Report Type' and 'Group By' dropdown menus. An 'Update' button is located at the bottom right.
