FYDO Hospital Update – 24/05/2024

SSO – Single Sign On

FYDO now gives users, and facilities, the option to utilise Single Sign On (SSO). Please click on the link below to view our wiki page for more information on this feature.

Single Sign On with FYDO

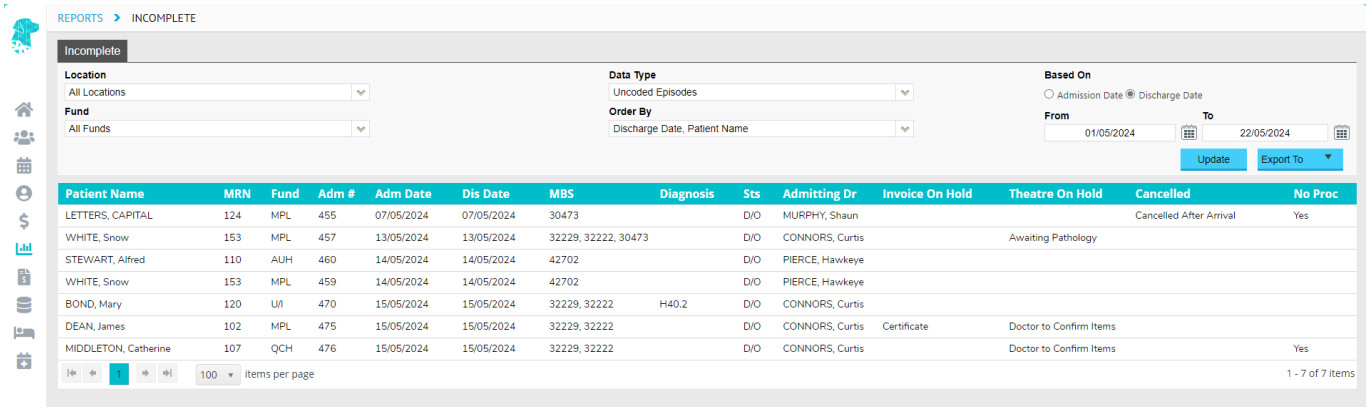

New Interactive Reports

We have added to our Interactive Reports collection with new additions to the:

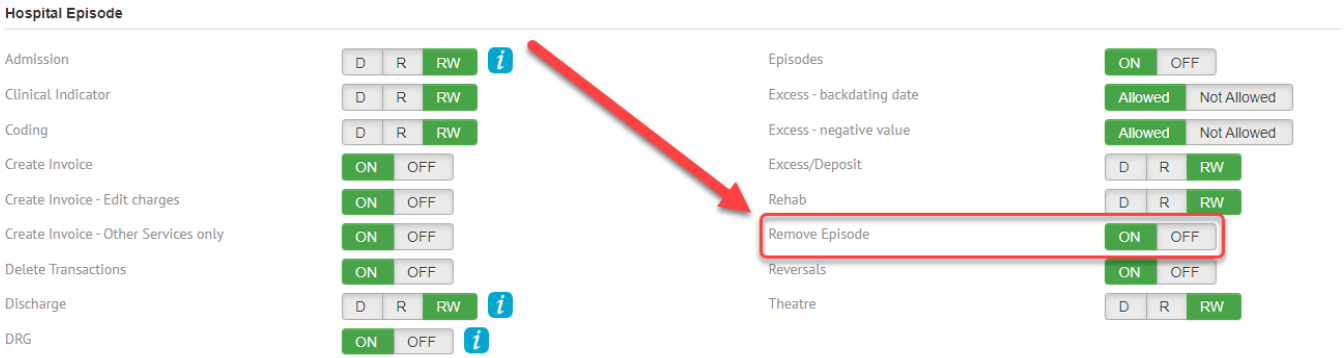

- Incomplete > Uncoded Episodes Report
- Incomplete > Ungrouped Episodes Report

These reports have been fitted out with the famous FYDO Right-Click menu, to allow users to easily and efficiently complete tasks at hand. With essential information being displayed, and columns that can be sorted this report will assist in efficiently and workflow improvements for facilities.

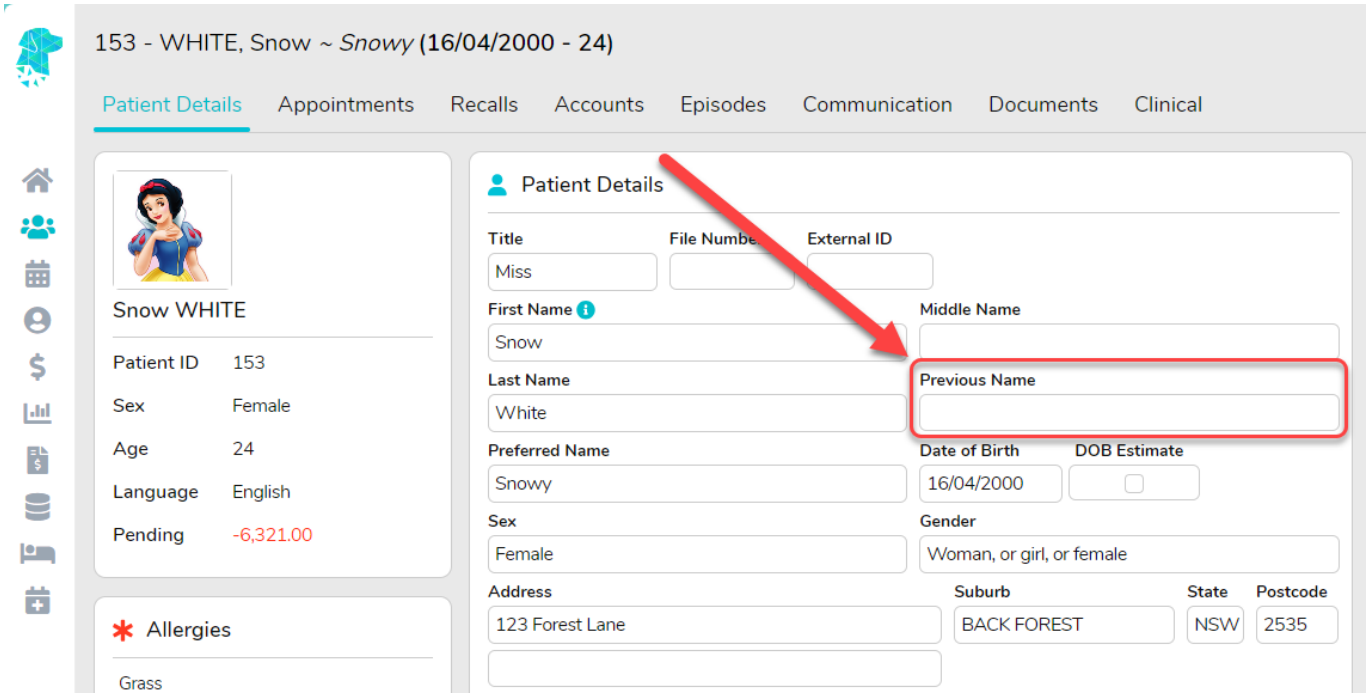

Removing Episodes – New Permission Level

A new permission level that allows facilities to restrict the ability to **Remove Episodes** from FYDO. Since this function was previously available to all users, it will be defaulted too **ON.** Facilities wishing to restrict this functionality from certain User Groups will need to change the setting to **OFF.**

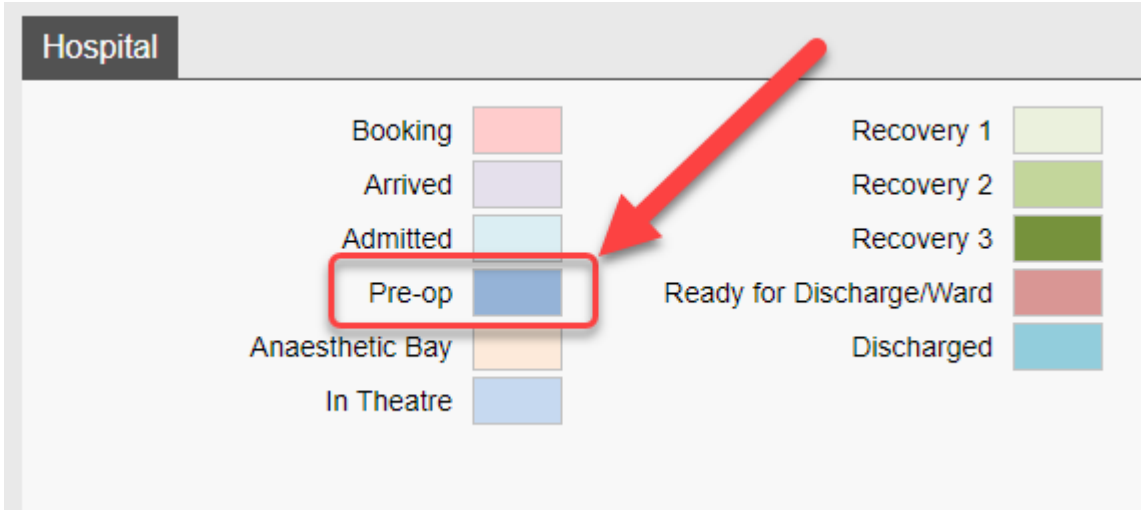

Rename Maiden Name field to Previous Name

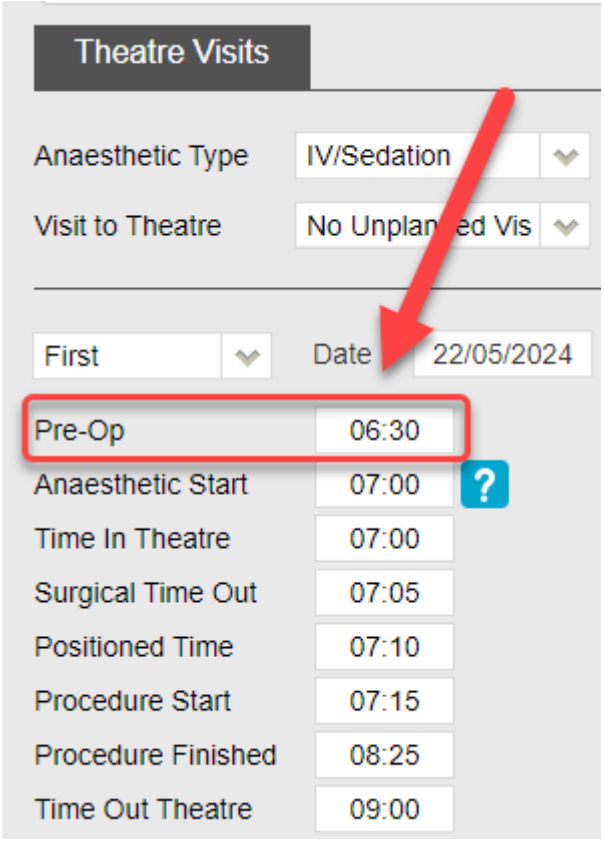

To enhance the usability of the **Maiden Name** field, we have now renamed it to **Previous Name.** This change will be reflected across all screens in FYDO.

New Colour Coding Option for Pre-Op

Facilities, that utilise the **Status View** in the Appointments Screen, are now able to set a colour for when patients enter **Pre-Op**. This colour will be triggered as soon as a time is added to the **Pre-Op field** on the **Theatre Screen**.

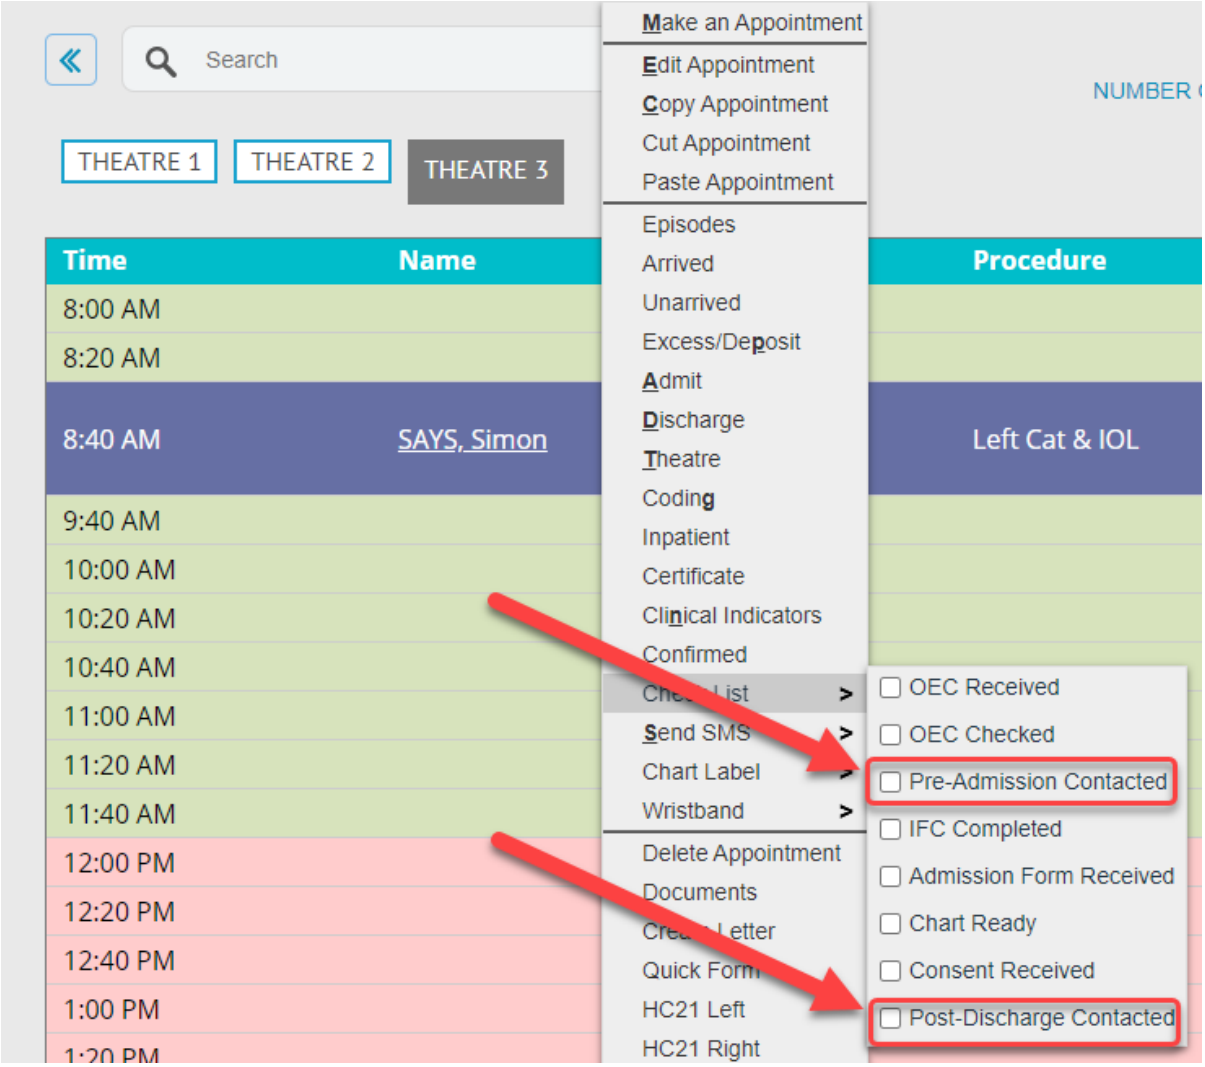

New Check List Options Added

There are now two new **Check List Options** added for facilities to utilise to assist in workflow and the completion of tasks.

- Pre-Admission Contacted
- Post-Discharge Contacted

These options are accessible from the **Right-Click Menu > Checklist** or from the **Edit Appointment Screen**.

Bug Fix

A couple issues, affecting the new theatre time checkers, have been resolved.
