

FYDO Hospital Update - 25/05/2023

New Appointment Screen Right Click Feature

Users are now able to use a single left/normal click, on the **Appointment Time**, to display the menu.

The menu is still available by Right Clicking anywhere on the appointment line; however this new feature has been introduced to make FYDO more compatible with tablets & iPads.

The screenshot displays the FYDO Hospital Appointment Screen. On the left, there is a sidebar with various icons and filters. The main area shows a calendar for May 2023, with a red callout bubble stating: "Single Left Click on the time to display menu". The calendar highlights the 10th of May. Below the calendar, there are filters for Locations, Departments, Doctors/Theatres, and a Filter dropdown set to "All Appointments Exc Cancelled". At the bottom left, there is an "Action" section with options like "Walk Patient In" and "Find Available Appointment". The main appointment list is displayed in a table with columns for Time, Name, and MRN. A right-click context menu is open over the 10:00 time slot, listing various actions such as "Make an Appointment", "Edit Episode", "Copy Appointment", "Cut Appointment", "Paste Appointment", "History", "Arrived", "Unarrived", "Excess/Deposit", "Admit", "Discharge", "Theatre", "Coding", "Inpatient", "Certificate", "Clinical Indicators", "Confirmed", "Check List", "Send SMS", "Chart Label", "Wristband", "Delete Appointment", "Documents", "Create Letter", "Quick Form", "HC21 Left", "HC21 Right", "HC21 Back", "Create Invoice", "IFC", and "OEC". The table on the right shows patient names and MRNs, including DAY, Doris (103), SMITH, John (113), STEWART, Alfred (110), JACKSON, Michael (104), SHOES, Sandy (116), SQUAREPANTS, Spongebob (114), and PORGY, Georgy (118).

New Custom View options for Lists

Users are now able to create their own Custom Views, for the Appointments Screen, when displayed in List mode.

These views can be created to include all the same fields that are used in the other view options. For instructions on creating your own Custom Views follow the instructions on our Wiki page at [Creating Custom Views in the Appointments Screen](#)

Bug Fix

The issue that some users were experiencing when trying to “Reset Mobile (2FA)” has now been rectified.
