

[FYDO Hospital Update - 25/09/2025](#)

Addition to Certificates

A new improvement has been made regarding the addition of certificate reasons in patient records. In the **Settings** tab, you will now find an option for **Certificates**, where you can define and add your certificate reasons.

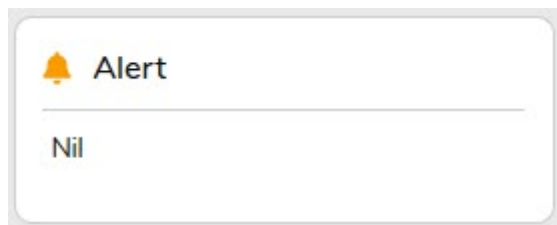

Once the reasons are added, you will have the option to select from a drop-down menu when adding a certificate to the patient's file. While this new feature provides a pre-defined selection, please note that you will still have the flexibility to free-type any additional text as needed.

A screenshot of a form for adding a certificate. It has two main sections: 'Type' and 'Text'. The 'Type' section has a dropdown menu currently showing 'Type C'. The 'Text' section has a 'Select' button, which is highlighted by a red arrow. Below the 'Select' button, a list of predefined reasons is shown: 'Patient has a disability' and 'Patient is a child'.

Update to Patient Alerts

FYDO has now aligned the functionality of Patient Alerts with that of Patient Allergies. When "NIL" is entered in the Patient Alerts section, it will no longer be displayed on the appointment screen, as it is deemed not applicable.

Episode Stats Date Range Addition

A new feature has been added to the **Episode Stats** section under **Reports**. When you click on the date, FYDO now provides the option to search data from specific time periods via a button. The available time periods include:

- Current Week
- Current Month
- Previous Week
- Previous Month
- Current Quarter
- Current Year
- Previous 3 Months
- Previous Quarter

This enhancement is designed to streamline your reporting process and make it easier to retrieve data for the desired time frames.

Change in Episode Stats Re-Admission

Episode stats can now show re-admission within a stipulated number of days.

Enhancement to Medical Retention Record

In the **Medical Retention Record** section under **Reports**, a new column has been added to the export functionality. When exporting this document to Excel, you will now see a dedicated column displaying the procedure notes.

| Patient Name | MRN | Adm# | Last Episode | DOB | Age (During Episode) | Chart Location | Chart Volume | Chart Status | Last DRG | Deceased | Procedure Notes | Indigenous |
|--------------|-----|------|--------------|-----|-------------------------|----------------|--------------|--------------|----------|----------|-----------------|------------|
|--------------|-----|------|--------------|-----|-------------------------|----------------|--------------|--------------|----------|----------|-----------------|------------|
