FYDO Hospital Update – 27/04/2023

Episode Stats Report Addition

There is now the option to **exclude cancelled patients** from the Episode Stats Report. All discharged patients are always included in the episode stats report, regardless of their cancelled status. Therefore, this new feature will assist facilities, that have cancelled admitted & discharged episodes, to obtain statistics on only patients' that have had a complete & not cancelled episode.

Bug Fix

- The issue that was preventing automatic SMSs being sent has been rectified.
