

FYDO Hospital Update - 28/11/2024

Preadmit Features

The **Preadmit Holding Bay** has received a makeover! This new design enhances readability and now displays the **Doctor** and **Admission Date** information, supporting an exciting new feature that allows facilities to link admission forms to **specific episodes!**

An additional column has also been added for flags, paving the way for another exciting upcoming update - [REDACTED]

When **committing** a Preadmit form, users will now see a specific pop-up message depending on whether the patient has any future bookings. If the linked patient has a booking for the current or a future date, the pop-up will prompt the user to assign the form to a specific episode!

AND the user will be able to ensure the **Check List** item for **Admission Form Received** is automatically ticked, right from this one screen!

Alternatively, if the patient has no upcoming appointments, a different pop-up will alert the user that the form can still be committed but will not be assigned to a specific episode.

SMS Additions

The **Admission Form Received** status is now visible on the **Bulk SMS** screen. This enhancement simplifies sending SMS reminders specifically to patients who have not yet completed their forms. Additionally, a new filter allows the screen to display only patients whose admission forms have **not** been received.

Move Theatre Bookings

We're excited to introduce a new feature that makes managing Doctors' Theatre Bookings more efficient! With this update, an entire booking - **patients and all** - can now be **moved in bulk**. This enhancement is particularly helpful when a surgeon changes theatres. Instead of moving appointments one by one, users can simply update the Theatre Booking and confirm the change. All linked patient appointments will automatically be rescheduled to a new theatre/day, saving valuable time and effort.

Overnight Accommodation Fees

To accommodate the ever-changing health fund contract requirements for Overnight Accommodation Fees, we have extended the number of allowed step-downs from 6 to 15. This update aligns with recent changes introduced by health funds, which provide more step-down options for larger overnight hospitals.

Outstanding Debt Alert

In August, we introduced a feature that enabled facilities to add an alert for patients with outstanding balances during the booking process. This feature has now been enhanced to include an **outstanding** days field, ensuring that the alert is triggered only for debts overdue by the specified duration.
