

FYDO Hospital Update - 29/08/2024

Episode Stats Additions

Following the implementation of the Open Access field for referrals, this information has now been included in the **Episode Stats - Excel Raw Data** Export.

Ready for Pick Up Field

The **Ready for Discharge/Ward** field, on the **Theatre Screen**, has been amended to accommodate an additional option. Users now have 2 fields that they can utilise for **Ready for Ward** and **Ready for Pick Up**.

Episode Stats Report

For improved fluency and ease of reading, the Health Fund details on the **Episode Stats (Detail) Report** will now be indicated by the **Fund Code**, instead of the full Health Fund name, which caused the episodes to span multiple lines

Claim Details

There are now tokens available to print the address information for the **Bill To** company & **Other** company in the **Claim Details**.

A full list of hospital tokens can be found at <https://wiki.fydo.cloud/tokens-hospital/>

Webhooks & API's

We have included My Health Record (MHR) Individual Health Identifier (IHI) patient fields in the patient webhooks/APIs along with the MHR consent fields in episode webhooks/APIs.

Two Factor Authentication

Facilities that utilise **Single Sign On (SSO)** are now able to disable **Two-Factor Authentication** if desired.
