

[FYDO Hospital Update - 30/05/2024](#)

Preadmit Form - Manual Link Enhancements

For Preadmit forms that are not automatically linked, FYDO now makes it easier to check for possible matches in the database.

The **Link Patient** feature will now open the search box with the **Date of Birth** from the Preadmit Form already populated and searching for possible matches.

If no matches are found, you can simply click the **Patient** search option to populate the search with the **Name** from the Preadmit Form.

New User Group Access Level

There is a new access level that allows facility to restrict users from **Creating Custom Views** for the **Appointments Screen**. All users will still have access to utilise the Custom Views that have been created for the facility and will be able to choose their default preference.
