

# FYDO Hospital Update - 30/11/2023

## New Report - Item Stats

A new **Item Stats Report** has been added to FYDO that allows users to obtain statistics on all items listed in the Theatre Screen.

This will allow users to collate data easily and efficiently on numbers of procedures performed, whether they are primary or subsequent procedures.

Update

## Revenue Report Additions

Additional fields have been added to the **Excel - Raw Data Export** of the **Revenue Report**. These fields include:

- Theatre ID
- Theatre Name
- Time In Theatre (*First theatre visit*)
- Time Out Theatre (*First theatre visit*)
- Minutes in Theatre (*First theatre visit*)

## Security Settings Relocation

The **Security Settings**, originally located in **System Configuration**, can now be accessed directly from Settings. This change is designed to provide more control over user access to this section of FYDO.

These Security Settings include:

- Webhooks
- API Key
- 2 Factor Authentication Settings
- Single Sign On Settings

A new permission control has been added to **Settings > User Groups**. This change helps facilities grant specific users access to **System Configuration** without necessarily providing access to **Security**.

The new permission control will be defaulted to 'D - Deny' for all users except the Subscriber, who can adjust this setting for the required user groups.

#### Settings General

Accommodation Category	D	R	RW	Nurse List	D	R	RW

## Adding Multiple Label Templates

FYDO now supports multiple label templates. Users can choose from various label templates, loaded into their database, by utilising the **Other Label** option under **Chart Label**.

The **Default** chart label template will still print when any of the original options (*Chart Label x1*, *Chart Label x2* etc) are selected.

The screenshot shows the FYDO interface with a search bar at the top. Below the search bar are three tabs: 'THEATRE 1', 'THEATRE 2', and 'THEATRE 3'. A table displays patient appointments with columns for 'Time' and 'Name'. The 'Time' column lists times from 08:00 to 15:00 in 30-minute increments. The 'Name' column shows 'KNIGHT, Kathy' at 10:00. A dropdown menu is open, showing various options. The 'Chart Label' option is highlighted, and a red arrow points to the 'Other Label' option in the submenu. The submenu also lists 'Chart Label x1', 'Chart Label x2', 'Chart Label x3', and 'Chart Label x4'.

Time	Name
08:00	
08:30	
09:00	
09:30	
10:00	KNIGHT, Kathy
10:20	
10:30	
11:00	
11:30	
12:00	
12:30	
13:00	
13:30	
14:00	
14:30	
15:00	

When selecting the **Other Label** option, a pop-up will display a list of available Chart Label Templates.

The screenshot shows a pop-up window titled 'Labels' with a close button (X) in the top right corner. The window contains a list of four templates, each with a corresponding 'Print' button:

Template Name	Action
Chart 14 - Hospital	Print
Labels - Test	Print
WorkCover Lables	Print
Wristband-Hospital	Print

## Bug Fixes

- The original default **Print List > Order of List** (Theatre, Booking Time, Doctor, Anaesthetist) has been reinstated.
- The speed issue some sites were experiencing while running the **Arrears Report** has been improved.
- The problem some users encountered with updating the doctor from the Theatre Roster Screen, which was not feeding into DOX, has now been resolved.
