Coding Screen - Added Features

The coding screen has some great additions this week. The first is the ability for users to copy & paste the diagnosis & procedure information. This feature can be used for adding descriptions to certificates etc. The fields that can be copied are highlighted in yellow below:

Code	Description	Category
1000000000	1000000000	1000000000
1000000000	1000000000	1000000000

The second new feature in the Coding Screen is the introduction of the **Show MBS Hover**. This section has been added to allow the user to view the MBS items, that are listed in the **Theatre Screen**, without having to close the coding screen down.

To use this feature simply hover over the button **Show MBS** and the list of items will be displayed.

Code	Description	Category
1000000000	1000000000	1000000000
1000000000	1000000000	1000000000

New Raw Data Export Options

There has been **Export > Excel - Raw Data** options added to the following FYDO reports:

- Adjustments (Hospital) Report
- Payments (Hospital) Report
- Billing Status Report

Additional Tick Box Options in the Appointment Screen

There have been two new tick boxes added in the Edit Appointment screen to assist with the workflow of facilities. These tick boxes are **IFC Completed** and **Consent Received**. Users can manually check these boxes once the tasks have been completed. These fields are NOT mandatory & are just available options.

Bug Fix

The issue that some users experience with the session times not showing on their printed lists has been rectified.
