FYDO Hospital Update – 6/7/2023

Show Last 15 MRN's

FYDO now allows users to easily & efficiently identify the last 15 MRN's that they have interacted with & navigate to them.
This feature can be utilised by simply hovering over the **Patient** tab in the main menu & selecting the desired patient.

Grouped By Addition to the Incomplete Report

A new column has been added to the **Incomplete Report,** when run for the **Data Type > Grouped Episodes,** that allows facilities to easily identify the user that has grouped the episode in the Coding Screen.
This new addition will assist in obtaining statistics on the number of episodes that have been grouped for the date range selected.
An **Excel – Raw Data** option has also been added, to give facilities the added ability to filter the Group By column.

Claiming Hospital > Claims Tab

Users are now able to search for a Transaction ID in the Claiming Hospital > Claims tab.

Bug Fixes

- The issue that was causing the audit time in the Episodes screen to show in NSW time, instead of the time zone set by the individual user, has been resolved.
- The issue that was preventing users to add a line space, with the enter key, in the Invoice Message field has been resolved.
