

# Hospital Cancer Registry Data

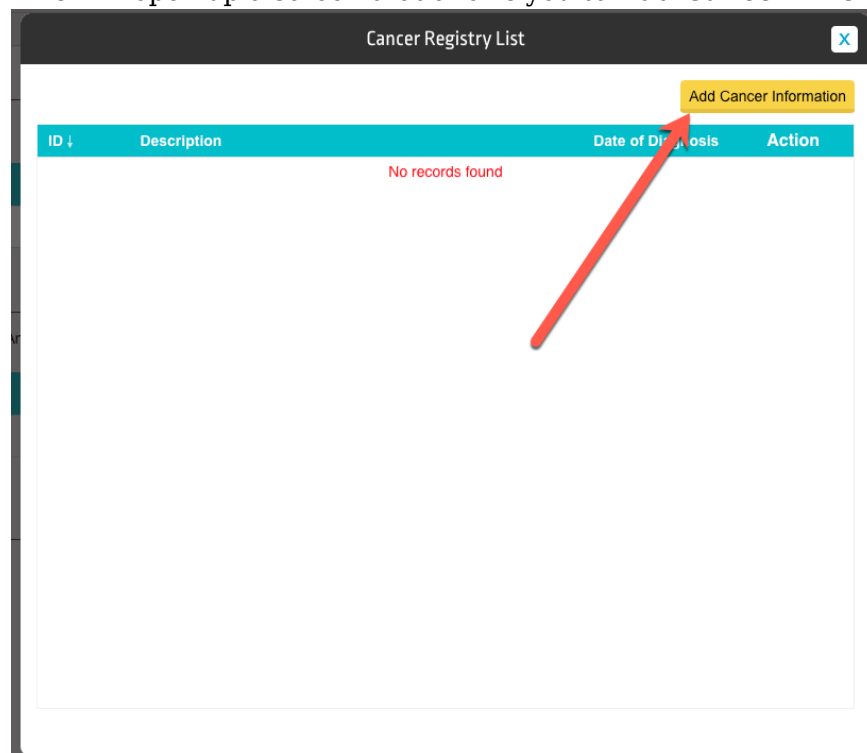

FYDO gives users the ability to enter Cancer Registry information & export the data for ease of submission.

Once the coding has been entered, by following the instructions on [Hospital Coding](#), you are able to click on the **Cancer Registry** icon.

The screenshot shows the 'CODING SCREEN' for a patient with MRN 114. Patient details include: NAME: SQUAREPANTS, Spongebob; DOB: 13/07/1988 - 36; Sex: Male; FileNo: ; Fund: BUP; Location: Shaes Private Hospital (QLD); Admission No: 498; Admission Date/Time: 26/06/2023 06:00; Discharge Date/Time: 26/06/2023 16:00; Dr/Surgeon: CONNORS, Curtis; Anaesthetist: HARRISON, George. A red arrow points to a yellow 'Cancer Registry' button in the top right corner. Below the patient info are sections for 'Diagnosis' (with a 'Coder' input field) and 'Procedure' (with dropdowns for 'Anaesthetic Type' and 'Visit to Theatre'). A table below these sections has columns: #, Type, Code, Description, Indicator. A message 'No diagnosis codes found' is displayed. At the bottom, another table has columns: #, Code, Description, Surgeon/Dr, Date, Location.

This will open up a screen that allows you to **Add Cancer Information**.

The screenshot shows a window titled 'Cancer Registry List'. It features a yellow 'Add Cancer Information' button in the top right. Below the button is a table with columns: ID ↓, Description, Date of Diagnosis, and Action. The table is currently empty, and a red message 'No records found' is displayed in the center. A red arrow points from the 'Add Cancer Information' button to the table area.

Once in the Cancer Registry screen, enter all relevant information for your state & click **Save**.
